Letter Writing as a Social Practice David Barton,Nigel Hall,2000 This book explores the social significance of letter writing. Letter writing is one of the most pervasive literate activities in human societies, crossing formal and informal contexts. Letters are a common text type, appearing in a wide variety of forms in most domains of life. More broadly, the importance of letter writing can be seen in that the phenomenon has been widespread historically, being one of earliest forms of writing, and a wide range of contemporary genres have their roots in letters. The writing of a letter is embedded in a particular social situation, and like all other types of literacy objects and events, the activity gains its meaning and significance from being situated in cultural beliefs, values, and practices. This book brings together anthropologists, historians, educators and other social scientists, providing a range of case studies that explore aspects of the socially situated nature of letter writing.

**Kind Regards** Liz Williams, 2012-09-06 All the signs show that the worthy art of letter writing is in decline. One third of 16-year-olds have never written a letter, and in the next ten years it is predicted that first-class mail will drop by 37%. Emails and texts have overtaken the humble pen and paper as the most popular method of communication. In *Kind Regards*, Liz Williams explores the popular history of letter writing and how it has shaped the world today - from the early Greek philosophers, to the great letter writers Byron and Walpole and famous letters that changed the world. It also covers the invention of the fountain pen and the growth of the mail delivery system. This is the fascinating story of how a simple piece of paper revolutionized global communication and how, despite the ever-growing influence of technology, handwritten letters are regaining their value, meaning and popularity

Use the book for its letter-writing ideas, tear out pages to send to friends, or write in it as a journal to record big ideas for future correspondence. No matter how you use it, you'll be connecting with the people you care about the most in ways that are surprising, fun, and heartfelt. Ruth Gendler.

*Letter Writing* Terttu Nevalainen, Sanna-Kaisa Tanskanen, 2007-03-14 The contributions in this book discuss letter-writing from 1400 to 1800, and the material studied ranges from the late medieval Paston Letters and the correspondence between Sweden and the German Hanse to Early Modern English family letters and correspondence in natural history between England and North America in the eighteenth century. By bringing a set of corpus linguistic, discourse analytic, pragmatic and sociolinguistic approaches to bear on historical letter-writing activity, the articles both extend and complement the traditional letter-writing research in the history of European languages, which approaches the topic from a largely rhetorical perspective. The articles in this book were first published as a

Special Issue of the Journal of Historical Pragmatics 5:2 (2004), share a contextualised view of letters: whether approached from the perspective of language contact, social and discursive practices, intertextuality, audience design or linguistic politeness, letters are analysed as part of their specific familial, business or scientific network. Writing letters thus emerges as highly context-sensitive social interaction.
