The Application of Fuzzy Logic for Managerial Decision Making Processes Andreas Meier,Edy Portmann,Kilian Stoffel,Luis Terán,2017-03-30 This book addresses the latest research and applications of fuzzy management methods for business decisions. It showcases a broad set of applications and discusses topics such as measures for the quality of analytics outcomes in big data environments; how fuzzy management methods support the inclusion of human thinking and human behavior in decision making processes; how to generate better results with fuzzy management methods in cases of imprecise information; new personalization concepts enabled by fuzzy logic for the offering of customized products and services especially in the electronic market; and lastly the application of fuzzy analysis for executives using natural rather than computer language. The combination of research papers and case studies makes it a valuable resource both for researchers and practitioners in the digital economy.

Sunnitischer Tafsîr in der modernen islamischen Welt Johanna Pink,2010-11-11 Previous scholarship on recent Muslim Qur’anic exegesis has mostly focussed on modernising trends, usually remaining within the confines of a single language area. Transcending this hitherto dominating narrow focus, this book offers a comparative analysis of a body of contemporary Sunnite Qur’anic commentaries from the Arab World, Indonesia and Turkey. It takes into account both the influence of specific local conditions and the common intellectual heritage they rely on. By paying special attention not only to new developments, but also to the embeddedness of contemporary Qur’anic exegesis into a more than thousand-year-old intellectual tradition, it provides new insights into the religious, academic, political and social context of exegetical practice in the modern Islamic World. Die Forschung zur neueren muslimischen Koranexegese hat sich bislang weitgehend auf modernisierende Trends konzentriert und sich dabei zumeist innerhalb der Grenzen eines Sprachraums bewegt. Das vorliegende Buch bricht diesen verengenden Fokus auf, indem es einen Korpus von zeitgenössischen sunnitischen Korankommentaren aus der arabischen Welt, Indonesien und der Türkei vergleichend untersucht und der Frage nach ihrer Prägung durch spezifische lokale Bedingungen ebenso nachgeht wie der Analyse des gemeinsamen geistigen Erbes, auf das sie sich stützen. Indem es neben neueren exegetischen Entwicklungen der Einbettung zeitgenössischer Koranexegese in eine mehr als tausend Jahre alte ideengeschichtliche Tradition besondere Aufmerksamkeit widmet, liefert es neue Erkenntnisse über den religiösen, akademischen, politischen und gesellschaftlichen Kontext exegetischer Tätigkeit in der modernen islamischen Welt.
