Cherry Hill 6: Love Shouldn't Hurt [Cherry Hill 6] Dixie Lynn Dwyer, [Siren LoveXtreme Forever: Contemporary Menage Romantic Suspense Romance, MFMM, light spanking, HEA] Love shouldn't hurt, but that is exactly how Harper feels when it comes to her secret relationship with four sexy mercenaries. She loves them so much, but they insist on rules, for her to be a good soldier and be there for them when they come home between missions. She's losing her mind. It just isn't fair to love them so much, to give them so much, but have nothing to show for it but pain. Other soldiers like them claim guardianship of a woman, and even have families. Why can't they? When she has an opportunity to explore old feelings for two other men, she decides to try and figure things out, but as soon as it gets a little intimate she puts on the breaks, feels guilty for loving her four mercenaries so much and she calls things off. When they find out they rage, but they admit to loving her, and worrying about her safety. They claim guardianship of her, and she's willing to be there no matter how long it takes between missions. What they never expect is by loving her, they've made her a target to an enemy they still hunt, and Harper may become the ultimate sacrifice. Dixie Lynn Dwyer is a Siren-exclusive author.

Advances in Italian Mechanism Science Vincenzo Niola,Alessandro Gasparetto, Giuseppe Quaglia, Giuseppe Carbone,2022-08-05 This book presents the proceedings of the 4th International Conference of IFToMM ITALY (IFIT), held in Naples, Italy on September 7-9, 2022. It includes peer-reviewed papers on the latest advances in mechanism and machine science, discussing topics such as biomechanical engineering, computational kinematics, the history of mechanism and machine science, gearing and transmissions, multi-body dynamics, robotics and mechatronics, the dynamics of machinery, tribology, vibrations, rotor dynamics and vehicle dynamics. A valuable, up-to-date resource, it offers an essential overview of the subject for scientists and practitioners alike, and will inspire further investigations and research.

Prayer Books and Piety in Late Medieval and Early Modern Europe / Gebetbücher und Frömmigkeit in Spätmittelalter und Früher Neuzeit Maria Crăciun, Volker Leppin, Katalin Luffy, Ulrich A. Wien, Christopher B. Brown, Günter Frank, Barbara Mahlmann-Bauer, Tarald Rasmussen, Violet Soen, Zsombor Tóth, Günther Wassilowsky, Siegrid Westphal,2023-05-15 This collected volume is dedicated to the role of prayer books in lay piety in medieval and early modern contexts. Instead of focusing on individual examples, it places them within the broader genre of devotional literature and considers them in connection with prevailing cultural, religious and artistic developments, taking into account the Reformation, the printing press and growing interest in lay piety, in the context of increasing individualism, developing literacy, privatization and/or personalization of religion. Contextualising devotional literature, the volume refines understandings of religious practice fostered by traditional Catholicism and early modern Protestantism and its relationship with the written word, locating the use of books within a devotional 'diet' that included oral recitation of prayers as well as contemplation of images. Stressing continuities, often against the grain of existing literature, this volume highlights differences between regional cultures of prayer in contrast to norms set by the universal Church and emphasizes the tension between public/communal and private/individual devotion.

Human Blood Groups Helmut Schenkel-Brunner,2012-12-06 This monograph covers the entire field of blood group serology, with its main emphasis on the chemical and biochemical basis of blood group specificity. Full consideration is given to molecular biology investigations, in particular to studies on the structure of blood group genes and the molecular biological basis of alleles and rare blood group variants, whereby relevant literature up to the year 2000 is covered. The text is supplemented by numerous illustrations and tables, and detailed reference lists.

Quick Cattle and Dying Wishes Erica Fudge,2018-09-15 What was the life of a cow in early modern England like? What would it be like to milk that same cow, day-in, day-out, for over a decade? How did people feel about and toward the animals that they worked with, tended, and often killed? With these questions, Erica Fudge begins her investigation into a lost aspect of early modern life: the importance of the day-to-day relationships between humans and the animals with whom they worked. Such animals are and always have been, Fudge reminds us, more than simply stock; they are sentient beings with whom one must negotiate. It is the nature, meaning, and value of these negotiations that this study attempts to recover. By focusing on interactions between people and their livestock, Quick Cattle and Dying Wishes restores animals to the central place they once had in the domestic worlds of early modern England. In addition, the book uses human relationships with animals—as revealed through agricultural manuals, literary sources, and a unique dataset of over four thousand wills—to rethink what quick cattle meant to a predominantly rural population and how relationships with them changed as more and more people moved to the city. Offering a fuller understanding of both human and animal life in this period, Fudge innovatively expands the scope of early modern studies and how we think about the role that animals played in past cultures more broadly.
