Analyzing Language and Humor in Online Communication Taiwo, Rotimi,Odebunmi, Akinola,Adetunji, Akin,2016-06-16 Misunderstandings in technology-mediated communication can be due to a lack of tone and facial expression on the part of the speaker, which provide additional context clues into the meaning of the message beyond textual representation. As technology becomes more of a ubiquitous element in our interactions with one another, further study into the ways in which language and humor are conveyed online and impact human communication is essential. Analyzing Language and Humor in Online Communication presents a compendium of research into virtual

communities, online communication, social networks, and the ways that language, and humor in particular, are being conveyed and understood in these digital environments. Emphasizing examples from popular culture and contemporary media, this innovative publication fills the current void in the literature by focusing specifically on humor creation and perception in the digital age. Students, researchers, linguists, psychologists, media professionals, and sociologists will find this publication to be a unique reference source.

Nigerian Intellectual Property Law Ayoyemi Lawal-Arowolo, Kunle Ola, 2022-03-03 This book reflects on the development of Nigeria's intellectual property law and outlines the urgent need for reform. Bringing together expert contributors from around the world, the book identifies and discusses the inadequacies and lacunas in current intellectual property law, and how it is practiced and applied in Nigeria. The book argues that the revision and reform of Nigeria's intellectual property law will be vital for the country's development and national interests, whilst also recognising that Nigeria's legal provisions must sit within a broader global context. Divided into three parts, the book discusses

patents, trademarks, and copyright in the context of broad overarching themes affecting all aspects of intellectual property law. Honouring Professor Adebambo Adewopo SAN, the pioneering thinker in Nigerian intellectual property law, this book will be an important resource for researchers working on African Law.

Cultural Netizenship James Yékú, 2022-05-03 How does social media activism in Nigeria intersect with online popular forms—from GIFs to memes to videos—and become shaped by the repressive postcolonial state that propels resistance to dominant articulations of power? James Yékú proposes the concept of cultural netizenship—internet citizenship and its aesthetico-cultural dimensions—as a way of being on the social web and articulating counter-hegemonic self-presentations through viral popular images. Yékú explores the cultural politics of protest selfies, Nollywood-derived memes and GIFs, hashtags, and political cartoons as visual texts for postcolonial studies, and he examines how digital subjects in Nigeria, a nation with one of the most vibrant digital spheres in Africa, deconstruct state power through performed popular culture on social media. As a rubric for the new digital genres of

popular and visual expressions on social media, cultural netizenship indexes the digital everyday through the affordances of the participatory web. A fascinating look at the intersection of social media and popular culture performance, Cultural Netizenship reveals the logic of remediation that is central to both the internet's remix culture and the generative materialism of African popular arts.

All the White Friends I Couldn't Keep Andre Henry, 2022-03-22 A leading voice for social justice reveals how he stopped arguing with white people who deny the ongoing legacy of racism—and offers a proven path forward for Black people and people of color based on the history of nonviolent struggle. “A moving personal journey that lends practical insight for expanding and strengthening the global antiracist movement.”—Patrisse Khan-Cullors, co-founder of Black Lives Matter, bestselling author of *When They Call You a Terrorist* When the rallying cry “Black Lives Matter” was heard across the world in 2013, Andre Henry was one of the millions for whom the movement caused a political awakening and a rupture in some of his closest relationships with white people. As he began using his artistic gifts to share his experiences and perspective, Henry was aggrieved to discover that many white Americans—people he called friends and family—were more interested in debating whether racism existed or whether Henry was being polite enough in the way he used his voice. In this

personal and thought-provoking book, Henry explores how the historical divides between Black people and non-Black people are expressed through our most mundane interactions, and why this struggle won't be resolved through civil discourse, diversity hires, interracial relationships, or education. What we need is a revolution, one that moves beyond symbolic progress to disrupt systems of racial violence and inequality in tangible, creative ways. Sharing stories from his own path to activism—from studying at seminary to becoming a student of nonviolent social change, from working as a praise leader to singing about social justice—and connecting those experiences to lessons from successful nonviolent struggles in America and around the world, Andre Henry calls on Black people and people of color to divest from whiteness and its false promises, trust what their lived experiences tell them, and practice hope as a discipline as they work for lasting change.

Corruption in Africa EgoAlowes, Jimanze, 2017-11-28 The underlying assumption of this work is that of all the epidemics afflicting Nigerian, and nay African people, ignorance is the most prevalent and deadliest. The book is split in two sections: The first is an inquiry into the nature and causes of

corruption in nations and into corruption, while the second builds on the findings of the first and offers related essays and discussions of new findings, theories and concrete realities.

Social Media: A Blessing and A Curse Ayman Kaddoura, This book seeks to scrutinize the concept of social media and bring to light all the parts of it that have been covered up by shadows. We can never truly know a thing until we take out time to understand and this is a principle I believe needs to be applied to social media. For so long, we have gone with the flow, accepting the words of those at the top as gospel without understanding that all their words and actions are tailored to suit their own needs and for this reason, they can seldom tell us the full truth. Through this book, I also want to open your eyes to unending opportunities available to you through this social media, those things that you have overlooked as being too good to be true or have just never had the time to dig deeper to understand their inner workings. I believe that only reveals a thing in its full form to those who actively seek to find it and that is why you can never completely know until you desire and actively seek to. I hope that your journey through the pages of this book brings you enlightenment and that through it,

the eyes of your understanding be opened to those things that have been lurking in the dark. I also hope that your unasked questions will be answered and by the end of this experience, you emerge at the other side with a completely different and better perspective about life and all that it entails.

Racism, Ethnicity and the Media in Africa Winston Mano, 2015-05-05 In today's Africa racism and ethnicity have been implicated in serious conflicts - from Egypt to Mali to South Africa - that have cost lives and undermined efforts to achieve national cohesion and meaningful development. *Racism, Ethnicity and the Media in Africa* sets about rethinking the role of media and communication in perpetuating, reinforcing and reining in racism, absolute ethnicity and other discriminations across Africa. It goes beyond the customary discussion of media racism and ethnic stereotyping to critically address broader issues of identity, belonging and exclusion. Topics covered include racism in South African newspapers, pluralist media debates in Kenya, media discourses on same-sex relations in Uganda and ethnicised news coverage in Nigerian newspapers.

An Intimate Rebuke Laura S. Grillo, 2019-01-10 Throughout West African societies, at times of

social crises, postmenopausal women—the Mothers—make a ritual appeal to their innate moral authority. The seat of this power is the female genitalia. Wielding branches or pestles, they strip naked and slap their genitals and bare breasts to curse and expel the forces of evil. In *An Intimate Rebuke* Laura S. Grillo draws on fieldwork in Côte d'Ivoire that spans three decades to illustrate how these rituals of Female Genital Power (FGP) constitute religious and political responses to abuses of power. When deployed in secret, FGP operates as spiritual warfare against witchcraft; in public, it serves as a political activism. During Côte d'Ivoire's civil wars FGP challenged the immoral forces of both rebels and the state. Grillo shows how the ritual potency of the Mothers' nudity and the conjuration of their sex embodies a moral power that has been foundational to West African civilization. Highlighting the remarkable continuity of the practice across centuries while foregrounding the timeliness of FGP in contemporary political resistance, Grillo shifts perspectives on West African history, ethnography, comparative religious studies, and postcolonial studies.

Powerful Devices Abimbola Adunni Adelokun, 2022-10-14 Powerful Devices studies spiritual

warfare performances as an apparatus for disestablishing structures of power and knowledge, and establishing righteousness in their stead. Drawing on performance studies' emphasis on radicality and breaking of social norms as devices of social transformation, the book demonstrates how Christian groups with dominant cultural power but who perceive themselves as embattled wield the ideas of performance activism. Combining religious studies with ethnography, *Powerful Devices* explores Nigerian Pentecostals and US Evangelicals' praxis of transnational spiritual warfare. By closely studying spiritual warfare prayers as a "device," *Powerful Devices* shows how the rituals of prayer enable an apprehension of time, paradigms of self-enhancement, and the subversion of politics and authority. A critical intervention, *Powerful Devices* explores charismatic Christianity's relationship to science and secular authority, technology and temporality, neoliberalism, and reactionary ideology.

Through the Gender Lens Funmi Soetan, Bola Akanji, 2018-12-12 A cross-sectoral overview of social and political development policies and practices and their gender outcomes in Nigeria, this volume describes the status of women and men under the colonial and post-colonial policy regimes,

unearting the gender relations and gender (in)equality outcomes.

Democracy and Nigeria's Fourth Republic Wale Adebawale, 2023-09-19 Examines Nigeria's challenges with consolidating democracy and the crisis of governance arising from structural errors of the state and the fundamental contradictions of the society in Nigeria's Fourth Republic reflect a wider crisis of democracy globally. 'Today we are taking a decisive step on the path of democracy, ' the newly sworn-in President Olusegun Obasanjo told Nigerians on 27 May 1999. 'We will leave no stone unturned to ensure sustenance of democracy, because it is good for us, it is good for Africa, and it is good for the world.' Nigeria's Fourth Republic has survived longer than any of the previous three Republics, the most durable Republic in Nigeria's more than six decades of independence. At the same time, however, the country has witnessed sustained periods of violence, including violent clashes over the imposition of Shariah laws, insurgency in the Niger Delta, inter-ethnic clashes, and the Boko Haram insurgency. Despite these tensions of, and anxieties about, democratic viability and stability in Nigeria, has democratic rule come to stay in Africa's most populous country? Are the overall conditions

of Nigerian politics, economy and socio-cultural dynamics now permanently amenable to uninterrupted democratic rule? Have all the social forces which, in the past, pressed Nigeria towards military intervention and autocratic rule resolved themselves in favour of unbroken representative government? If so, what are the factors and forces that produced this compromise and how can Nigeria's shallow democracy be sustained, deepened and strengthened? This book attempts to address these questions by exploring the various dimensions of Nigeria's Fourth Republic in a bid to understand the tensions and stresses of democratic rule in a deeply divided major African state. The contributors engage in comparative analysis of the political, economic, social challenges that Nigeria has faced in the more than two decades of the Fourth Republic and the ways in which these were resolved - or left unresolved - in a bid to ensure the survival of democratic rule. This key book that examines both the quality of Nigeria's democratic state and its international relations, and issues such as human rights and the peace infrastructure, will be invaluable in increasing our understanding of contemporary democratic experiences in the neo-liberal era in Africa.

Humour and Politics in Africa Daniel Hammett, Laura S. Martin, Izuu Nwankw , 2023-04-03

Analyses of humour often focus primarily on the Global North, with little consideration for examples and practices from elsewhere. This book provides a vital contribution to humour theory by developing a Global South perspective. Taking a wide-ranging view across the whole of the continent, the book examines the relationship between humour and politics in Africa. It considers the context of the production and reception of humour in African contexts and argues that humour is more than just symbolic. Moving beyond the idea of humour as a mode of resistance, the book investigates the 'political work' that humour does and explores the complex entanglements in which the politics, practices and performances of humour are located.
