Sudeshna Devi

India On Television Nalin Mehta, 2009-01-27 'Excellent...an incisive and much needed study of how television is changing India.' - Rajdeep Sardesai, Managing Editor, CNN-IBN and IBN-7 More than fifty 24-hour news networks, operating in eleven different languages, emerged in India between 1992 and 2006. This book traces the evolution of satellite television and how it effected major changes in political culture, the state, and expressions of Indian nationhood. Explaining how television, a medium that developed in the industrial West, was adapted to suit Indian conditions, the book focuses specifically on the emergence of satellite news channels. It shows how live television used new forms of technology to plug into existing nodes of communication, which in turn led to the creation of a new visual language - national, regional and local - that altered politics and forms of identity formation in significant ways. Satellite television came to India as the representative of global capitalism in the early 1990s and crushed the governmental monopoly over broadcasting that had existed since independence. As such, the story of satellite news is also the story of India's encounter with the forces of globalisation. 'Accumulated with an insider's knowledge...a genuine contribution to the literature, bringing together valuable material that deserves a wide audience.' - Prof. Arvind Rajagopal, author of Politics After Television.

Indian Silver Screen Dr. Paramveer Singh, 2021-08-05 Indian Silver Screen Television in India has been a medium of entertainment as well as social and economic awareness. It was started under government control as a medium of social awareness, but now this medium has become an industry. There was a time when Doordarshan was the only channel on television in India, but today, hundreds of channels broadcast programs day and night. In India today, there are many channels based on sports, news, film, documentary, and music. There was a time when television programs could be viewed only through television sets, but today, through devices such as computers, laptops, and mobiles, viewers can watch their favorite programs at their convenient location, and time. The main objective of this book written on Indian television is to make students aware of the history and status of Indian television. The book begins with the story of the introduction of television in various countries. It describes the development of television in Britain, America, Australia, China, Africa, and other countries of the continent of Asia. After this, the early experiments, projects, and history and current status of television in India are told. Many of the chapters in the book are about the major television business groups in India that have deep penetration into the Indian television industry. The book also introduces programs that have become famous in India, which have proved to be milestones in Indian television history and reached heights of popularity. Apart from this, the book describes the laws of India which have been implemented to control the television industry. A chapter in the book is written about various television broadcasting techniques practiced in the country. Apart from this, there is a chapter about Direct to Home, which tells the story of the development of DTH in India. Television rating points determine the popularity of television channels and programs. The book introduces various agencies and institutions that determine TRP in India. In addition to this, the history of television journalism in India has also been discussed. A chapter about television journalism in various languages of India such as

Hindi, Punjabi, Gujarati, Marathi, Tamil, Telugu, Kannada, Malayalam, Bengali, and Assamese is described in detail. The last chapter of the book discusses various international television channels that are broadcasting in India.

Remote Control Shoma Munshi, 2012-12-15 What do the TV shows we're watching tell us about ourselves? Television is the single most powerful and dynamic agent of change in India today. It is also the country's most popular and accessible form of entertainment. Remote Control examines three kinds of programming—24x7 news, soap operas and reality shows—that have changed Indian television forever, and analyzes how these three genres, while drawing on different sources, are hybridized, indigenized and manage to ultimately project a distinctively Indian identity. Shoma Munshi's book shows us how everyday reality in India in the twenty-first century shapes television; and how television, in turn, shapes us.

Televising Religion in India Manoj Kumar Das, 2022-03-22 This book explores how religion manifests itself in television. It focuses on how religious traditions, practices, and discourses have been incorporated into non-religious television programmes and how they bring both the community and the media into the fold of religion. The volume traces the cultural and institutional history of television in the state of Sikkim, India, to investigate how it became part of the cultural life of the communities. The author analyses three televised shows that captured the community's imagination and became ceremonial and religious engagement. Through these case studies, he highlights how rituals and myths function in mass media, how traditional institutions and religious practices redefine themselves through their association with the visual mass medium, and how identities based on religion, cultural tradition, and politics are reinforced, transformed, and amplified through television. The book further analyses the engagement of televised religion with audiences, its reach, relevance, and contents and its relationship with urbanity, tradition, and identity. This volume will be of interest to students and researchers of media and communication studies, cultural studies, religious studies, sociology, cultural anthropology, and history.

India's New Independent Cinema Ashvin Immanuel Devasundaram, 2016-06-10 This is the first-ever book on the rise of the new wave of independent Indian films that is revolutionising Indian cinema. Contemporary scholarship on Indian cinema so far has focused asymmetrically on Bollywood—India's dominant cultural export. Reversing this trend, this book provides an in-depth examination of the burgeoning independent Indian film sector. It locates the new 'Indies' as a glocal hybrid film form—global in aesthetic and local in content. They critically engage with a diverse socio-political spectrum of 'state of the nation' stories; from farmer suicides, disenfranchised urban youth and migrant workers to monks turned anti-corporation animal rights agitators. This book provides comprehensive analyses of definitive Indie new wave films including Peepli Live (2010), Dhobi Ghat (2010), The Lunchbox (2013) and Ship of Theseus (2013). It explores how subversive Indies, such as polemical postmodern rap-musical Gandu (2010) transgress conventional notions of 'traditional Indian values', and collide with state

censorship regulations. This timely and pioneering analysis shows how the new Indies have emerged from a middle space between India's globalising present and traditional past. This book draws on in-depth interviews with directors, actors, academics and members of the Indian censor board, and is essential reading for anyone seeking an insight into a current Indian film phenomenon that could chart the future of Indian cinema.

Indian Air Force in India's National Defence 2032, 2014-06-15 The Indian Air Force (IAF), from a humble beginning in 1932 with four Wapiti aircraft, six Indian officers and 22 hawai sepoys, has traversed a long journey and crossed noteworthy milestones to become the fourth largest air force in the world. In the past 81 years, while facing several limitations/challenges, the IAF has met all the national defence requirements, and made several strategic contributions. The 1948 Kashmir airlift, Tangail paradrop, heli-bridging in East Pakistan and many other achievements are historic examples of its sterling performance. The only war independent India has lost was the one in which the IAF was not employed in a combat role. With growing economic interests and national aspirations, expanding interests well beyond our territorial boundaries and prevailing internal security challenges, India's national defence requirements are also increasing. Reliance of sovereign nation-states on aerospace power is essentially growing. The first Gulf War was a monumental turning point in the war-time employment of aerospace power. Ever since, the significance of aerospace power in war, crisis and peace-time has been gaining ascendancy. Kosovo and Libya are the two pertinent examples of the allies virtually relying on aerospace power, without committing any soldiers on the ground. Scrutiny of the emerging global and national trends suggests that employment of aerospace assets, as well as the nation's expectation from the IAF, will continue to rise. Alongside, there is an unplanned fall in flying platforms, weapon systems and pilot strength of the IAF. This study is an attempt to analyse the history of the IAF in war as well as 'other than war operations'; to appreciate the emerging trends in geopolitics, aerospace technology and doctrine; and to identify the likely challenges the IAF would be facing in the next two decades and beyond. A roadmap for transformation of the national security framework, the indigenous aerospace industry and the IAF has also been suggested.

Telemodernities Tania Lewis, Fran Martin, Wanning Sun, 2016-08-12 Yoga gurus on lifestyle cable channels targeting time-pressured Indian urbanites; Chinese dating shows promoting competitive individualism; Taiwanese domestic makeover formats combining feng shui with life planning advice: Asian TV screens are increasingly home to a wild proliferation of popular factual programs providing lifestyle guidance to viewers. In Telemodernities Tania Lewis, Fran Martin, and Wanning Sun demonstrate how lifestyle-oriented popular factual television illuminates key aspects

of late modernities in South and East Asia, offering insights not only into early twenty-first-century media cultures but also into wider developments in the nature of public and private life, identity, citizenship, and social engagement. Drawing on extensive interviews with television industry professionals and audiences across China, India, Taiwan, and Singapore, *Telemodernities* uses popular lifestyle television as a tool to help us understand emergent forms of identity, sociality, and capitalist modernity in Asia.

Transnational Television Worldwide Jean K. Chalaby, 2004-11-26 This book is the first to offer a global perspective on the unique contemporary media phenomenon of transnational television channels. It is also the first to compare their impact in different regions of the globe. Revealing great richness and diversity across some of the world's main geocultural regions (Europe, the Middle East, Africa, South Asia, Greater China and Latin America), international contributors with in-depth industry knowledge examine the place of these channels in the process of globalization, their impact on the nation-state and on regional culture and politics. The book also considers audiences and geocultural TV markets, providing new ways of thinking about the emerging transnational media order.

Lifestyle Media in Asia Fran Martin, Tania Lewis, 2016-05-20 Across Asia, consumer culture is increasingly shaping everyday life, with neoliberal economic and social policies increasingly adopted by governments who see their citizens as individualised, sovereign consumers with choices about their lifestyles and identities. One aspect of this development has been the emergence of new wealthy middle classes with lifestyle aspirations shaped by national, regional and global media – especially by a range of new popular lifestyle media, which includes magazines, television and mobile and social media. This book explores how far everyday conceptions and experiences of identity are being transformed by media cultures across the region. It considers a range of different media in different Asian contexts, contrasting how the shaping of lifestyles in Asia differs from similar processes in Western countries, and assessing how the new lifestyle media represents not just a new emergent media culture, but also illustrates wider cultural and social changes in the Asian region.

Television Publics in South Asia S M Shameem Reza, Ratan Kumar Roy, 2023-11-20 Television has a prime role to play in the formation of discursive domains in the everyday life of South Asian publics. This book explores various television media practices, social processes, mediated political experiences and everyday cultural compositions from Bangladesh, India, Nepal, Pakistan and Sri Lanka. With the help of country-specific case studies, it captures a broad range of themes which foreground the publics and their real-life experiences of television in the region. The chapters in this book discuss gendered television spaces, women seeking solace from television in pandemic, the taboo in digital TV dramas, television viewership and localizing publics, changing viewership from television to OTT, news and public perception of death, redefining 'the national', theatrical television and post-truth television news, among other key issues. Rich in ethnographic case studies, this volume will be a useful resource

for scholars and researchers of media and communication studies, journalism, digital media, South Asian studies, cultural studies, sociology and social anthropology.

Indian Mass Media and the Politics of Change Somnath Batabyal, Angad Chowdhry, Meenu Gaur, Matti Pohjonen, 2013-04-11 India has been the focus of international attention in the past few years. Rhetoric concerning its rapid economic growth and the burgeoning middle classes suggests that something new and significant is taking place. Something has changed, we are told: India is shining, the elephant is rising, and the 21st century will be Indian. What unites these powerful re-imaginings of the Indian nation is the notion of change and its many ramifications. Election campaigns, media commentators, scholars, activists and drawing room debates all cut their teeth around this complex notion. Who is it that benefits from this change? Do such re-imaginings of nationhood really reflect the complex social reality of large parts of the Indian population? The book starts with the premise that it is within the mass media where we can best understand how this change is imagined. From a kaleidoscope of perspectives the book interrogates this articulation and the myriad forms it takes – across India's newsrooms, television sets, cinema halls, mobile phones and computer screens.

Media Discourse in Contemporary India Sudeshna Devi, 2022-06-24 This book examines the historical trajectory of the growth of the television news and critically analyzes the role of private television news in framing the nature of public discourse in contemporary India. Set in the context of a transformed media landscape, the book attempts to understand and analyze the role of two private national news channels, NDTV 24x7 and Aaj Tak, in producing mediatized narratives that offer a commentary on the various social, political, cultural, religious and economic issues in the public domain. This is achieved by critically examining the process and techniques of production, representation and consumption of current affairs programs such as studio debates, panel discussions, audience talk shows and documentaries aired on both the channels. Highlighting some of the key trends that impinge on the structure and mode of operation of television news media in contemporary India, the book offers a simultaneous examination of how the production, representation and consumption of the mediatized discourses shape the nature of public discourse and have social-political ramifications for the functioning of Indian democracy. The book will be of interest to researchers in sociology, media and communication studies, popular culture and South Asian Studies.

IPL: An inside story. Cricket & Commerce Alam Srinivas, TR Vivek, 2012-09-24 Much like its commissioner Mr Lalit Modi, IPL from the very beginning has always been mired in controversies of all imaginable kinds. From Vijay Mallyas sacking of the team coach Charu Sharma for the teams poor performance in season one to the grand auction of international players for season two in Fort Aguda Beach Resort in Goa, Modi has been able to keep the interest alive by successfully marrying money with sports. This is a new kind of cricket, where players are auctioned and teams and players are owned by franchise owners. But this is also the cricket where players from U-19 get a chance to play with Sachin Tendulkar or Shane Warne. IPL: An Inside Story takes a look at almost all the aspects of IPL from who actually first thought of such a tournament to the process of choosing the franchise owners, and from the socio-economic impact of the IPL on Indian society to the politics of shifting the venue of season two to
