And I Wanted To Be A Boat Bum Jim Hawk,2017-03-29 Let me introduce myself. My name is Gore Lyle. I'm a six-foot-two-inch, two-hundred-pound (of mostly muscle) ex-Green Beret, ex-cop, undercover SPUTF (Special Police Undercover Terrorism Force) agent. I also am independently wealthy thanks to a mob chief. Did I mention the mob would probably like to take me out? I say probably because I don't talk to them about that subject. When I interact with the mob, it usually involves a gun and little talk. This all sounds cut-and-dried, but life is never cut-and-dried. I always carry bad memories of Green Beret missions that went wrong where a lot of killing was involved. I was a different brutal person back then. Then, I found God. However, that old Gore is always there in the background like a bad dream. And yet, working in a dangerous occupation, that bad Gore comes in handy, at times, but must be kept in check most of the time. Only crying out to God and my weird sense of humor helps. What a quandary, for a Christian-You can only cover so much up with humor. Welcome to my life.

Stolen Obsession Marlene M. Bell,2018-03-19 Debut author Bell delivers a great, slow-building romance, gently examining her characters' painful pasts.--Kirkus Reviews An irresistible page turner and a successful melding of thriller and romance. With a splash of international adventure and plenty of surprises, *Stolen Obsession* is an entertaining read and a great beginning to the Annalisse Series. Marta Cheng, Self-Publishing Review, ★★★★★½ People die, but legends live on. New York antiques appraiser Annalisse Drury recently lost her best friend to murder. The killer's identity may be linked to her friend's expensive missing bracelet—a 500-year-old artifact that carries an ancient curse, one that unleashes evil upon any who dare wear the jewelry created for the Persian royal family. Weeks later, Annalisse sees a matching necklace at a Manhattan gallery opening. She begs the owner to destroy the cursed piece, but her pleas fall on deaf ears—despite the unnatural death that occurs during the opening. With two victims linked to the jewelry, Annalisse is certain she must act. Desperate, Annalisse enlists the gallery owner's son to help—even though she's afraid he'll break her heart. Wealthy and devastatingly handsome, with a string of bereft women in his wake, Greek playboy Alec Zavos dismisses Annalisse's concerns—until his parents are ripped from the Zavos family yacht during their ocean voyage near Crete. Annalisse and Alec race across two oceans to save his mother, feared dead or kidnapped. When the killer changes tactics and goes after Alec behind Annalisse's back, can her plan to rescue Alec's mother save them all? Hold on for a heart-thumping, thrilling adventure through exotic lands in this fast-moving romantic suspense mystery by Marlene M. Bell.

Interactive Marketing Christopher Miles,2010-05-18 This book critically examines the rhetoric surrounding current trends in the adoption of tropes of interactivity in marketing communication. Concepts such as viral advertising, customer-generated content, brand communities and the whole panoply of Web 2.0-mediated marketing technologies all have their foundations in an overt positioning of interactivity as the savior of effective marketing communication. Yet, what exactly is meant by interactivity in these contexts and how far does it represent a revolution in the methodologies of marketing? Anchoring his analysis in a critique of the assumptions of control embedded in current marketing communication models and the rhetorical analysis of exemplar texts from the Marketing Management, Customer Relationship Management, Viral Marketing and Buzz Marketing paradigms, Chris Miles investigates the constructions and reconstructions of discourse that surround the uses of interactivity in contemporary marketing discourses. In doing so, he offers a radical new model of marketing based upon a recursive, constructivist understanding of communication that uses metaphors of invitation and exploration to rebuild interactivity at the center of marketing. The work culminates in a reading of the theory of Relationship Marketing that uses autism as an allegory to interrogate the communicative paradox at the heart of this contemporary marketing panacea.

Sound and Noise Marcia Jenneth Epstein,2020-10-30 This book is about how you listen and what you hear, about how to have a dialogue with the sounds around you. Marcia Jenneth Epstein gives readers the impetus and the tools to understand the sounds and noise that define their daily lives in this groundbreaking interdisciplinary study of how auditory stimuli impact both individuals and communities. Epstein employs scientific and sociological perspectives to examine noise in multiple contexts: as a threat to health and peace of mind, as a motivator for social cohesion, as a potent form of communication and expression of power. She draws on a massive base of specialist literature from fields as diverse as nursing and neuroscience, sociology and sound studies, acoustic ecology and urban planning, engineering, anthropology, and musicology, among others, synthesizing and explaining these findings to evaluate the ubiquitous effects of sound in everyday life. Epstein investigates speech and music as well as noise and explores their physical and cultural dimensions. Ultimately she argues for an engaged public dialogue on sound, built on a shared foundation of critical listening, and provides the understanding for all of us to speak and be heard in such a discussion. *Sound and Noise* is a timely evaluation of the noise that surrounds us, how we hear it, and what we can do about it.

Optical Networking Best Practices Handbook John R. Vacca,2006-11-28 Optical Networking Best Practices Handbook presents optical networking in a very comprehensive way for nonengineers needing to understand the fundamentals of fiber, high-capacity, high-speed equipment and networks, and upcoming carrier services. The book provides a practical understanding of fiber optics as a physical medium, sorting out single-mode versus multi-mode and the crucial concept of Dense Wave-Division Multiplexing.

United Arab Emirates Sébastien Boussois,2023-07-04 The United Arab Emirates has emerged in a few decades to sell itself as an enlightened, modern, liberal beacon in the midst of a dark and chaotic Arab world. As the first country in the region to implement a Vision (Abu Dhabi Vision 2030), the UAE quickly became a resounding success beyond its borders. This is the bright side. The dark side: the UAE contributes to the stifling of democracies in Muslim countries. When they are not waging war, as in Yemen, they interfere, as no Arab power has done before, in the affairs of other countries, namely, Algeria, Egypt, Syria, Sudan, Tunisia. Abu Dhabi does not care about the Arab revolutions—for ten years, the country has engaged in a powder keg policy, which heralds new dangers for the region's equilibrium. Sébastien Boussois is a researcher in political science and is associated with ULB (Brussels) and UQAM (Quebec).

The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Audiobooks, Literature, and Sound Studies Matthew Rubery,2011-05-09 This is the first scholarly work to examine the cultural significance of the talking book since the invention of the phonograph in 1877, the earliest machine to enable the reproduction of the human voice. Recent advances in sound technology make this an opportune moment to reflect on the evolution of our reading practices since this remarkable invention. Some questions addressed by the collection include: How does auditory literature adapt printed texts? What skills in close listening are necessary for its reception?

What are the social consequences of new listening technologies? In sum, the essays gathered together by this collection explore the extent to which the audiobook enables us not just to hear literature but to hear it in new ways. Bringing together a set of reflections on the enrichments and impoverishments of the reading experience brought about by developments in sound technology, this collection spans the earliest adaptations of printed texts into sound by Charles Dickens, Thomas Hardy, and other novelists from the late nineteenth century to recordings by contemporary figures such as Toni Morrison and Barack Obama at the turn of the twenty-first century. As the voices gathered here suggest, it is time to give a hearing to one of the most talked about new media of the past century.

A Lovely Way to Burn Louise Welsh,2016-04-05 A pandemic called 'The Sweats' is sweeping the globe. London is a city in crisis. Hospitals begin to fill with the dead and dying, but Stevie Flint is convinced that the sudden death of her boyfriend Dr Simon Sharkey was not from natural causes. As roads out of London become gridlocked with people fleeing infection, Stevie's search for Simon's killers takes her in the opposite direction, into the depths of the dying city and a race with death. *A Lovely Way to Burn* is the first outbreak in the Plague Times trilogy. Chilling, tense and completely compelling, it's Louise Welsh writing at the height of her powers.
