Emily Brontë

*En busca de mi padre* Luis Martín Hinojosa, 2014-10-23 Esta novela de Luis Martín Hinojosa transporta al lector a la época de finales de la Revolución Mexicana. El autor nos lleva de la mano para presenciar cómo Fabián Saldívar, modesto peón de una hacienda, junto con sus hermanos y primos deciden incorporarse a un grupo de revolucionarios villistas. Al partir, su mujer sufre una caída, a causa de la cual muere, dejando en la orfandad a dos pequeños hijos, el mayor de los cuales era Fabián, un joven adolescente que decide abandonar el rancho para ir en busca de su padre y en el camino se encuentra con una gavilla de bandoleros cuyo jefe de nombre Hilario Carrillo, un acaudalado ranchero. Hilario se lleva consigo a Fabián y entre ellos surge una espontánea afinidad, un amor padre-hijo, por lo que Hilario promete ayudarlo a encontrar a su padre. Por su parte, Fabián Saldívar, padre del pequeño Fabián fue capturado por las autoridades y recluido en el principal centro penitenciario de la ciudad de Durango, donde cae en manos de un grupo de funcionarios corruptos, quienes lo obligan a cometer asesinatos de personajes destacados en los ámbitos político y económico, para despojarlos de sus propiedades; a cambio de eso, le darían su libertad.

**Cumbres borrascosas** Emily Brontë, 2023-01-15 Una de las mayores historias de amor de la literatura y quizá la mejor representante del romanticismo inglés. Prólogo de Lucasta Miller, autora de *The Brontë Myth* Introducción de Pauline Nestor, catedrática de literatura inglesa Traducción de Nicole D'amonville Alegría Cumbres borrascosas, la épica historia de Catherine y Heathcliff, situada en los sombríos y desolados páramos de Yorkshire, constituye una asombrosa visión metafísica del destino, la obsesión, la pasión y la venganza. Con ella, Emily Brontë, que la publicó bajo un seudónimo masculino, rompió por completo con los cánones del decoro que la Inglaterra victoriana exigía en toda novela, tanto en el tema escogido como en la descripción de los personajes. La singularidad de su estructura narrativa y la fuerza de su lenguaje la convirtieron en una de las obras más perdurables e influyentes de la historia de la literatura. En el prefacio de la presente edición, Lucasta Miller, autora de *The Brontë Myth* (2001), analiza las diferentes interpretaciones que se han hecho de esta polémica obra. A su vez, la introducción de la profesora Pauline Nestor da cuenta de las influencias y los orígenes de Emily Brontë como escritora. Por último, la edición incorpora la notabiográfica y el prefacio original, escrito por Charlotte Brontë, en el que revelaba la verdadera identidad de su autora, junto a un árbol genealógico de los protagonistas de la novela. Virginia Woolf dijo... «Con un par de pinceladas Emily Brontë podía conseguir retratar el espíritu de una cara de modo que no precisara cuerpo; al hablar del páramo conseguía hacer que el viento soplara y el trueno rugiera.»

**Manuela** José Eugenio Díaz Castro, 2020-03-15 Manuela es una novela costumbrista escrita por el autor colombiano José Eugenio Diaz Castro en el año de 1856, publicada inicialmente por entregas en el periódico *El Mosaico* en 1858 y en forma completa en dos volúmenes en París después de la muerte del autor en 1889 por la casa editorial francesa Garnier hermanos. Manuela es considerada la obra literaria más importante de los primeros años de la república. Hoy en día la crítica colombiana la considera como la mejor novela nacional anterior a *María de Jorge Isaacs* y la novela colombiana que mejor trató los problemas de fundación nacional de su tiempo y aunque inicialmente fue criticada por el lenguaje coloquial usado por sus personajes, desde temprano se la consideró una novela de gran valor social e histórico por los críticos del siglo XIX como José María Vergara y Salvador Camacho Roldán y por importantes historiadores como Germán Colmenares) y economistas como Salomón Kalmanovitz en el siglo XX, que la usaron para corroborar sus análisis de aquel periodo. De no existir *María* (1867), de Jorge Isaacs, Manuela podría definirse como la mejor novela colombiana del siglo XIX. Escrita hacia 1858, la obra refleja en su construcción y estilo las dos modalidades principales del espíritu de la época: un realismo sano, aunque ingenuo, al lado de una trama basada en reminiscencias de la vida política contemporánea. De aquí proceden las dos características más acusadas de la obra: su descriptivismo, a veces rudo y desaliñado, y la preponderancia del problema social: la explotación de la clase humilde y desvalida por individuos más o menos poderosos económica o políticamente. La heroína, Manuela, asediada con increíble constancia y perversidad por Tadeo, sufre todas las persecuciones de éste antes que entregarse en sus brazos, para morir en los de su verdadero amante, el labrador Dámaso. Sin verdaderos caracteres, con una acción lenta que se pierde en multitud de episodios y detalles, con su estilo matizado de popularismo y expresiones directas, Manuela es un buen ejemplo de lo que la tendencia socializante del siglo pasado logró en el campo literario al ser trasplantada a tierra americana. Se publicó por primera vez, fragmentariamente, en el periódico *El Mosaico*, en diciembre de 1858; completa, por Focón

Mantilla, en 1866, y en París, por Garnier Hermanos, en 1889, en dos tomos. Manuela es una representación de todo el país, en la medida en que describe una nación en la que persiste la economía de tipo colonial. Aún subsisten la hacienda con sus trapiches y peones, aunque con algunas excepciones; la economía de la población de Ambalema se rige por la empresa manufacturera y la comercialización del tabaco.

[Antología de Relatos de Terror de H. P. Lovecraft H. P. Lovecraft,2017-03-22](#) El “solitario” de Providence (Massachusetts), el escritor H. P. Lovecraft, en su relativamente corta vida (1890-1937) perfecciona la inspiración de su maestro espiritual Edgar Allan Poe, en cuanto a concebir una atmósfera de terror en sus narraciones y crear así el terror cósmico. Abandona de una vez por todas los castillos góticos encantados, los fantasmas, vampiros y brujas para diseñar un inframundo de seres semihumanos, extraterrestres o extradimensionales, y el terror se transforma para el lector en un miedo a lo cósmico, al universo. En el mundo del autor existe siempre algo amenazador, pero no se sabe nunca su naturaleza hasta tal punto que por mucho que luchemos quedamos prendidos en ella. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 10.1px Verdana}

P. Lovecraft, fue un escritor estadounidense, autor de novelas y relatos de terror y ciencia ficción. Se le considera un gran innovador del cuento de terror, al que aportó una mitología propia (los mitos de Cthulhu), desarrollada en colaboración con otros autores y aún vigente. Su obra constituye un clásico del horror cósmico, una corriente que se aparta de la temática tradicional del terror sobrenatural (satanismo, fantasmas), incorporando elementos de ciencia ficción (razas alienígenas, viajes en el tiempo, existencia de otras dimensiones).
