DUDDED AT ARMS ANDRE NORTON, 2015-12-01 When Andas Kastor awakens in an alien land, he must figure out if he's the true emperor of his home world or an evil double in a stark, arid wasteland, a man awakens from a frozen state. As he stares out his narrow slit of a window, he has no memory of how he got there—or why. All he knows is his name: Andas Kastor, Imperial Prince of Inyanga. But instead of the luxurious trappings of his royal palace, he's in a hellish, storm-lashed place punctuated by howling winds and shattering streaks of lightning. And he's not alone. In this uninhabited world, he meets five other survivors, also of noble birth. They include the scaled, emerald-haired Elys of Posedonia and clawed, fanged Lord Yolyos of Sargol. They all speak the same Basic language, as befits those from neighboring spheres. Were they abducted, spirited to this alien planet, and held in mind-lock while evil doppelgangers ruled in their places? After a daring escape, Andas returns to Inyanga—only to discover that decades have passed and another sits on his throne. Now, hunted across barriers of time, Andas must fight external and internal enemies to save his civilization and uncover the truth about his identity.

E The Rise of the Human Androids Malcolm P. Chester, 2010 A dying war hero is miraculously healed by the advanced technology of an alien who merges with him to save his own life. Together they along with an equally old android build a whole new country in the Solar System outside of Earth. To build their new country they must fight assassins hired by shadowy groups and Earth governments who want the advanced technology of the alien race to which the android and alien belong. While fighting this battle, they must also prepare for a war against their own alien race which wants information and crystals taken by the alien now merged with our hero. The outcome of these battles depends on the newly created human androids, who struggle to find their identity while fighting to save themselves and mankind.
