*No Domain* Mark Eglinton,2021-12-28 "John McAfee is an American original—bold, brilliant, unpredictable. Characters like him came from a different era—not the woke, soy boy, non-confrontational culture of modern high tech. You meet McAfee head on in *No Domain*—in his raw energy and spit-in-your-eye cussedness. Buy this book, read this book, and understand—could anything, even John McAfee, kill John McAfee?" —Stephen K. Bannon, White House Chief Strategist, Host: War Room Delete everything you think you know about tech pioneer John McAfee, whose antivirus software operates on millions of computers around the world. Uninstall any impressions you have of the man depicted in the news, the man in disguise and on the run in Central America, even the man who reinvented himself as the Libertarian Party's candidate in the 2016 presidential election. Move these images to your brain's trash file. The real John McAfee is far more complex. Drawn from hours of conversations between Mark Eglinton and John McAfee in 2019—while he was hiding in an undisclosed location—*No Domain: The John McAfee Tapes* provides startling insight into the extraordinary life of one of America's genuine renegades. McAfee shares his life story like it's his last will and testament, providing revelatory details on the abusive father who shot himself when John was a young boy; the life-changing LSD overdose in St Louis, during which he was nearly convinced by voices in his head to try to kill his first wife and

daughter; the unexpected government clearance that led to him working on CIA dark programs; the combined affinity for mathematics and hallucinogens that informed the hedonistic nature of his software company in Silicon Valley; the attempt to find a quiet life in Belize only to become a pariah in the eyes of the local militia, from whom he'd later flee, having been framed for the murder of his neighbor; and the subsequent years on the run in the US, evading a cast of pursuers, including the Sinaloa Cartel, while burying bags of money and valuables in marked locations around the Southwest, before fleeing the country on his yacht. John McAfee has lived a life that defies description. This larger-than-life biography documents it all.

**The Man Who Hacked the World** Alex Cody Foster, 2022-11-15 \*BASED ON ACCOUNTS FEATURED IN THE #1 NETFLIX DOCUMENTARY FILM RUNNING WITH THE DEVIL\* A 2023 Next Generation Indie Book Award Finalist for Best True Crime John McAfee: internet pioneer, presidential candidate, and probable madman. After parting ways with the eponymous McAfee Antivirus software company in 1994, McAfee embarked on innumerable business, political, and criminal enterprises. From investing in cybersecurity and cryptocurrency, to accusations of murdering his neighbor in Belize, to making two unsuccessful bids for President of the United States—the latter attempt done in exile following a federal indictment—this larger-than-life man nurtured a rakish public profile while evading law enforcement for his involvement with drugs, weapons, and murder. For six months, Alex Cody Foster—hired as McAfee's ghostwriter—traveled with

McAfee across America and Europe, occasionally going on the run to evade purported killers and kidnappers. Foster tells the incomparable tale of how the two of them met, where their adventures had taken them, and what precipitated McAfee's death.

**To Make a Difference** Scott Walker, 2014 Over the span of the last three centuries, the ancestors of James T. McAfee, Jr., relentlessly sought for a life that could make a difference. Toward the middle of the seventeenth century, the McAfees left conflict-torn Scotland, and migrated to Ireland. Once in Ireland, extreme hunger and poverty gave them urgent reason to risk voyage across the violent North Atlantic to the New World. Undeterred, they trekked from Delaware to Virginia, pioneered west into the unknown bluegrass of Kentucky alongside Daniel Boone, and finally, at the turn of the twentieth century, this weary clan settled next to the Mississippi River in the rich, alluvial soil of Western Tennessee. A propitious moment had arrived. Success requires the relentless yearning and courage of countless generations for a family to reach a culminating moment of great contribution and distinction. With the birth of James T. McAfee, Jr., in 1939, such fulfillment coalesced. Over the span of the next six decades, Jim McAfee emerges as a significant leader within the healthcare industry, as well as a generous and visionary contributor to higher education. Drawing on family memoirs and a cache of personal interviews, Scott Walker recounts the career of Jim McAfee, and the

impact of his life on Belmont University, Mercer University, and Union University. Book jacket.

*The Man Who Hacked the World* Alex Cody Foster, 2023-09-05 A rare inside look at the life and death of the eccentric and wildly controversial creator of the first anti-virus software brought to market--a man haunted by his past while enthralled by his own legend.
