Scammer's Yard Jovan Scott Lewis, 2020-10-27 Tells the story of Jamaican “scammers” who use crime to gain autonomy, opportunity, and repair. There is romance in stealing from the rich to give to the poor, but how does that change when those perceived rich are elderly white North Americans and the poor are young Black Jamaicans? In this innovative ethnography, Jovan Scott Lewis tells the story of Omar, Junior, and Dwayne. Young and poor, they strive to make a living in Montego Bay, where call centers and tourism are the two main industries in the struggling economy. Their experience of grinding poverty and drastically limited opportunity leads them to conclude that scamming is the best means of gaining wealth and advancement. Otherwise, they are doomed to live in “sufferation”—an inescapable poverty that breeds misery, frustration, and vexation. In the Jamaican lottery scam run by these men, targets are told they have qualified for a large loan or award if they pay taxes or transfer fees. When the fees are paid, the award never arrives, netting the scammers tens of thousands of U.S. dollars. Through interviews, historical sources, song lyrics, and court testimonies, Lewis examines how these scammers justify their deceit, discovering an ethical narrative that reformulates ideas of crime and transgression and their relationship to race, justice, and debt. *Scammer's Yard* describes how these young men, seeking to overcome inequality and achieve autonomy, come to view crime as a form of liberation. Their logic raises unsettling questions about a world economy that relegates postcolonial populations to deprivation even while expecting them to follow the rules of capitalism that exacerbate their dispossession. In this groundbreaking account, Lewis asks whether true reparation for the legacy of colonialism is to be found only through radical—even criminal—means.

Woodstock Bill Tanneus, 2014 From the middle of the

Twentieth Century and, often, from the middle of the United States came people Bill Tammus describes as Middle Americans. This book is about why they mattered and how America is different today because of their values, approaches and adaptability as they faced and even helped to shape the enormous changes that have swept across American life in the last seventy or more years. This is both a highly personal story of the author's roots and experiences as a representative Middle American as well as a much broader story of people who have made an enormous difference in their communities and their nation.

Dissecting the Hack Jayson E Street, 2015-07-20 *Dissecting the Hack: The V3rb0t3n Network* ventures further into cutting-edge techniques and methods than its predecessor, *Dissecting the Hack: The F0rb1dd3n Network*. It forgoes the basics and delves straight into the action, as our heroes are chased around the world in a global race against the clock. The danger they face will forever reshape their lives and the price they pay for their actions will not only affect themselves, but could possibly shake the foundations of an entire nation. The book is divided into two parts. The first part, entitled *The V3rb0t3n Network*, continues the fictional story of Bob and Leon, two hackers caught up in an adventure in which they learn the deadly consequence of digital actions. The second part, *Security Threats Are Real (STAR)*, focuses on these real-world lessons and advanced techniques, as used by characters in the story. This gives the reader not only textbook knowledge, but real-world context around how cyber-attacks may manifest. *The V3rb0t3n Network* can be read as a stand-alone story or as an illustration of the issues described in *STAR*. Scattered throughout *The V3rb0t3n Network* are Easter eggs—references, hints, phrases, and more that will lead readers to insights into hacker culture. Drawing on *The V3rb0t3n Network*, *STAR* explains the various aspects of reconnaissance; the scanning phase of an attack; the attacker's search for network weaknesses and vulnerabilities to exploit; the various angles of attack used by

the characters in the story; basic methods of erasing information and obscuring an attacker's presence on a computer system; and the underlying hacking culture. All new volume of Dissecting the Hack by Jayson Street, with technical edit by Brian Martin Uses actual hacking and security tools in its story - helps to familiarize readers with the many devices and their code Features cool new hacks and social engineering techniques, in real life context for ease of learning

Televised Redemption Carolyn Moxley Rouse, John L. Jackson, Jr., Marla F. Frederick, 2016-11-22 How Black Christians, Muslims, and Jews have used media to prove their equality, not only in the eyes of God but in society. The institutional structures of white supremacy—slavery, Jim Crow laws, convict leasing, and mass incarceration—require a commonsense belief that black people lack the moral and intellectual capacities of white people. It is through this lens of belief that racial exclusions have been justified and reproduced in the United States. *Televised Redemption* argues that African American religious media has long played a key role in humanizing the race by unabashedly claiming that blacks are endowed by God with the same gifts of goodness and reason as whites—if not more, thereby legitimizing black Americans' rights to citizenship. If racism is a form of perception, then religious media has not only altered how others perceive blacks, but has also altered how blacks perceive themselves. *Televised Redemption* argues that black religious media has provided black Americans with new conceptual and practical tools for how to be in the world, and changed how black people are made intelligible and recognizable as moral citizens. In order to make these claims to black racial equality, this media has

encouraged dispositional changes in adherents that were at times empowering and at other times repressive. From Christian televangelism to Muslim periodicals to Hebrew Israelite radio, *Televised Redemption* explores the complicated but critical redemptive history of African American religious media.
