International Mahjong Rules : World's First Comprehensive Set of Written Rules of Mahjong, Governing Every Step of Play Cofa Tsui,1998

1990, פתח השער

Mahjong All Day Long Ginie Lo,2005-01-01 MaMa and BaBa play mahjong all day long. And all night long. We hear the clicking of mahjong tiles morning, noon, and night. Big sister, Jiejie, and her little brother, DiDi, see their parents playing mahjong all the time. It's their favorite family tradition. With Uncle T.T. and Auntie Helen around, the house is always alive with singing and chatting, the aromas of hot tea and good food, and of course the constant sounds of a family having fun together! One day Jiejie and Didi will grow up and have families of their own, and they will teach their children the game as their parents taught them. As it has done for centuries, the playing of mahjong continues to bring families together, allowing for traditions to be passed on generation after generation. Beth and Ginie Lo are sisters (and best friends!). They had a happy Chinese American childhood in West Lafayette, Indiana, where they learned to play mahjong while sitting on their father's lap. They continue to play to this day. Ginie, a computer science professor, wrote the story, and Beth, a ceramic arts professor, made the illustrated ceramic plates. This is their first book. Beth now plays mahjong in Missoula, Montana, with her husband, son, and Chinese cousin who lives up the valley. Ginie plays mahjong in Eugene, Oregon, with her husband, their children, and the authors' mother, who lives next door.

Mahjong Annelise Heinz,2021-04-05 How has a game brought together Americans and defined separate ethnic communities? This book tells the first history of mahjong and its meaning in American culture. Click-click-click. The sound of mahjong tiles connects American expatriates in Shanghai, Jazz Age white Americans, urban Chinese Americans in the 1930s, incarcerated Japanese Americans in wartime, Jewish American suburban mothers, and Air Force officers' wives in the postwar era. Mahjong: A Chinese Game and the Making of Modern American Culture illustrates how the spaces between tiles and the moments between games have fostered distinct social cultures in the United States. This mass-produced game crossed the Pacific, creating waves of popularity over the twentieth century. Annelise Heinz narrates the history of this game to show how it has created a variety of meanings, among them American modernity, Chinese American heritage, and Jewish American women's culture. As it traveled from China to the United States and caught on with Hollywood starlets, high society, middle-class housewives, and immigrants alike, mahjong became a quintessentially American game. Heinz also reveals the ways in which women leveraged a game to gain access to respectable leisure. The result was the forging of friendships that lasted decades and the creation of organizations that raised funds for the war effort and philanthropy. No other game has signified both belonging and standing apart in American culture. Drawing on photographs, advertising, popular media, and dozens of oral histories, Heinz's rich and colorful account offers the first history of the wildly popular game of mahjong.

The Design Pathway for Regenerating Earth Joe Brewer,2021-04-15 Humanity is confronted with threats unprecedented in the history of our species. There is an urgent need to describe the how for managing the convergent threats of ecological overshoot and civilization collapse. This book offers a clear and cogent pathway for safeguarding humanity's future through an extended period of cascading consequences. To a great extent, the rest of our lives will be defined to a great extent by how those who understand our global predicament organize and cooperate with one other. We are in the midst of a planetary change process that extends far beyond a human lifetime. Most of us experience a kind of intergenerational amnesia--having never seen an intact ecosystem or a healthy human economy at any point in our lives. How can we design our way through the struggles that now lie ahead? We design by embracing the fundamental insight that all living systems self-organize around the patterns of regeneration. Applied to the scale of entire landscapes, this reveals how all truly sustainable human cultures throughout history were organized at the territorial scale as bioregional economies. A planet-wide network of learning ecosystems is needed that can hold the complexity of birthing these regenerative bioregions during and after the rest of the collapse that we were all born into. This book offers genuine hope. There truly is a pathway to regenerate the Earth. It is not to be found in the shallow optimism of techno-fixes or consumer choices. Nothing short of a spiritual revival of indigenous lifeways will do. Combined with the best scientific knowledge about human behavior, cultural evolution, and the dynamic Earth; a path can be made by walking it throughout the rest of this century and beyond.
