The Darknet and Smarter Crime Angus Bancroft,2019-10-29 This book draws on research into darknet cryptomarkets to examine themes of cybercrime, cybersecurity, illicit markets and drug use. Cybersecurity is increasingly seen as essential yet it is also a point of contention between citizens, states, non-governmental organisations and private corporations as each grapples with existing and developing technologies. The increased importance of privacy online has sparked concerns about the loss of confidentiality and autonomy in the face of state and corporate surveillance on one hand, and the creation of ungovernable spaces and the facilitation of terrorism and harassment on the other. These differences and disputes highlight the dual nature of the internet: allowing counter-publics to emerge and providing opportunities for state and corporate domination through control of the data infrastructure. The Darknet and Smarter Crime argues that, far from being a dangerous anarchist haven, the darknet and the technologies used within it could have benefits and significance for everyone online. This book engages with a number of debates about the internet and new communication technologies, including: surveillance and social control, anonymity and privacy, the uses and abuses of data encryption technologies and cyber-cultures and collective online identities

Hieroglyphics Jill McCorkle,2020-07-28 “Hieroglyphics is a novel that tugs at the deepest places of the human soul—a beautiful, heart-piercing meditation on life and death and the marks we leave on this world. It is the work of a wonderful writer at her finest and most profound.” —Jessica Shattuck, author of *The Women in the Castle* After many years in Boston, Lil and Frank have retired to North Carolina. The two of them married young, having bonded over how they both—suddenly, tragically—lost a parent when they were children. Now, Lil has become determined to leave a history for their own kids. She sifts through letters and notes and diary entries, uncovering old stories—and perhaps revealing more secrets than Frank wants their children to know. Meanwhile, Frank has become obsessed with the house he lived in as a boy on the outskirts of town, where a young single mother, Shelley, is now raising her son. For Shelley, Frank’s repeated visits begin to trigger memories of her own family, memories that she’d hoped to keep buried. Because, after all, not all parents are ones you wish to remember. Empathetic and profound, this novel from master storyteller Jill McCorkle deconstructs and reconstructs what it means to be a father or a mother, and to be a child trying to know your parents—a child learning to make sense of the hieroglyphics of history and memory.
