**Normgevoeligheid** Hélène Vancompernolle,2012 Er wordt veel gepraat en geschreven over hoe het verder zal gaan met het Nederlands in de Lage Landen en daarbuiten. Benoorden en bezuiden onze gemeenschappelijke staatsgrens zijn taalontwikkelingen gaande die wel herkenbaar, maar moeilijk te duiden zijn. In Vlaanderen schuiven de dialecten in de maatschappelijke communicatie geleidelijk op naar een eenwording op middenniveau, de zgn. tussentaal, de gemeenzame taal tussen dialect en standaardtaal. Met de focus op hoe wij als taalgebruikers willen spreken, voor welk register wij ongemerkt kiezen en welke invloed daarvan uitgaat, bestudeert Hélène Vancompernolle in feite de houding van de taalgebruikers tegenover de verschillende taalontwikkelingen. Die kan bepalend zijn voor de toekomst van onze taal en daarmee heeft de auteur een bijzondere invalshoek gekozen: het gaat daarbij om niet meer of minder dan de eenheid dan wel diversiteit van ons taalgebied. Aan vakkennis, brede belezenheid én het vermogen tot betrekken van andere standpunten in het eigen vertoog ontbreekt het de auteur niet--Page 4 of cover.

Language Acquisition and the Functional Category System Peter Jordens,2013-01-01 Research on spontaneous language acquisition both in children learning their mother tongue and in adults learning a second language has shown that language development proceeds in a stagewise manner. Learner utterances are accounted for in terms of so-called 'learner languages'. Learner languages of both children and adults are language systems that are initially rather simple. The present monograph shows how these learner languages develop both in child L1 and in adult L2 Dutch. At the initial stage of both L1 and L2 Dutch, learner systems are lexical systems. This means that utterance structure is determined by the lexical projection of a predicate-argument structure, while the functional properties of the target language are absent. At some point in acquisition, this lexical-semantic system develops into a target-like system. With this target-like system, learners have reached a stage at which their language system has the morpho-syntactic features to express the functional properties of finiteness and topicality. Evidence of this is word order variation and the use of linguistic elements such as auxiliaries, tense, and agreement markers and determiners. Looking at this process of language acquisition from a functional point of view, the author focuses on questions such as the following. What is the driving force behind the process that causes learners to give up a simple lexical-semantic system in favour of a functional-pragmatic one? What is the added value of linguistic features such as the morpho-syntactic properties of inflection, word order variation, and definiteness?

*Cycling's Greatest Misadventures* Erich Schweikher,Paul Diamond,2007 Cyclings Greatest Misadventures is the first book to collect jaw dropping true stories of not only pros but average bikers whose experiences range from terrifying to comical to downright bizarre. The book contains 25 true, gripping, and sometimes unbelievable stories of crashes, freak accidents, animal attacks, meltdowns, race sabotages and bad judgment calls that bring to life the strange things that happen once people step on the pedals of their road, mountain, or commuter bikes. You'll read about a mountain biker stampeded by a herd of cattle; A man who attempted to jump the Great Wall of China on a bicycle; An engineer who finds hope riding in the rubble left by Hurricane Katrina, and many more. The stories will bring you to the edge of your seat, warm your heart, make you laugh and leave you shaking your head with disbelief. Crowdsourcing our Cultural Heritage Mia Ridge,2016-04-22 Crowdsourcing, or asking the general public to help contribute to shared goals, is increasingly popular in memory institutions as a tool for digitising or computing vast amounts of data. This book brings together for the first time the collected wisdom of international leaders in the theory and practice of crowdsourcing in cultural heritage. It features eight accessible case studies of groundbreaking projects from leading cultural heritage and academic institutions, and four thought-provoking essays that reflect on the wider implications of this engagement for participants and on the institutions themselves. Crowdsourcing in cultural heritage is more than a framework for creating content: as a form of mutually beneficial engagement with the collections and research of museums, libraries, archives and academia, it benefits both audiences and institutions. However, successful crowdsourcing projects reflect a commitment to developing effective interface and technical designs. This book will help practitioners who wish to create their own crowdsourcing projects understand how other institutions devised the right combination of source material and the tasks for their 'crowd'. The authors provide theoretically informed, actionable insights on crowdsourcing in cultural heritage, outlining the context in which their projects were created, the challenges and opportunities that informed decisions during implementation, and reflecting on the results. This book will be essential reading for information and cultural management professionals, students and researchers in universities, corporate, public or academic libraries, museums and archives.

**Public Policy Disasters in Europe** Paul 't Hart,Pat Gray,2005-06-27 This book considers some recent and spectacular failures in policy-making and asks what is meant by policy 'disaster', the different forms that they can take and why they have occurred. These issues are explored in nine contrasting cases drawn from both the European Union and its member states. These include: the devastating crisis in the Belgian political system following the exposure of a paedophile ring; the crisis in the Dutch fight against drugs; 'Mad Cows', the 'Arms to Iraq' affair in the UK; monetary union between West and East Germany; the Swedish monetary crisis of 1992; and the EU's common fisheries policy and policies towards civil war in Yugoslavia. This book is an excellent study of how and why policies can go wrong and highlights the limits of what governments can achieve in Western Europe.

**The Drive to Global Citizenship.** Ignace Pollet,Jan Van Ongevalle,2013-11-12 Do we still believe in foreign aid and development education? As governments tend to cut down aid budgets and the public appears to take a more and more sceptical stand, not just the old way of campaigning is

under pressure, but also the idea of the North helping the South as such. To materialize the hind-laying value of global solidarity in the present world, a radical re-thinking of the wornout concept of aid is required. Set against this paradox, this book explores the new notion of global citizenship and the challenges it represents. Self-contained chapters feature coverage of a range of issues: politics, opinion polls, education, the results agenda, private sustainability standards, framing messages for TV-broadcasting and the role of social media. As it is a long road to global citizenship, this book keeps you company for a part of the way.

**Van baby tot kleuter. De veelzijdige en indrukwekkende ontwikkeling van kinderen van 0-4 jaar** Jan Hindrik Loonstra,Margrieta Mentink,Charlotte Rem,2015-02-06 'Van baby tot kleuter' laat de lezer naar de ontwikkeling van kinderen van 0-4 jaar kijken door de bril van een kinderarts, ontwikkelingspsycholoog, pedagoog, orthopedagoog, neurolinguïst, klinisch linguïst, psychotherapeut, klinisch psycholoog en een neerlandicus. Gezondheid, hechting, ontwikkeling van het jonge brein, taalontwikkeling, motorische ontwikkeling, ontwikkeling van het spelen en kinderopvang zijn de thema's die aan de orde komen. Daarbij komen vragen naar voren als: op welke manier kunnen volwassenen er thuis voor zorgen dat dagelijkse activiteiten rijke leerervaringen worden? Hoe kan een doorgaande lijn, passend bij jonge kinderen, ontworpen worden om de kwetsbare overgangen in het verloop van de dag beter te kunnen opvangen? Dit boek wil ouders en professionals die te maken hebben met baby's en peuters, mee laten kijken in de spreekkamer of onderzoeksruimte van verschillende vakspecialisten. Zo moet het boek een bijdrage leveren aan een gezonde en veilige ontwikkeling van baby's en peuters.
