Bipolar Girl: My Psychotic Self Maricela Estrada,2017-08-24 Maricela Estrada was raised in East Los Angeles by her widowed traditional Mexican mother. The author felt depressed most of her life and missed having a father. Her first suicide attempt happened at age 14 and she survived multiple suicide attempts. After high school, Maricela had a psychotic episode and was admitted into a psychiatric hospital, where she was diagnosed with bipolar disorder with psychotic features. She felt stigmatized and was in denial about her mental illness. Accepting it was the hardest thing she has ever done. But once she accepted it, her life changed in a beautiful way, allowing her to accomplish all her goals and embrace a beautiful life. Maricela's mental health recovery came through medication, therapy, attending support groups, prayer, emotional support from family and friends, and her emotional support dog, Gypsy Blue. Bipolar Girl is an inspiring story of one woman's journey through mental health recovery. This memoir demonstrates the true meaning of hope, resiliency, and faith, and it will touch many people's lives.

Language, Diaspora, Home Heather Robinson,2023-07-31 This book explores language maintenance and development in the linguistic lives of second-, third-, and fourth-generation immigrants as they navigate migration and diaspora, highlighting the role of women in acting as custodians and gate-keepers of family languages towards creating a sense of home. The volume features an interdisciplinary approach, drawing on work from narrative, storytelling, literary studies, and linguistic anthropology, as well as interviews with multiple generations of immigrant families, to reflect on the ways these families foster a sense of home and maintain connections to their homelands through language. Robinson showcases the voices of a diverse range of families to examine the choices women in immigrant families make between the use of family languages, dominant community languages, or a mix of the two. The volume enhances our understanding of the ways in which immigrants navigate the linguistic landscapes of home and community amid migration and diaspora. This book will be of interest to students and scholars in linguistic anthropology, sociolinguistics, language and gender, and language and migration.

*David Likes to Play with Dolls* Maricela Estrada, David Likes to Play with Dolls is a children's book about acceptance, kindness, and unconditional love. Its important message is that children's toys should be for everyone, and that a child's gender shouldn't determine what toys they must play with. The story was inspired by the author's nephew David, and his childhood joy of playing with his sister Caroline's dolls. As a bright-eyed, joyful little boy, in his heart all he wanted was to be accepted by others. Playing with dolls made him happy, because he simply didn't like the "boy toys," consisting of cars and trucks. One day David's sister can't find her Gypsy Fairy Queen doll. Caroline looks in every room in the house, only to find that David has been playing with her dolls and toys. She becomes very upset with him, until she realizes that her brother should be able to play with any toys he enjoys.

Family-Focused Treatment for Child and Adolescent Mental Health Paul A. Sunseri,2023-12-22 This book is designed as a treatment manual for using family-based treatments with children struggling with mental illness, supporting both family therapists and the families they are helping. Based on over 40 years of research, it has been shown that involving the entire family in treatment is effective. However, family therapy is still not used as a first line of treatment. Paul Sunseri explains and explores why family-based approaches should be used with struggling young people and how this can be applied in practice. Chapters discuss the causes, contributors, and social determinants for the rise in childhood mental illness and provide empirical evidence and treatments for working with children and adolescents suffering from self-harm, suicidal ideation, anxiety, anger, and depression. Filled with case studies throughout, the book also touches on mitigating the effects of screen time in our increasingly technological lives and interventions to help reluctant children participate in therapy. This book will be invaluable reading for graduate-level students, clinicians in training, and fully licensed clinicians, such as psychologists, psychiatrists, marriage and family therapists, and clinical social workers. The book is also a practical resource for parents and other caregivers; it pulls back the curtain on therapy and teaches parents exactly what to do to best love and support their child at a time when they need it the most.

**The Power of Two** Isabel Stenzel Byrnes,Anabel Stenzel,2014-10-14 For most people, a diagnosis of cystic fibrosis means the certainty of a life ended too soon. But for Isabel Stenzel Byrnes and Anabel Stenzel, twin girls with the disease, what began as a family's stubborn determination grew into a miracle. The tragedy of CF has been touchingly recounted in such books as Frank Deford's Alex: The Life of a Child, but The Power of Two is the first book to portray the symbiotic relationship of twins who share this life-threatening disease through adulthood. Isabel and Anabel tell of their lifelong struggle to pursue normal lives with cystic fibrosis while grappling with the realization that they will die young. Their story reflects the physical and emotional challenges of a particularly aggressive form of CF and is an honest and gripping portrayal of the daily struggle associated with long-term hospitalization, the impact of chronic illness on marriage and family, and the importance of a support network to continuing survival. Born in 1972, seventeen years before scientists discovered the genetic mutation that causes CF, the Stenzel twins endured the daily regimen of chest percussion, frequent doctor visits, and lengthy hospitalizations. But in the face of innumerable setbacks, their deep-seated dependence on each other allowed them to survive long enough to reap the benefits of the miraculous lung transplants that marked a turning point in their lives: "We have an old life—one of growing up with chronic illness—and anew life—one of opportunities and gifts we have never imagined before." In this memoir, they pay tribute to the people who shaped their experience. These two remarkable sisters have much to teach about the power of perseverance—and about the ultimate power of hope.
