Breaking All The Rules E H Shepherd,2019-10-24 Once upon a time, I believed that rules were the start and end of my life. They defined me instead of the other way around. I’ll admit

impulsiveness is a bit out of character for me. I always do the expected, which includes sticking to the rules, no exceptions, nor shortcuts. That was before I met him, Theo Jameson. A man who straddled the rules, never breaking or keeping them. Despite this, Theo is a good man, with a heart the size of the universe. God, how I loved him. Even with all of my quirks, he'd found a way around them, and the cavernous abyss of my heart. But this is me, we're talking about, Nairobi Sinclair, a girl who runs away from relationships. Not because I don't believe in them, but because they just never work out for me. Once you've been burned, it ruins it for all men. Theo is different, he's changed me in ways I never dreamed possible or in my foreseeable future. I've never felt this way about anyone before. When Theo's not near me, I miss him and reach for him when I'm asleep. Smile when I hear his voice, or when he leaves me a message. It's real, and I realized it weeks ago. It scared me to admit it before because of what I went through with Brax. The bastard. But now I have a brand-new beginning, and for the first time in my life, I'm breaking all the rules.

Even my own mother a monster. My past still haunts me, the wounds running deep and though I fight back, I also hide. In my small home town, in my grandfather's grocery store, behind my books, and my computer... But I can't hide from him. He sees me... all of me. And I can't look away either. Max: Solitude and silence have led me here. And I got a job to do. SOG is my team. My brothers. My mission after leaving the service. But besides that, all I want for my life is peace and quiet. And she's anything but. A wounded dove with tons of baggage wrapped into an irresistibly sexy little package. Protecting her becomes my obsession, not saving her, my ultimate failure. Every single member of our rag-tag family has an opinion about us, but the only opinion that counts is hers. Can she forgive me? Will she open up again? Because I would do anything to make her feel safe, cherished and whole. Like she does for me. I just need an in. A minute alone to tell her I can't live without her. She has all the power. Which both of us never expected...
