TESTIMONIALS David Rabjohns, Founder & CEO at MotiveQuest George's passion, ideas and involvement with MotiveQuest has been game changing for us. From jumpstarting our sales and marketing plans and team, to productizing our business and procedures, Red Rocket has had an immediate and meaningful impact from day one. I highly recommend Red Rocket. If you want to grow, strap on the Red Rocket.” Tyler Spalding, Founder & CEO at StyleSeek Red Rocket has been a great investor for our business and vocal champion of our brand. As a proven entrepreneur himself, George has provided valuable insights and recommendations on how to best build my business. Red Rocket would be a great partner in helping build your business.” Seth Rosenberg, SVP at Camping World Red Rocket helped us do a high level assessment of our e-commerce efforts and assisted with the development of a digital strategy and marketing plan. Red Rocket identified some immediate opportunities, which we are implementing. I am pleased to recommend Red Rocket for your e-commerce and digital marketing needs.” Andrew Hoog, Founder and CEO at viaForensics As viaForensics experienced significant growth, we recognized the need for an experienced advisor with start-up chops who could help us refine critical steps in our transition from a service company to a product-based company. Red Rocket's expertise in growth planning including organizational structure, financial modeling and competitive analysis were instrumental in refining our strategy. He helped facilitate key decisions the management team needed to make in order to take the company to the next level. We are very pleased with Red Rocket's contributions to viaForensics and highly recommend his services to other start-ups facing similar growth.” Jerry Freeman, Founder & CEO at PaletteApp “Red Rocket has been a key instigator in helping raise funds for PaletteApp. They have helped me tremendously in realizing what an investor wants to see and how best to present it. George has great experience and understanding of how to fund and launch a new company. We feel fortunate that he

has thrown his hat into our arena.” Scott Skinger, CEO at TrainSignal Red Rocket helped us in a variety of ways, from financial modeling to introductions to lenders. Their biggest win was helping us do preliminary investigative research on one of our competitors, that ultimately sparked a dialog that lead to the \$23.6MM sale of our business to that company. We couldn't be more happy with Red Rocket's involvement with our business. Overall, a great advisor to have in your corner.

Lurking Joanne McNeil,2020-02-25 One of Esquire's Best Books to Elevate Your Reading List in 2020, , and a OneZero Best Tech Book of 2020. Named one of the 100 Notable books of 2020 by the End of the World Review. A concise but wide-ranging personal history of the internet from—for the first time—the point of view of the user In a shockingly short amount of time, the internet has bound people around the world together and torn us apart and changed not just the way we communicate but who we are and who we can be. It has created a new, unprecedented cultural space that we are all a part of—even if we don't participate, that is how we participate—but by which we're continually surprised, betrayed, enriched, befuddled. We have churned through platforms and technologies and in turn been churned by them. And yet, the internet is us and always has been. In *Lurking*, Joanne McNeil digs deep and identifies the primary (if sometimes contradictory) concerns of people online: searching, safety, privacy, identity, community, anonymity, and visibility. She charts what it is that brought people online and what keeps us here even as the social equations of digital life—what we're made to trade, knowingly or otherwise, for the benefits of the internet—have shifted radically beneath us. It is a story we are accustomed to hearing as tales of entrepreneurs and visionaries and dynamic and powerful corporations, but there is a more profound, intimate story that hasn't yet been told. Long one of the most incisive, ferociously intelligent, and widely respected cultural critics online, McNeil here establishes a singular vision of who we are now, tells the stories of how we became us, and helps us start to figure out what we do now.
