The Message and the Book John Bowker, Atlantic Books, an imprint of Grove Atlantic Ltd., 2012-03-27 Grand in its sweep, this survey of the sacred writings of the major religions of the world offers a thoughtful introduction to the ideas and beliefs upon which great faiths are built. Under the expert guidance of John Bowker, a religious scholar and author of international stature, readers explore the key texts of Jewish, Christian, Muslim, Hindu, Jain, Sikh, Buddhist, Parsi, Confucian, Daoist, and Shinto traditions. The author discusses some 400 books, among them such well-known sacred texts as the Bible and the Quran, but also spiritual writings by theologians, philosophers, poets, and others. Bowker provides clear and illuminating commentary on each text, describing the content and core tenets of the work and quoting pertinent passages. He also sets the writings in religious and historical contexts, showing how they have influenced—and in many cases continue to influence—artistic, musical, literary, and political traditions. *The Message and the Book* is essential reading for anyone who wishes to understand the meaning and the deep significance of primary religious texts of civilizations around the globe.

The Message of the Book of Revelation Charles T. Chapman, 1995 Perhaps no book in the history of the world has been as misunderstood and misappropriated as the Book of Revelation. Those people versed in the methods of scholarly interpretation (exegesis) may understand the symbolism of this work, but what about the general reader? How is he or she to know whether this book is being soundly interpreted or misinterpreted? Father Chapman writes for the general reader, for the many who need to understand the truth of *The Message of the Book of Revelation* -both its historical message and its message for

Christians today. He explains, phrase by phrase, in clear, direct terms what has been learned about the genre of writings called apocalyptic literature - of which Revelation is a part - and how that knowledge can be properly used to interpret the images and symbols of Revelation. Faithful to the teaching of the Church, this explanation of Revelation reveals this biblical book to be an inspiring, hope-filled, poetic portrayal of the triumph of Christ and his followers over the powers of evil. The Rev. Charles T. Chapman, Jr., was raised and educated as a Southern Baptist. He joined the Episcopal Church in 1980 and was ordained priest in 1987. He holds degrees from Union University and The Southern Baptist Theological Seminary, with further training at the Episcopal Theological Seminary of the Southwest. With Bible teaching and writing among his principle interests, Fr. Chapman offers this commentary in the hopes that reason and scholarship can shed light on a biblical work where baseless, extravagant imagination has long cast its shadow.

Using WebSphere Message Broker V8 in Mid-Market Environments Carla Sadtler, Vinicius D. G. Braganca, Minsung Byun, David Crighton, Kiran Darbha, Jefferson Lowrey, Pavel

Malyutin, Abhinav Priyadarshi, Rashmi Katagall, IBM Redbooks, 2012-08-31 IBM WebSphere® Message Broker is a lightweight, advanced enterprise service bus (ESB) that provides a broad range of integration capabilities that enable companies to rapidly integrate internal applications and connect to partner applications. Messages from business applications can be transformed, augmented and routed to other business applications. The types and complexity of the integration required will vary by company, application types, and a number of other factors. Processing logic in WebSphere Message Broker is implemented using message flows. Through message flows, messages from business applications can be transformed, augmented, and routed to other business applications. Message flows are created by connecting nodes together. A wide selection of built-in nodes are provided with WebSphere Message Broker. These nodes perform tasks that are associated with message routing, transformation, and enrichment. Message flows are created and tested using the Message Broker Toolkit, a sophisticated, easy-to-use programming tool that provides a full range of programming aids. This IBM® Redbooks® publication focuses on two specific integration requirements that apply to many midmarket companies. The first is the ability to use WebSphere Message Broker to integrate Microsoft.NET applications into a broader connectivity solution. WebSphere Message Broker V8 introduces the ability to integrate with existing Microsoft .NET Framework applications. A .NET assembly can be called from within a message flow and the WebSphere Message Broker runtime can host and run .NET code. Solutions explored in this book cover connectivity to applications using Windows Communications Framework (WCF), Microsoft Message Queuing, Microsoft Dynamics CRM, and other Microsoft applications. The second is the ability to integrate

WebSphere Message Broker with file transfer networks, specifically with WebSphere MQ File Transfer Edition and IBM Sterling Connect Direct.

The Message Jesus Preached Shane James,2015-10-27 THINGS WERE DIFFERENT IN THE CHURCH JESUS STARTED We sing songs to Jesus. We pray to Jesus. But do we really know and understand what Jesus preached? Before you say, “Yes,” and move on, consider these shocking facts: • Most messages preached today have nothing to do with Jesus’ core message • Christian universities that train pastors, missionaries, and priests don’t have courses that teach what Jesus taught, and it’s been this way for hundreds of years • The majority of believers in Christ have little or no understanding of what Jesus said or what He meant when He said it God is realigning His church with the message Jesus preached, and He’s doing it to prepare us for Jesus’ return. Get ready for a journey through the Bible that will help you: • Challenge your Christian experience and knowledge of Jesus’ teachings • Learn the true heart of Christ’s teachings as recorded in God’s Word • Discover the Kingdom life Jesus provided for, exemplified, and taught • Shed any belief barriers that have inhibited your spiritual life to this point • Embrace and renew a walk with God that is alive, growing, fresh, and purposeful

Living with Cultivating Messages Elena Pelzer, 2021-09-21 Wie beeinflussen Botschaften aus dem Fernsehen unsere Wahrnehmung

über die soziale Realität? Meistens konzentrieren sich Kultivierungsstudien zu dieser Frage auf die Medieneffekte. Doch das vorliegende Buch wählt einen neuen Ansatz und stellt die kultivierenden Botschaften in den Vordergrund. Das Buch behandelt, was Botschaften sind und wie sich uniforme von genrespezifischen Botschaften und Metanarrativen unterscheiden. Es werden verschiedene theoretische und fachliche Perspektiven zusammengebracht und das neue Botschaftskonzept 'Subgenre-Botschaften' vorgestellt, welches die Veränderungen der Medienlandschaft hin zum Online-Fernsehen berücksichtigt. Die computergestützte Simulationsstudie zeigt, inwiefern sich manche Botschaftskonzepte mehr ähneln als andere, und demonstriert, dass Subgenre-Botschaften am robustesten gegenüber Verzerrungen sind.

Message Production John O. Greene, 2013-11-05 The last two decades have seen the development of a number of models that have proven particularly important in advancing understanding of message-production processes. Now it appears that a second generation of theories is emerging, one that reflects considerable conceptual advances over earlier models. *Message Production: Advances in Communication Theory* focuses on these new developments in theoretical approaches to verbal and nonverbal message production. The chapters reflect a number of characteristics and trends resident in these theories including: * the nature and source of interaction goals; * the impact of physiological factors on message behavior; * the prominence accorded conceptions of goals and planning; * attempts to apply models of intra-individual processes in illuminating inter-individual phenomena; * treatments which involve hybrid intentional/design-stance approaches; and * efforts to incorporate physiological constructs and to meld them with psychological and social terms. The processes underlying the production of verbal and nonverbal behaviors are exceedingly complex, so much so that they resist the development of unified explanatory schemes. The

alternative is the mosaic of emerging theories such as are represented in this book -- each approach according prominence to certain message-production phenomena while obscuring others, and providing a window on some portion of the processes that give rise to those phenomena while remaining mute about other processes. The amalgam of these disparate treatments, then, becomes the most intellectually compelling characterization of message-production processes.
