The Emerald Casket Richard Newsome,2011-05-17 It has only been a month since Gerald Wilkins be-came the richest kid on earth. One month since he found out his great-aunt Geraldine had left him all her fortune and, with it, a murder mystery, clues to a diamond heist, and a target on his back. One month since Sir Mason Green made off with the contents of the diamond casket, an object of unspeakable power. And you thought your school vacation was eventful. As book two of the Archer Legacy opens, Gerald, Ruby, and Sam come upon papers, drawings, and reams of research, all indicating that Gerald's family has been protecting a secret concerning nothing less than the fate of the world. Now Gerald and his friends are off to India to try to find out the truth. Friendships will be forged and broken. A city buried under the sea will be rediscovered. A whole mess of pigeons will be involved. And Gerald is going to have to make a choice between his love for his friends and the darkest desires of his heart. It's entirely possible that this month might be even more eventful than the last.

The Secrets of Nostradamus David Ovason,2002-08-06 His name has become a synonym for clairvoyance: Nostradamus, astrologer to the king of France, the most famous seer in Western history. But the real meaning of his prophecies has gone undetected, hidden in a secret alchemical code. Known as the Green Language, it was understood by only a handful of medieval occult scholars, and has been lost for centuries -- until now. David Ovason spent 40 years working on the Green Language, enabling him to finally crack the secret code of Nostradamus. In this book, he reveals with line-by-line analysis the hidden writings of the great astrologer, showing that his dates and details are more exact than any previous scholars have realized. As a master of the arcane astrological traditions practiced by Nostradamus, Ovason provides the most accurate and insightful account ever written of this mysterious figure's writings, predictions, and life.

The Curse of Canaan Eustace Clarence Mullins,2022-07-27 Indeed, the great movement of modern history has been to disguise the presence of evil on the earth, to make light of it, to convince humanity that evil is to be ''tolerated, '' ''treated with greater understanding, '' or negotiated with, but under no circumstances should it ever be forcibly opposed. This is the principal point of what has come to be known as today's liberalism, more popularly known as secular humanism. The popular, and apparently sensible, appeal of humanism is that humanity should always place human interests first. The problem is that this very humanism can be traced in an unbroken line all the way back to the Biblical ''Curse of Canaan.'' Humanism is the logical result of the demonology of history. Modern day events can be understood only if we can trace their implications in a direct line from the earliest records of antiquity

There are mind-readers, shape-shifters, centaurs, giants, ghosts (nearly headless and fully formed) and one enormous, extremely ill- tempered tree. This massive tome details every character created by J.K. Rowling and appearing in the official Harry Potter canon of books, movies and plays. Each entry highlights one character, where you will find details of when the character was first mentioned, appearance, wizard school, house, patronus, wand, related family members, skills and achievements, personal history and more. The Compendium also include genealogical charts and family trees for the major characters, world maps detailing important locations, homes and schools, as well as charts detailing alliances between characters.
