**A Noob's Guide to Minecraft Survival** Noob 1884, 2019-05-18 The update survival guide. Updated for the Village Pillage Update 1.11.0 of Minecraft Bedrock (see below) Minecraft has changed a lot over the last year again, and yet more people are returning and trying out the survival version for a challenge. Some are even using it as a battleground. Griefer roam the lands and the community has evolved to allow them an existence - the PvP and anarchy realms where anything goes except cheating of course! In this book you can learn secrets and strategies that will make you better than the average player and an adviser to some of the better players. Assumes some very basic knowledge of the game. 90 pages as a paperback, including pages of screenshots from actual gameplay to show strategy and features in action. The changes and strategies are continually updated in the eBook and experimentation with these can be seen live and on the author's previously recorded streams. \*\* From the Author\*\* I just updated the book to include Villager and Pillager updates as they affect survival gameplay strategies, and as of May 2019 I am working on ways of using the new features to our advantage on the various realms that I play on in advanced gameplay. I'm currently in and out of live streams so that you can see the experiments, complete with successes and failures, as I go through them. You will be as up to date as I am with them. At the moment my favourite change is the nitwit. A nitwit villager always goes to bed late, wakes up late and is therefore unable to ever learn anything. Mojang is bringing life lessons to Minecraft! Ok on a more serious note. Subscribe or follow the feeds to be notified as I go online. Join my discord

channel given out in the book for further details! Am I Ironman? No, sorry...Noob 1884\*\*Also includes pointers to valuable information sources that will fill out your knowledge to make you an all-round player.
