*Mirror Meditation* Tara Well,2022-06-01 Discover the power of mirror meditation to help you awaken self-compassion, increase self-awareness, and gain the confidence needed to thrive. Seeing ourselves clearly isn't always easy—especially in the age of social media. Technology has eroded our capacity for authentic self-reflection. As a result, we feel more anxious and depressed, have shorter attention spans, and have become more estranged from ourselves and each other. We've also become more critical of our physical appearance, and this self-criticism can damage our confidence and stand in the way of our happiness. In order to heal, we must come face to face with our true selves—not the images of ourselves that we alter and post online. If you're ready for self-reflection that has nothing to do with selfies, this book will reveal the way. Based in cutting-edge neuroscience, Mirror Meditation offers mindful practices for increasing your self-awareness, managing stress and emotions, developing self-compassion, and increasing your confidence and personal presence. Using the three principles of mindfulness meditation—attention to the present moment, open awareness, and kind intention toward oneself—you'll realize just how much your self-criticisms are affecting you. Then you'll have a choice—and a practice—to treat yourself with more self-acceptance. Self-awareness can help you break free from both your inner critic and the external world that stokes the fears and anxieties that we are never good enough, never have enough, and are never safe enough. The simple self-mirroring technique in this unique guide isn't grounded in technology—just a commitment to be present with yourself.

Now, in this dazzling collection of nine entirely original essays, written with a rare combination of give and sharpness, wit and fearlessness, she delves into the forces that warp our vision, demonstrating an unparalleled stylistic potency and critical dexterity. Trick Mirror is an enlightening, unforgettable trip through the river of self-delusion that surges just beneath the surface of our lives. This is a book about the incentives that shape us, and about how hard it is to see ourselves clearly through a culture that revolves around the self. In each essay, Tolentino writes about a cultural prism: the rise of the nightmare social internet; the advent of scamming as the definitive millennial ethos; the literary heroine’s journey from brave to blank to bitter; the punitive dream of optimization, which insists that everything, including our bodies, should become more efficient and beautiful until we die. Gleaming with Tolentino’s sense of humor and capacity to elucidate the impossibly complex in an instant, and marked by her desire to treat the reader with profound honesty, Trick Mirror is an instant classic of the worst decade yet.
