**Demon Hit List** John Eckhardt,2009-10-01 Identifying the enemy is the key to casting him out! John Eckhardt has created the ultimate deliverance thesaurus to help believers know the specific names and attributes of demons so they can become more

successful in casting them out. We fear the unknown, but there is power in identification. The demons unmasked in this thesaurus are well aware that they are subject to the name of Jesus, the name above every name! By identifying demons, the believer strips them of their power and exhibits Christ's authority over every demon. Don't run from the devil; begin casting out the enemy and stand victorious with Jesus Christ!

Demons and the Making of the Monk David BRAKKE, David Brakke, 2009-06-30 In this finely written study of demonology and Christian spirituality in fourth- and fifth-century Egypt, David Brakke examines how the conception of the monk as a holy and virtuous being was shaped by the combative encounter with demons. Drawing on biographies of exceptional monks, collections of monastic sayings and stories, letters from ascetic teachers to their disciples, sermons, and community rules, Brakke crafts a compelling picture of the embattled religious celibate.

**Demons, the Devil, and Fallen Angels** Marie D. Jones,Larry Flaxman,2017-09-01 Illuminating the Dark Side's Spirits, Fiends, Devils, and Demons. Throughout human history, we have been

obsessed with the dark opposites of God and angels, light, and mercy. Whether it is our religious and sacred texts, folklore and myths of old, legends, fairy tales, novels, or the movies and television shows of today, the dark entities enthrall us, terrify us, and remind us of the dualities of life. But where did they originate? Are they real? Does every religion or region of the world include them? Exploring over two dozen religious traditions, myths, folkloric and spiritual traditions, the world of the supernatural, and the demons, the Devil, and fallen angels in today's pop culture, *Demons, the Devil, and Fallen Angels* is a comprehensive resource of the many faces of the devil, his minions, ominous deities, and the darker side of nature and ourselves. From ancient demon worship to modern Satanism, the bloody era of the Inquisitions and later witch burnings to the Satanic Panic of the late-twentieth century, and secret occult societies to Hitler's involvement with demonology, this book covers it all! You'll learn about the key figures in history associated with demons and the Devil, the worshipping of the dark forces, and the lives of Aleister Crowley, John Dee, and Anton LaVey, as well as well-known figures who were alleged Satanists, some of whom may surprise you! Also featured are dozens of examples of links between demons/fallen

angels and aliens, cryptids, apparitions and poltergeists, and IDEs (interdimensional entities). Were the demons of the Bible possibly ancient alien visitors? Are alien abductions and poltergeists really demons in disguise? Is Slender Man a modern day demonic entity ... or totally fake? This fascinating look at Satan, evil spirits, and their 10,000-year history has 120 photographs, drawings, and illustrations to bring the portraits of over 200 demons and fallen angels to shivering life. Demons, the Devil, and Fallen Angels also includes a helpful bibliography and an extensive index, adding to its usefulness. It is a comprehensive, clear, and objective look at a subject that fills most people with fear and dread. Yet the presence of dark angels continues to remain a part of our human experience, our popular culture, and our spiritual understandings. Come and explore the shadowy side of existence and its integral part of our nature.

*When Demons Attack: True Tales of Diabolic Encounters* John Harker, 2021-04-05 Imagine an ancient evil that dwells in a dark world of its own but can easily cross into ours. Imagine a calculating evil that watches our every move and knows our very hearts. Imagine a powerful evil that seeks to confuse, harm, and destroy us in body and soul. Imagine all you like, but don't think for a moment that such creatures don't exist. In this all-new volume of terrifying true stories, you will learn about the ancient evil spirits we have come to call demons and the various ways they have

terrorized humans through the centuries. You will meet some of their modern-day victims, people from all different walks of life. People just like us. You will read about hideous manifestations, depraved assaults, and all other manner of frightening phenomena. These incredulous accounts will startle your senses and challenge your worldview. They may even make you afraid to go to bed at night. But therein lies a powerful weapon. Only in knowing one's enemy can that enemy be defeated. This book will give you a clearer understanding of the inhuman intelligent entities that prowl unseen in our midst, their motives and machinations, and how to avoid crossing their paths. **Bedeviled** Jimena Canales, 2020-11-10 Thought experiments have long been a vital part of the creative, intellectual process in modern science-and, by extension, so have demons. Demons are hypothetical beings imagined by scientists to perform specific roles within thought experiments-embodiment of special powers or abilities

and personifying tough intellectual challenges or highlighting apparent paradoxes. They are used as a way of exploring what would happen if one fiddled with or upset the sturdiest of physical laws, or experimented with physical or natural processes or phenomena in ways that the scientist imagining them otherwise could not. As such, they help clarify the limits of what is possible in the physical world, or show weaknesses in our understanding of an observable phenomenon, or highlight cracks in a hypothesis or theory. Unencumbered by the physicality of our concrete world, demons are thus useful to scientists in their intellectual quest to understand how nature works, and in the creative exploration of the frontiers of science--
