**Making America Modern** Marilyn F. Friedman, 2018-04-23 A valuable resource for design professionals and historians, this book chronicles the evolution of modern interior design in the United States throughout the 1930s. With more than 200 images and detailed descriptions, design historian Marilyn F. Friedman presents more than eighty interiors by forty-five designers, including Donald Deskey, Paul T. Frankl, Percival Goodman, Frederick Kiesler, William Lescaze, William Moschenheim Tommi Parzinger, Gilbert Rohde, Eugene Schoen, Kem Weber, set designers Cedric Gibbons and Joseph Urban, and industrial designers Raymond Loewy, Walter Dorwin Teague, and Russel Wright. The book also highlights the work of women modernists who are practically unknown today, including Virginia Conner, Freda Diamond, Eleanor Le Maire, and Madame Majeska. Interiors cover the economic spectrum, from those created for wealthy patrons who embraced the modernist aesthetic, including Walter Annenberg, George Vanderbilt III, William Paley, and Abby Rockefeller Milton, to those designed with affordability in mind, including private commissions, as well as furniture and model rooms for manufacturers, design associations, and museum exhibitions. The book also profiles in detail entire model homes that highlighted new concepts in design and construction, such as Norman Bel Geddes' House of Tomorrow for Ladies' Home Journal, Macy's 'Forward House,' Frederick Kiesler's 'Space House' for the Modernage showroom, Eleanor Le Maire's 'House of Planes' for Abraham & Straus, and the model houses at the 1933 and 1939 world's fairs held in Chicago and New York, respectively. The trajectory of American modern design during the 1930s was not linear. In rejecting the revivalism that had defined American design during the nineteenth century, the designers covered in this book forged something new—an American movement defined by simplicity, practicality, and comfort that embraced experimentation and variation in materials and style. An important survey of the early development of modern interiors in America, year by year.

**Mid-Century Modern Interiors** Lucinda Kaukas Havenhand, 2019-01-24 Mid-Century Modern Interiors explores the history of interior design during arguably its most iconic and influential period. The 1930s to the 1960s in the United States was a key moment for interior design. It not only saw the emergence of some of interior design's most globally-important designers, it also saw the field of interior design emerge at last as a profession in its own right. Through a series of detailed case studies this book introduces the key practitioners of the period — world-renowned designers including Ray and Charles Eames, Richard Neutra, and George Nelson — and examines how they developed new approaches by applying systematic and rational principles to the creation of interior spaces. It takes us into the mind of the designer to show how they each used interior design to express their varied theoretical interests, and reveals how the principles they developed have become embodied in the way interior design is practiced today. This focus on unearthing the underlying ideas and concepts behind their designs rather than on the finished results creates a richer, more conceptual understanding of this pivotal period in modernist design history. With an extended introduction setting the case studies within the broader context of twentieth-century design and architectural history, this book provides both an introduction and an in-depth analysis for students and scholars of interior design, architecture and design history.

**Designing the French Interior** Anca I. Lasc, Georgina Downey, Mark Taylor, 2015-10-22 Designing the French Interior traces France's central role in the development of the modern domestic interior, from the pre-revolutionary period to the 1970s, and addresses the importance of various media, including drawings, prints, pattern books, illustrated magazines, department store catalogs, photographs, guidebooks, and films, in representing and promoting French interior design to a wider audience. Contributors to this original volume identify and historicize the singularity of the modern French domestic interior as a generator of reproducible images, a site for display of both highly crafted and mass-produced objects, and the direct result of widely-circulated imagery in its own right. This important volume enables an invaluable new understanding of the relationship between architecture, interior spaces, material cultures, mass media and modernity.

**The Modern Interior** Penny Sparke, 2008-09-15 Today's home is filled with pieces from Pottery Barn, IKEA, and Crate & Barrel, and we pore over glossy catalogs in hopes of achieving the "modern interior." This idealized aesthetic is the subject of Penny Sparke's study, as she explores the style in both its absolute form and the diverse decorating approaches seen in the contemporary home. The shift from Victorian to modern style, *The Modern Interior* reveals, was not as simple and smooth as it is often perceived and the book probes the complicated history behind that transition. Sparke examines the work of such designers as Marcel Breuer, Frank Lloyd Wright, Charles and Ray Eames, and Mies van der Rohe, and draws upon design examples from the United States and Europe to reveal that, unlike the designed exteriors of buildings and institutions, the idea of the "interior" has been a largely abstract conception promoted through exhibitions, retail stores, and mass media. A comprehensive and in-depth investigation of the design environments we live and play in, *The Modern Interior* will be essential reading for all scholars and interested observers of architecture and modern design culture.

Interior Design Since 1900 (Fourth) (World of Art) Anne Massey, 2020-04-14 Newly updated and overflowing with color, this well-established history of interior design describes and illustrates each movement and change in taste throughout the twentieth century. Interior design experienced an extraordinary amount of changes in taste and style during the twentieth century. From William Morris and the Arts and Crafts movement to expressionism, postmodernism, and green design, *Interior Design Since 1900* charts them all. Featuring more than two hundred color illustrations of interiors from around the world, this book reveals the fundamental changes in style that occurred throughout the century. The 1900s saw the emergence of professional designers and a growing appetite to redesign homes to keep up with popular fashion. In recent decades, the focus has shifted toward public spaces and sustainable design. In this survey, Anne Massey explores the social, political, economic, and cultural contexts of these developments. This book has been a classic introduction to interior design for almost thirty years. The new, fourth edition is brought up-to-date with a chapter on transnational design, encompassing mid-century modernist work in Singapore and Sri Lanka, as well as more recent interior spaces, including luxury hotels in Dubai and a contemporary art museum in Cape Town. Through this book, Massey shows how a shared language of design and cutting-edge technology are reshaping interiors around the globe.

American Modern Thomas Obrien, 2018-06-05 "One of those designers whose interior and furniture designs look discovered, not created . . . both comfortable and exquisite, calm and eclectic." –Apartment Therapy Designer and

merchant, collector and tastemaker, Thomas O'Brien has made a career of translating cool notions of modernism into an easy and generous array of modern styles that anyone can attain. Now he introduces readers to a range of those styles—from casual to formal, vintage to urban—alongside stunning photography and charming design stories. O'Brien carefully describes the design process of his chosen projects, including a downtown New York City loft, a traditional Connecticut estate, and a converted schoolhouse in eastern Long Island. Each home explores a view on the modern design spectrum he has created, as well as the individual choices that make the design unique and its mix essentially American. He explains not only what was at work to create a given style, but how readers can import those practices to their own homes and personal design sensibilities. Important design principles such as architectural authenticity, color relationships, correctness of scale, and informed collecting are threaded through a practical narrative that reads like a master class in interior design. *American Modern* is an inspiring design volume that will redefine the way readers think about modern interiors. "O'Brien carefully describes the design process of his chosen projects. Beautiful imagery and a unique layout describe his approach to design in a new and innovative way." –LIFEMSTYLE "It's like getting a glimpse into the studio paintings of a great master . . . Never had homes been so thoroughly contemporary, with antiques and period styles entirely banished. Mid-Century Modern explores the interior decor of this seminal decade, concentrating on all aspects of a home's decoration—walls, flooring, surfaces, lighting, and, of course, furniture. Case studies examine beautiful present-day homes that exhibit mid-century style in an exemplary way, and suggest ideas for taking the 1950's look—complete with collector's pieces—and mixing and matching it with elements from other eras.
