Youth Mediations and Affective Relations Susan Driver, Natalie Coulter, 2018-10-01 Youth Mediations and Affective Relations explores dynamic and expansive possibilities of young people's affective lives as they engage with diverse social media in prolific and specific ways. It addresses the situated embodied and emotional experiences of young people as they actively use media in order to forge communities, play imaginatively, protest injustice, experiment with their identities, make media or explore friendships. Furthermore, it explores the relational and contextual dimensions of their everyday interactions. Against static knowledge and moral panics that abstract youth from the complex and changing worlds in which they grapple with digital media, this book hones in on the layered textures of youth experiences to consider how today's youth think and feel in subtle and unexpected ways.

A cutting-edge work that brings together neuropsychology, cognitive science, and Freudian and Jungian approaches to mythology and narrative, *Maps of Meaning* presents a rich theory that makes the wisdom and meaning of myth accessible to the critical modern mind.
