Elinor Glyn as Novelist, Moviemaker, Glamour Icon and Businesswoman Vincent L. Barnett, Alexis Weedon, 2016-04-29 The first full-length study of the authorial and cross-media practices of the English novelist Elinor Glyn (1864-1943), *Elinor Glyn as Novelist, Moviemaker, Glamour Icon and Businesswoman* examines Glyn's work as a novelist in the United Kingdom followed by her success in Hollywood where she adapted her popular romantic novels into films. Making extensive use of newly

available archival materials, Vincent L. Barnett and Alexis Weedon explore Glyn's experiences from multiple perspectives, including the artistic, legal and financial aspects of the adaptation process. At the same time, they document Glyn's personal and professional relationships with a number of prominent individuals in the Hollywood studio system, including Louis B. Mayer and Irving Thalberg. The authors contextualize Glyn's involvement in scenario-writing in relationship to other novelists in Hollywood, such as Edgar Wallace and Arnold Bennett, and also show how Glyn worked across Europe and America to transform her stories into other forms of media such as plays and movies. Providing a new perspective from which to understand the historical development of both British and American media industries in the first half of the twentieth century, this book will appeal to historians working in the fields of cultural and film studies, publishing and business history.

I Was a Teenage Movie Maker Don Glut, 2007-06-18 In 1953, a nine-year-old boy watched a prehistoric film called *Beast From 20,000 Fathoms* featuring the special effect magic of Ray

Harryhausen. Enthralled by the movie but unsatisfied with what was available for at-home movie consumption, he decided to make his own science fiction thriller from dinosaurs to superheroes. This volume takes a firsthand look at the movie-making career of Don Glut. Beginning with his first movie, *Diplodocus At Large*, at age nine, it explores Glut's various attempts and the increasingly creative processes he used to bring his vision to life. Through the course of the work, Glut discusses his filmmaking experiences at the University of Southern California; the inspiration he received (and gave) through fanzines such as *Famous Monsters of Filmland* and *Castle of Frankenstein*; and the interest which his movies still generate. Films discussed include *The Earth Before Man*, *Spy Smasher vs. the Purple Monster*, *Dinosaur Valley Girls*, and *Frankenstein Meets Dracula*. A chronological filmography lists each of Glut's 41 films with notes regarding cast and a brief synopsis.

Billy Wilder, *Movie-Maker* Karen McNally, 2014-01-10 Billy Wilder's work remains a masterful combination of incisive social commentary, skilled writing and directing, and unashamed entertainment value. One of Hollywood's foremost émigré filmmakers, Wilder holds a key position in film history via

films that represent a complex reflection of his European roots and American cultural influences. This wide-ranging collection of essays by an international group of scholars examines the significance of Wilder's filmmaking from a variety of original perspectives. Engaging with issues of genre, industry, representation and national culture, the volume provides fresh insights into Wilder's films and opens up his work to further exploration.

Digital Literacies Mark Pegrum, Nicky Hockly, Gavin Dudeney, 2022-05-11 Dramatic shifts in our communication landscape have made it crucial for language teaching to go beyond print literacy and

encompass the digital literacies which are increasingly central to learners' personal, social, educational and professional lives. By situating these digital literacies within a clear theoretical framework, this book provides educators and students alike with not just the background for a deeper understanding of these key 21st-century skills, but also the rationale for integrating these skills into classroom practice. This is the first methodology book to address not just why but also how to teach digital literacies in the English language classroom. This book provides:

- A theoretical framework through which to categorise and prioritise digital literacies
- Practical classroom activities to help learners and teachers develop digital literacies in tandem with key language skills
- A thorough analysis of the pedagogical implications of developing digital literacies in teaching practice
- A consideration of exactly how to integrate digital literacies into the English language syllabus
- Suggestions for teachers on how to continue their own professional development through PLNs (Personal Learning Networks), and how to access teacher development opportunities online.

This book is ideal for English language teachers, English language learners of all ages and levels, academics and researchers of all age groups and levels, academics

and students researching digital literacies, and anyone looking to expand their understanding of digital literacies within a teaching framework.

Small-Gauge Storytelling Ryan Shand,2013-05-30 What do you understand by the term 'home movie'? Do you imagine images of babies-on-the lawn, sandcastles on the beach, or travels with the family? Did you know that amateur filmmakers have also explored fictional genres as diverse and fascinating as their professional counterparts, that specific amateur film studios have risen and fallen, or that household-name directors owe their origins and inspirations to the amateur film movement?

Across a range of settings from the Canadian north-west to the Russian far-east, this book offers an introduction to the amateur maker of film comedies, thrillers, adaptations and sci-fi. It records the ambitions and achievements of enthusiasts struggling to emulate the mainstream and tell their own stories, armed with limited resources and endless initiative.

As I said before, you really can't get to know someone just by taking her to a movie. Movies are fun and can be used later on the relationship, but when you are trying to know what makes another person tick inside, you need to plan fun dates that will bring memories in later years to come and dates that they will be telling their friends about for months and even decades to come! Cheap and Inexpensive Dates: College student? Low on cash? You want to take your girl out, but you are low on funds and you have no idea what to do for a date. It's been a long time since you've done something nice for her and you don't want lack of funds to be the reason your girl is frowning. Well, turn that frown upside down! You don't have

to spend a lot of money or any money at all for a great time! Don't go breaking that bank!

A Guide to Creating Student-staffed Writing Centers, Grades 6-12 Richard Kent, 2006 Writing centers are places where writers work with each other in an effort to develop ideas, discover a thesis, overcome procrastination, create an outline, or revise a draft. Ultimately, writing centers help students become more effective writers. Visit any college or university in the United States and chances are there is a writing center available to students, staff, and community members. **A Guide to Creating Student-Staffed Writing Centers, Grades 6-12** is a how-to and, ultimately, a why-to book for middle school and high school educators as well as for English/language arts teacher candidates and their methods instructors. Writing centers support students and their busy teachers while emphasizing and supporting writing across the curriculum.
