How to Escape Your Prison Gregory L. Little, Kenneth D. Robinson, 2006 A Moral Reconciliation Therapy Workbook. Moral Reconciliation Therapy is a systematic, cognitive-behavioral, step-by-step treatment strategy designed to enhance self-image, promote growth of a positive, productive identity, and facilitate the development of higher stages of moral reasoning. The term moral reconciliation was chosen for this system because the underlying goal was to change conscious decision-making to higher levels of moral reasoning--Amazon.

Mitochondrial Replacement Techniques National Academies of Sciences, Engineering, and Medicine, Institute of Medicine, Board on Health Sciences Policy, Committee on the Ethical and Social Policy Considerations of Novel Techniques for Prevention of Maternal Transmission of Mitochondrial DNA Diseases, 2016-04-17 Mitochondrial replacement techniques (MRTs) are designed to prevent the transmission of mitochondrial DNA (mtDNA) diseases from mother to child. While MRTs, if effective, could satisfy a desire of women seeking to have a genetically related child without the risk of passing on mtDNA disease, the technique raises significant ethical and social issues. It would create offspring who have genetic material from two women, something never sanctioned in humans, and would create mitochondrial changes that could be heritable (in female offspring), and therefore passed on in perpetuity. The manipulation would be performed on eggs or embryos, would affect every cell of the resulting individual, and once carried out this genetic manipulation is not reversible. Mitochondrial Replacement Techniques considers the implications of manipulating mitochondrial content both in children born to women as a result of participating in these studies and in descendants of any female offspring. This study examines the ethical and social issues related to MRTs, outlines principles that would provide a framework and foundation for oversight of MRTs, and develops recommendations to inform the Food and Drug Administration's consideration of investigational new drug applications.

Follow The Trains David Liu, Kevin Low, 2020-04-23 This is the Property book based on research and data that suitable for Investors and Home Buyers are looking for properties especially High Rise (Apartment & Condominium) near to MRT Train Stations. The book we have spent lots of time and

effort to compile and features wonderful Drone Images, Transaction Price Movement & Average Rental Rate as Reference. A lot of investors make the wrong decision or act too late when they want to leverage in properties surrounding MRT or LRT stations. This is a handy reference guide that provides vital information before you make any investment decisions. Simple and straight to the point. Marcus Hwang National Director BNI Malaysia This book is a brilliant combination of facts and figures; images and analysis that will help make your next property investment near train stations a breeze! Concisely presented, it contains vital information to aid and speed up your decision-making process. I must thank both David and Kevin for so selflessly sharing these precious data and insights which will take a normal person many years to compile (if that is at all possible!) Dr. Renesial Leong (Property Queen) Best Selling Author Property Jewels, Commercial Property Jewels, Your Tenants Your Jewels & The Magic of Property Investment How this book (Follow The Trains) idea came about was somehow rather interesting. We had a coffee session 3 years ago. Both of us had been friends ever since we had contributed articles for the book by Ho Chin Soon Research (HCSR) in Property Investors True Stories. Seeing that we have a lot of common interest to help up each other in the current challenging property market, eventually wonderful thought sparked us to compile a book together to incorporate down our very own idea of analysis to share to you all. Kevin's background is strong in both Real Estate from Investor and Negotiator point of view for the last 10 years whereas David is property investor as well as passionate on drone aerial imaging related to property and structural building. We both have the same positive intention to co author this book for many investors from different layer of background to learn and leverage from latest trend and technology from another unique perspective. In short this book is written by the Investors for the Investors. The structure of this book is carefully planned with each MRT station spatial view, area color by type of property differentiation, brief surrounding matured or upcoming amenities, 5 years transaction data price movement and latest drone aerial view of surrounding. The technology has change so fast that not many are aware to reduce their analysis workload by using the tools available today. For eg Brickz.com.my is wonderful tool to provide the overview of the latest property transaction data. There will be frequent sharing engagement on top of us as the authors in regard of the progress of property along MRT to share and to help property investor from time to time. The vision of us through this book is the help as many investor as possible to acquire properties within next 5 year time. Feel free to drop us an email and comment on us on how we can improve further. Happy Learning, Happy Applying and Happy Investing in Properties along MRT line! David & Kevin @ Malaysia April 2020
