RedHanded Suruthi Bala,Hannah Maguire,2021-09-14 2021 Listeners' Choice British Podcast Awards Winner What is it about killers, cult leaders, cannibals, cults, and criminals that capture our imaginations even as they terrify and disturb us? How do we responsibly consume these kinds of stories as entertainment, and more importantly, what can we learn from them? RedHanded rejects the narrative of killers as monsters and that a victim was in the wrong place at the wrong time, and instead tells the stories we want to hear in a way that challenges perceptions and asks the hard questions about society, gender, poverty, culture, and even our politics. After meeting at a party in London where they both discovered they listened to the same murder podcasts, Hannah Maguire and Suruthi Bala drunkenly promised to one day start their own true crime podcast together and the rest is history. From the hosts of the hit true crime podcast RedHanded (dubbed by Rick & Morty creator Dan Harmon as the best true crime podcast I've heard, ever), Hannah Maguire and Suruthi Bala have amassed a cult following of spooky bitches amounting to an incredibly strong 63k downloads per episode and 728k backlist downloads every month in the US alone. With candor, humor, interviews with

experts, research on real-life cases, and an unflinching dissection of what makes a killer tick, Bala and Maguire take us through the societal, behavioral, and cultural phenomena that make victims -- and their murderers -- our collective responsibility and to find out once and for all: what makes a killer tick?

In Defense of Ska Aaron Carnes, 2024-07-12 In a mix of interviews, essays, personal stories, historical snapshots, obscure anecdotes, and think pieces, this second expanded edition dissects, analyzes and celebrates ska in exactly the way fans have been craving for decades. With the addition of 4 new sections, Aaron adds to the already extensive compendium that was the first edition: The Importance of Christian Ska; After ska died in the '90s, the music went underground and returned to its roots; The ska roots of Fall Out Boy lead singer Patrick Stump; How Katrina created a vibrant ska scene in New Orleans. Aaron expands on the original edition with exciting interviews with Patrick Stump from Fall Out Boy who he interviewed on his podcast of the same name. In *Defense of Ska: Ska Now More Than Ever* is the much-needed response to years of ska-mockery. Now the time to take to the streets and fight music snobbery, or at least crank up the ska without being teased ruthlessly, has come. This book will enlist ska-lovers as soldiers in the ska army and challenge ska-haters' prejudices to the core.

Upward, Inward, Outward Daniel Fusco, 2017-10-10 This book is about discovering together how to understand and live the Greatest Commandment. We're not after the "art of thinking about God a little differently." We're here to uncover the needs God created within us--needs for meaning, intimacy, honesty, humility, justice, compassion, and more--and how he designed us to find those needs fulfilled in him. This is the art of living Jesus'

spirituality. God gives us the key in the Greatest Commandment, but we've got to do this stuff in the right order. Imagine I invite you to my sweet cabin by the lake. To start hanging out in that cabin, you need to get the key from me, pack your car, follow the GPS, and so on. There's a natural order to it. It's the same with the Greatest Commandment. We begin upward, with loving God. The God. God of the Old Testament, God of the New Testament. God the Trinity—Father, Son, Holy Spirit. We continue inward, with understanding our true identities in Jesus. And when we get those things right, God's Spirit sends us outward, on mission into the world. These three movements—upward, inward, and outward—mirror the Greatest Commandment and help us learn the art of living harmoniously together in a chaotic world.

Paradise Lizzie Johnson, 2022-08-16 The definitive firsthand account of California's Camp Fire, the nation's deadliest wildfire in a century, Paradise is a riveting examination of what went wrong and how to avert future tragedies as the climate crisis unfolds. "A tour de force story of wildfire and a terrifying look at what lies ahead."—San Francisco Chronicle (Best Books of the Year) On November 8, 2018, the people of Paradise, California, awoke to a mottled gray sky and gusty winds. Soon the Camp Fire was upon them, gobbling an acre a second. Less than two hours after the fire ignited, the town was engulfed in flames, the residents trapped in their homes and

cars. By the next morning, eighty-five people were dead. As a reporter for the San Francisco Chronicle, Lizzie Johnson was there as the town of Paradise burned. She saw the smoldering rubble of a historic covered bridge and the beloved Black Bear Diner and she stayed long afterward, visiting shelters, hotels, and makeshift camps. Drawing on years of on-the-ground reporting and reams of public records, including 911 calls and testimony from a grand jury investigation, Johnson provides a minute-by-minute account of the Camp Fire, following residents and first responders as they fight to save themselves and their town. We see a young mother fleeing with her newborn; a school bus full of children in search of an escape route; and a group of paramedics, patients, and nurses trapped in a cul-de-sac, fending off the fire with rakes and hoses. In Paradise, Johnson documents the unfolding tragedy with empathy and nuance. But she also investigates the root causes, from runaway climate change to a deeply flawed alert system to Pacific Gas and Electric's decades-long neglect of critical infrastructure. A cautionary tale for a new era of megafires, Paradise is the gripping story of a town wiped off the map and the determination of its people to rise again.

All will face unimaginable dangers -- from drownings to bombings to betrayals. But there is always the hope of tomorrow. And although Josef, Isabel, and Mahmoud are separated by continents and decades, shocking connections will tie their stories together in the end. Something Deeply Hidden Sean Carroll, 2020-09-01 INSTANT NEW YORK TIMES BESTSELLER As you read these words, copies of you are being created. Sean Carroll, theoretical physicist and one of this world's most celebrated writers on science, rewrites the history of twentieth-century physics.

Already hailed as a masterpiece, *Something Deeply Hidden* shows for the first time that facing up to the essential puzzle of quantum mechanics utterly transforms how we think about space and time. His reconciling of quantum mechanics with Einstein's theory of relativity changes, well, everything. Most physicists haven't even recognized the uncomfortable truth: Physics has been in crisis since 1927. Quantum mechanics has always had obvious gaps—which have come to be simply ignored. Science popularizers keep telling us how weird it is, how impossible it is to understand. Academics discourage students from working on the dead end of quantum foundations. Putting his professional reputation on the line with this audacious yet entirely reasonable book, Carroll says that the crisis can now come to an end. We just have to accept that there is more than one of us in the universe. There are many, many Sean Carrolls. Many of every one of us. Copies of you are generated thousands of times per second. The Many-Worlds theory of quantum behavior says that every time there is a quantum event, a world splits off with everything in it the same, except in that other world the quantum event didn't happen. Step-by-step in Carroll's uniquely lucid way, he tackles the major objections to this otherworldly revelation until his case is inescapably established. Rarely does a book so fully reorganize how we think about our place in the universe. We are on the threshold of a new understanding—of where we are in the cosmos, and what we are made of.
