The Future of the Music Business Steve Gordon,2015-07-01 (Music Pro Guide Books & DVDs). New technologies have revolutionized the music business. While these technologies have wrecked havoc on traditional business models, they've also provided new opportunities for music business entrepreneurs, as well as new challenges for musicians, recording artists, songwriters, record labels and music publishers. The Future of the Music Business provides a road map for success by explaining legal fundamentals including copyright law's application to the music business, basic forms of agreement such as recording, songwriting and management contracts, PLUS the rules pertaining to digital streaming, downloading and Internet radio. This book also shows exactly how much money is generated by each of these models, and details how the money flows to the principal stakeholders: artists, record labels, songwriters and music publishers. Part I is a comprehensive analysis of the laws and business practices applying to today's music business Part II is a guide for producers on how to clear music for almost any kind of project including movies, TV, ad campaigns, stand-alone digital projects AND how much it will cost Part III presents new discussions on the hottest industry controversies including net neutrality; and the financial battles between the new digital music services & copyright owners and artists Part IV discusses how to best use the new technologies to succeed The book contains URLs linking to 2 on-line videos: Fundamentals of Music Business and Law, and Anatomy of a Copyright Infringement Case. *Global Perspectives on Issues and Solutions in Urban Education* Petra A. Robinson,Ayana Allen-Handy,Amber Bryant,Chance W. Lewis,2019-03-01 In 2014, The Urban Education Collaborative at the University of North Carolina at Charlotte hosted its first biennial International Conference on Urban Education (ICUE) in Montego Bay, Jamaica. In 2016, the second hosting of the conference took place in San Juan, Puerto Rico. Additionally, in 2018, the third hosting of the conference took place in Nassau, Bahamas. These solution-focused conferences brought together students, teachers, scholars, public sector and business professionals as well as others from around the world to present their research and best practices on various topics pertaining to urban education. With ICUE's inspiration, this book is a response to the growing need to highlight the multifaceted aspects of urban education particularly focusing on common issues and solutions in urban environments (e.g., family and community engagement, student academic achievement, teacher preparation and professional development, targeted instructional and disciplinary interventions, opportunity gaps, culturally-relevant and sustaining practices, etc.). Additionally, with this book, we seek to better understand the challenges facing urban educators and students and to offer progressive initiatives toward resolutions. This unique compilation of work is organized under four major themes all targeted at critically addressing concerns that may inhibit the success of urban learners and providing solutions that have implications for curriculum design, development, and delivery; teacher preparation and teaching diverse populations; career readiness and employment; and even more nuanced issues related to foster care, undocumented students and mental health, sustainable consumption, childhood marriage, food deserts, and marine life and urban communities.

**The Songs of Robert Burns** Donald Low,2005-08-16 In this definitive work for our generation, Donald Low brings together, for the first time, the words and tunes of all Burns' known songs, both `polite' and bawdy. The Songs of Robert Burns were, in their author's eyes, the crown of his achievement as a poet. After years of study and investigation, many hours spent listening to old airs, as he recalled the living, daily, song-life of the people of Scotland, and through the creation of some of the finest lyric poetry produced in the British Isles, Burns' success is beyond doubt.

**Check the Technique** Brian Coleman,2009-03-12 A Tribe Called Quest • Beastie Boys • De La Soul • Eric B. & Rakim • The Fugees • KRS-One • Pete Rock & CL Smooth • Public Enemy • The Roots • Run-DMC • Wu-Tang Clan • and twenty-five more hip-hop immortals It's a sad fact: hip-hop album liners have always been reduced to a list of producer and sample credits, a publicity photo or two, and some hastily composed shout-outs. That's a damn shame, because few outside the game know about the true creative forces behind influential masterpieces like PE's It Takes a Nation of Millions. . . , De La's 3 Feet High and Rising, and Wu-Tang's Enter the Wu-Tang (36 Chambers). A longtime scribe for the hip-hop nation, Brian Coleman fills this void, and delivers a thrilling, knockout oral history of the albums that define this dynamic and iconoclastic art form. The format: One chapter, one artist, one album, blow-by-blow and track-by-track, delivered straight from the original sources. Performers, producers, DJs, and b-boys-including Big Daddy Kane, Muggs and B-Real, Biz Markie, RZA, Ice-T, and Wyclef-step to the mic to talk about the influences, environment, equipment, samples, beats, beefs, and surprises that went into making each classic record. Studio craft and street smarts, sonic inspiration and skate ramps, triumph, tragedy, and take-out food-all played their part in creating these essential albums of the hip-hop canon. Insightful, raucous, and addictive, Check the Technique transports you back to hip-hop's golden age with the greatest artists of the '80s and '90s. This is the book that belongs on the stacks next to your wax. "Brian Coleman's writing is a lot like the albums he covers: direct, uproarious, and more than six-fifths genius." -Jeff Chang, author of Can't Stop Won't Stop "All producers and hip-hop fans must read this book. It really shows how these albums were made and touches the music fiend in everyone." -DJ Evil Dee of Black Moon and Da Beatminerz "A rarity in mainstream publishing: a truly essential rap history." -Ronin Ro, author of Have Gun Will Travel

Teaching Health Care in Virtual Space Estelle Codier,2019-01-31 Teaching Health Care in Virtual Space is the first "how-to" manual for health educators on the instructional use of three-dimensional, computer-generated virtual environments that can be inhabited simultaneously by many participants; commonly called "multi-user virtual learning environments" or MUVE. Based on her experience supervising more than 400 learning activities in Second Life®—as of 2014, the largest public (free) MUVE—Dr. Estelle Codier has written a step-by-step handbook for novice and experienced MUVE teachers alike. The book provides those new to virtual teaching with specific steps to assess their own instructional readiness, guidance for assessing student and class readiness, as well as detailed descriptions of problem prevention and solutions. The text is accompanied by lively case studies of both success and failure in virtual learning environments. Inspiring stories of student learning illustrate the power of MUVE to transform health care education. This innovative handbook presents an extended discussion of the pedagogical advantages for learning in multi-user virtual environments, along with a history of learning in Second Life®. The text includes an appendix of supporting materials for MUVE learning activities: evaluation grids, grading matrices, syllabus descriptions, and detailed orientation materials for both faculty and students. While the sample learning activities were designed for nurses, instructors in other disciplines could easily adapt them for use in any MUVE setting.
