While these technologies have wrecked havoc on traditional business models, they've also provided new opportunities for music business entrepreneurs, as well as new challenges for musicians, recording artists, songwriters, record labels and music publishers. The Future of the Music Business provides a road map for success by explaining legal fundamentals including copyright law's application to the music business, basic forms of agreement such as recording, songwriting and management contracts, PLUS the rules pertaining to digital streaming, downloading and Internet radio. Young Adult Resources Today Don Latham, Melissa Gross, 2014-05-21 Young Adult Resources Today: Connecting Teens with Books, Music, Games, Movies, and More is the first comprehensive young adult library services textbook specifically written for today's multidimensional information landscape. Key features of this revolutionary book include its success in: Integrating theory, research, and practice Integrating implications for practice throughout the book Integrating knowledge of resources with professional practice as informed by research Integrating both print and electronic formats throughout—within the resource chapters (including websites and social media) Latham and Gross accomplish all this while, paying particular attention to the socially constructed nature of young adulthood, diversity, YA development, and multiple literacies. Their coverage of information landscapes covers literature (with detailed coverage of both genres and subgenres), movies, magazines, web sites, social media, and gaming. The final chapter cover navigating information landscapes, focusing on real and virtual YA spaces, readers' advisory, programming, and collaboration.
