📖 **Social Skills** Alex Kelly,2018-12-07 What can we do to help those who struggle to develop effective social skills? Social Skills: Developing Effective Interpersonal Communication is a definitive guide to understanding and meeting the needs of those who have difficulty with social skills. Written in a clear and accessible manner, this book provides a theoretical framework to the teaching of social skills alongside a range of practical ideas for practitioners. The book offers a four-step plan that can be adapted for use with young people or adults who are struggling with any aspect of their social skills. A simple model for assessing social skills is provided, as well as ways to measure the impact of intervention. Full of interesting examples and case studies, it includes discussion of how to teach social skills, how social skills develop through childhood, why they sometimes might not, and why social skills difficulties can have an impact on self-esteem and friendships. It includes a breakdown of social skills into the following areas: body language eye contact listening and paralanguage starting and ending conversations maintaining conversations assertiveness Written by one of the most well-known speech and language therapists in this field and the creator of the internationally successful Talkabout resources, this book provides a key reference for the study of social skills. It will be essential reading for educators, therapists, parents and anyone supporting others in developing communication and social skills.

📖 **Cepat Mahir Membuat Film Animasi 3D** Lea Willsen,2017-05-15 Membuat film animasi terasa susah?! 📖 **Using Technology to Support High-Impact Educational Practice** Karen S. Ivers,2018-12-01 Emphasizing the importance of preparing students for the global workforce, this title explains how to teach using the latest educational technology. As technology becomes more advanced and accessible, it gives rise to new delivery methods of instruction and learning. High Impact Educational Practices including collaboration, diversity, global learning, service- and project-based learning, and research and writing, can be used to strengthen students' readiness for the demands of the 21st-century global community and workforce. This book helps current and future K-12 educators to better understand high impact educational practices and why they are important. It provides educators with ideas of how to use technology to support high impact educational practices in their classrooms and helps them to create just, equitable, and inclusive learning environments that support 21st-century learning.

📖 **Simulations for Personnel Selection** Michael Fetzter,Kathy Tuzinski,2013-08-13 This book provides a comprehensive and state-of-the-art overview of simulation development, technologies, and implementation, including real-world examples and results followed by a preview of what's on the horizon that will further revolutionize the industry. More than a handful of books have been written on the use of simulations for training purposes, but this book focuses solely on simulations in employee selection contexts (e.g., hiring, promotion), making it a truly unique and valuable resource for both practitioners and academics. The science and practice of employee selection has advanced at a steady pace over the past two or three decades. However, recent advancements in both technology and assessment methods have been the catalyst for an evolutionary leap in the use of simulations in this area.

📖 **Advances in Visual Computing** George Bebis,Richard Boyle,Bahram Parvin,Darko Koracin,Ryan McMahan,Jason Jerald,Hui Zhang,Steven Drucker,Kambhamettu Chandra,El Choubassi Maha,Zhigang Deng,Mark Carlson,2014-12-02 The two volume set LNCS 8887 and 8888 constitutes the refereed proceedings of the 10th International Symposium on Visual Computing, ISVC 2014, held in Las Vegas, NV, USA. The 74 revised full papers and 55 poster papers presented together with 39 special track papers were carefully reviewed and selected from more than 280 submissions. The papers are organized in topical sections: Part I (LNCS 8887) comprises computational bioimaging, computer graphics; motion, tracking, feature extraction and matching, segmentation, visualization, mapping, modeling and surface reconstruction, unmanned autonomous systems, medical imaging, tracking for human activity monitoring, intelligent transportation systems, visual perception and robotic systems. Part II (LNCS 8888) comprises topics such as computational bioimaging, recognition, computer vision, applications, face processing and recognition, virtual reality, and the poster sessions.

📖 **Critical Multimodal Studies of Popular Discourse** Emilia Djonov,Sumin Zhao,2013-09-23 Studies of multimodality have significantly advanced our understanding of the potential of different semiotic resources—verbal, visual, aural, and kinetic—to make meaning and allow people to achieve various social purposes such as persuading, entertaining, and explaining. Yet little is known about the role that individual nonverbal resources and their interaction with language and with each other play in concealing and supporting, or drawing attention to and subverting, social boundaries and inequality, political or commercial agendas. This volume brings together contributions by prominent and emerging scholars that address this gap through the critical analysis of multimodality in popular culture texts and semiotic practices. It connects multimodal analysis to critical discourse analysis, demonstrating the value of different approaches to multimodality for building a better understanding of critical issues of central interest to discourse analysis, semiotics, applied linguistics, education, cultural and media studies.

📖 **Action Research for Kids** Amanda O. Latz,Cheryll Adams,2021-09-03 Action Research for Kids provides teachers with comprehensive, creative, and hands-on units to engage students in action research. Students will benefit from learning about quantitative and qualitative research practices that can make a real difference in their lives and those within their communities. Within this text, teachers can select a lesson or use whole units as students explore research methods such as survey research, experimental research, life history, and photovoice in fun lessons that ask them to create a library wish list, interview people in their communities, lobby for cookies in the cafeteria, and experiment with preservatives. Each lesson comes with detailed instructions and ideas for differentiation. Grades 5-8

📖 **Distributed Learning** Tasha Maddison,Maha Kumaran,2016-10-12 The field of distributed learning is constantly evolving. Online technology provides instructors with the flexibility to offer meaningful instruction to students who are at a distance or in some cases right on campus, but still unable to be physically present in the classroom. This dynamic environment challenges librarians to monitor, learn, adapt, collaborate, and use new technological advances in order to make the best use of techniques to engage students and improve learning outcomes and success rates. Distributed Learning provides evidence based information on a variety of issues, surrounding online teaching and learning from the perspective of librarians. Includes extensive literature search on distributed learning Provides pedagogy, developing content, and technology by librarians Shows the importance of collaboration and buy-in from all parties involved
