App Design Basics for Professionals Jennifer Carrington,2018-05-11 It is my unique, personal honor to bequeath shards of wisdom to an inspiring woman of God, fellow businesswoman, and professional confidant Jennifer Carrington. She has crafted a timely, succinct, and relevant treatise. This work is a culmination of successive years of fine-tuning, labor, contemplation, and learning moments. This masterpiece, though laconic, injects a cornucopia of powerful principles and emits laser focus on the art of business branding, content, and presentation. Frankly, this book should be a required reading in both the halls of academia and for small/medium enterprises alike. As a personal and business mentor of Jennifer, I have witnessed firsthand how this driven and dogged businesswoman masterfully utilizes the concepts noted in this book in her own business J Carrington + Associates. She has proven to me on multiple occasions the value and pertinence of branding, content, and presentation. Her firm has, without slight hesitation, provided astute excellence and value-added service to our jurisdictional platform since I began working with her. As a competent, proven, and savvy businesswoman myself, I've trodden the deserted road of entrepreneurial persistence from my youth. During the last thirty-three years of trudging through provinces of resistance, peaks of success, and valleys of trepidation, I've learned the utter importance of crafting and molding the essential elements of branding. Without the organic and pliable foundation of branding, my quick-serve restaurant holdings company, V & J, would have flatlined with my initial Burger King acquisition. But by positioning and pivoting my firm as a brand unto itself, my company has been catapulted into a vast conglomeration of multiple food-service brands. As such and with the advent of global technology and social media, branding should be the lifeblood of any. Congratulations, Jennifer, and on serious entrepreneurial endeavors whether small or large. Read this book and find out why! May the Lord continue to shine his favor upon you as share your insights and unpretentious learnings relative to branding, creation content, relational data maintenance, and presentational swagger with us all. Dr. Valerie Daniels-Carter, president and CEO, V & J Holding Companies Inc.

It is the first time in the history when a piece of technology is defining our friendships and changing the way we work, walk and talk. Technology, which was supposed to make our lives easier and comfortable, is proving to be the biggest drivers of stress, loneliness, weakened brainpower, and behavioral addiction. We may have all the information at our finger touch, but we are failing to lead a happier life. In this book, the author uses real-life examples and case studies to identify the various ways technology and internet have changed our lives leading to the stick-to-the-screen syndrome, or commonly referred to as digital addiction and cyber addiction. The book explores methods for better tech management and principles to build a better structure for a happier and healthier life.
