Abdul's Journey from Zero to Hero in the Share Market

Mahesh Chandra Kaushik,2021-01-01 Mahesh Chandra Kaushik started his career as a teacher, after doing graduation with a Bachelor's Degree in Science. He worked as a Junior Clerk in Commercial Taxes Department for five years and then as T.R.A. in Revenue Department, at the Rajasthan Public Service Commission. He was promoted and is presently posted as Assistant Revenue Accounts Officer in the office of District Collector, Sirohi. Mahesh has been writing blogs on share market since 2009. Later, due to SEBI Research Analyst Regulation 2014 he had to stop blogging. This prompted thousands of his fans to register him as a certified Research Analyst so that they could continue to benefit from his blogs. Overcome by the love of his fans, he cleared that examination and got himself registered as Research Analyst with SEBI. He has more than 50 thousand followers on social media and You Tube. Now he provides the services as a Research Analyst free of cost.

App Design Basics for Professionals Jennifer

Carrington,2018-05-11 It is my unique, personal honor to bequeath shards of wisdom to an inspiring woman of God, fellow

businesswoman, and professional confidant Jennifer Carrington. She has crafted a timely, succinct, and relevant treatise. This work is a culmination of successive years of fine-tuning, labor, contemplation, and learning moments. This masterpiece, though laconic, injects a cornucopia of powerful principles and emits laser focus on the art of business branding, content, and presentation. Frankly, this book should be a required reading in both the halls of academia and for small/medium enterprises alike. As a personal and business mentor of Jennifer, I have witnessed firsthand how this driven and dogged businesswoman masterfully utilizes the concepts noted in this book in her own business J Carrington + Associates. She has proven to me on multiple occasions the value and pertinence of branding, content, and presentation. Her firm has, without slight hesitation, provided astute excellence and value-added service to our jurisdictional platform since I began working with her. As a competent, proven, and savvy businesswoman myself, I've trodden the deserted road of entrepreneurial persistence from my youth. During the last thirty-three years of trudging through provinces of resistance, peaks of success, and valleys of trepidation, I've learned the utter importance of crafting and molding the essential elements of branding. Without the

organic and pliable foundation of branding, my quick-serve restaurant holdings company, V & J, would have flatlined with my initial Burger King acquisition. But by positioning and pivoting my firm as a brand unto itself, my company has been catapulted into a vast conglomeration of multiple food-service brands. As such and with the advent of global technology and social media, branding should be the lifeblood of any. Congratulations, Jennifer, and on serious entrepreneurial endeavors whether small or large. Read this book and find out why! May the Lord continue to shine his favor upon you as share your insights and unpretentious learnings relative to branding, creation content, relational data maintenance, and presentational swagger with us all. Dr. Valerie Daniels-Carter, president and CEO, V & J Holding Companies Inc.

The SMART Balance Ankita Arora, 2020-02-20 HOW SMART DO YOU FEEL WITH YOUR SMARTPHONE? We live in exciting times. It is the first time in the history of humanity when a new intelligence exists - not in the brains of varied species, but in our own pockets. It is the first time in the history when a piece of technology is defining our friendships and changing the way we work, walk and talk. But as Thoreau once said, Men have become the tools of their tools. Technology, which was supposed to make our lives easier and comfortable, is proving to be the biggest drivers of stress, loneliness, weakened brainpower, and behavioral addiction. We may have all the information at our finger touch, but we are failing to lead a happier life. In this book, the author uses real-life examples and case studies to identify the various ways technology and internet have changed our lives leading to the

stick-to-the-screen syndrome, or commonly referred to as digital addiction and cyber addiction. The book explores methods for better tech management and principles to build a better structure for a happier and healthier life.

Building Windows 8 Apps with JavaScript Chris Sells, Brandon Satrom, Don Box, 2012-12-27 Building Windows 8 Apps with JavaScript is the definitive guide for every experienced developer who wants to create, ship, and profit from Windows 8 apps built with HTML5 and JavaScript. Written by Chris Sells, former Visual Studio Principal Program Manager who led the team that built Microsoft's official Windows 8 JavaScript app templates, and Brandon Satrom, expert web/mobile developer, this book covers every facet of development with Microsoft's new JavaScript framework and WinRT. The authors guide you through building full-featured Windows Store apps that merge the best aspects of desktop, web, and mobile apps into a single user and developer experience. You'll learn how to leverage the full power of the Windows 8 platform and integrate services ranging from client-side state to offline storage. Leveraging these techniques, you can deliver information to users faster, more clearly, and more concisely, on whatever devices they prefer. Through complete example projects, Building Windows 8 Apps with JavaScript covers Understanding powerful new improvements in Windows 8 developer experience Using Windows 8's more flexible binding to

update the UI as underlying data changes Creating layouts and typography that fit Windows 8 style and leverage its advantages Working with audio, video, captured media, animation, and HTML5 graphics Making your app “connectable” with PlayTo Integrating WinJS navigation services to improve UI control Maintaining app states built up over time, and sharing them across devices Writing highly responsive async apps Supporting true-touch metaphors and interactions, location data, and sensors Designing apps for the Windows 8 design language Extending JavaScript code to integrate existing C/C++ code or to access Windows capabilities that WinRT doesn’t expose Discovering best practices for monetizing Windows Store apps All of the downloadable examples can be created and run with Microsoft’s free Visual Studio 2012 Express for Windows 8, which includes all you need to build, package, and deploy your Windows Store apps.

Apps Gerard Goggin,2021-05-20 Since the rise of the smartphone, apps have become entrenched in billions of users' daily lives. Accessible across phones and tablets, watches and wearables, connected cars, sensors, and cities, they are an inescapable feature of our current culture. In this book, Gerard Goggin provides a comprehensive and authoritative guide to the

development of apps as a digital media technology. Covering the technological, social, cultural, and policy dynamics of apps, Goggin ultimately considers what a post-app world might look like. He argues that apps represent a pivotal moment in the development of digital media, acting as a hinge between the visions and realities of the “mobile,” “cyber,” and “online” societies envisaged since the late 1980s and the imaginaries and materialities of the digital societies that emerged from 2010. Apps offer frames, construct tools, and constitute “small worlds” for users to reorient themselves in digital media settings. This fascinating book will reframe the conversation about the software that underwrites our digital worlds. It is essential reading for students and scholars of media and communication, as well as for anyone interested in this ubiquitous technology.
