Myanmar Internet and E-Commerce Investment and Business Guide - Regulations and Opportunities IBP, Inc.,2013-08-01 Myanmar Internet and E-Commerce Investment and Business Guide - Strategic and Practical Information: Regulations and Opportunities

Myanmar (Burma) since the 1988 Uprising Andrew Selth,2022-01-24 Updated by popular demand, this is the fourth edition of this important bibliography. These works have been organized into thirty-five subject chapters containing ninety-five discrete sections. Access Contested Ronald Deibert,John Palfrey,Rafal Rohozinski,Jonathan Zittrain,2011-09-30 Experts examine censorship, surveillance, and resistance across Asia, from China and India to Malaysia and the Philippines. A daily battle for rights and freedoms in cyberspace is being waged in Asia. At the epicenter of this contest is China—home to the world's largest Internet population and what is perhaps the world's most advanced Internet censorship and surveillance regime in cyberspace. Resistance to China's Internet controls comes from both grassroots activists and corporate giants such as Google. Meanwhile, similar struggles play out across the rest of the region, from India and Singapore to Thailand and Burma, although each national dynamic is unique. Access Contested, the third volume

from the OpenNet Initiative (a collaborative partnership of the Citizen Lab at the University of Toronto's Munk School of Global Affairs, the Berkman Center for Internet and Society at Harvard University, and the SecDev Group in Ottawa), examines the interplay of national security, social and ethnic identity, and resistance in Asian cyberspace, offering in-depth accounts of national struggles against Internet controls as well as updated country reports by ONI researchers. The contributors examine such topics as Internet censorship in Thailand, the Malaysian blogosphere, surveillance and censorship around gender and sexuality in Malaysia, Internet governance in China, corporate social responsibility and freedom of expression in South Korea and India, cyber attacks on independent Burmese media, and distributed-denial-of-service attacks and other digital control measures across Asia.

Cross-Border Integration of Renewable Energy Systems

Venkatachalam Anbumozhi, Bhupendra Kumar Singh, 2023-10-02

Cross-border energy trade and integration of renewable energy have become significant for countries and regions to meet demands, minimize costs, and foster socio-economic and climate stability in the dynamic and unstable energy market. This book explores different models of global energy trade between regions and their benefits and challenges with a special focus on India's Northeast region. Countries in South and Southeast Asia are endowed with abundant renewable energy resources. This book examines the energy mix of the countries such as India, Myanmar, Thailand, Bangladesh, and Bhutan among others and their efforts to achieve more integrated markets and renewable energy integration in the region. It highlights the potential of Northeast India given its rich natural resources and strategic location to harness the potential cross-border energy trade with ASEAN countries. The volume provides analytical perspectives on drivers, constraints, opportunities and barriers, as well as measures that countries could take to address institutional, financial, policy, and

governance issues to minimize the total costs of energy security and maximize the social-economic benefits for people in these regions. It identifies the necessary conditions – grid flexibility, policy, market, and regulatory solutions for clean energy trade – and contributes to growth of low-carbon development as well as policy making by focusing on renewable energy integration across borders. This volume will be of interest to students and researchers of energy and climate studies, environmental politics, trade, and economics and international relations. This book is freely available as a downloadable Open Access PDF at www.taylorfrancis.com under a Creative Commons (CC-BY-NC-ND) 4.0 license.

The Report: Myanmar 2015 Oxford Business

Group,2015-03-03 The country's location within the region and population of more than 50m will help it achieve growth, with international analysts predicting Myanmar's economy to be worth up to \$200bn by 2030. With elections set to take place in late 2015, the world is eagerly watching to see how things will unfold. After spending decades as one of the most isolated and least-developed countries in Asia, Myanmar is emerging as one of the world's fastest-growing economies. Agriculture, manufacturing and mining are some of Myanmar's top contributors to GDP, which was forecast to reach 8.5% in FY2014/15 and FY2015/16. While foreign investment is accelerating, there are ways in which it remains blocked. As the country continues to reintegrate with the global economy, continued reforms as well as the opening of more economic sectors to foreign investors will help unlock the country's potential.

Interpreting Myanmar Andrew Selth, 2020-12-10 Since the abortive 1988 pro-democracy uprising, Myanmar (formerly Burma) has attracted increased attention from a wide range of observers. Yet, despite all the statements, publications and documentary films made about the country over the past 32 years, it is still little known and poorly understood. It remains the subject of many myths, mysteries and misconceptions. Between 2008 and 2019, Andrew Selth clarified and explained contemporary developments in Myanmar on the Lowy Institute's internationally acclaimed blog, The Interpreter. This collection of his 97 articles provides a fascinating and informative record of that critical period, and helps to explain many issues that remain relevant today.

Dictatorship, Disorder and Decline in Myanmar Monique Skidmore, Trevor Wilson, 2008-12-01 Mass peaceful protests in Myanmar/Burma in 2007 drew the world's attention to the ongoing problems faced by this country and its oppressed people. In this publication, experts from around the world analyse the reasons for these recent political upheavals, explain how the country's economy, education and health sectors are in perceptible decline, and identify the underlying authoritarian pressures that characterise Myanmar/Burma's military regime.

Burma Or Myanmar? Lowell Dittmer, 2010 Burma is one of the largest and most richly endowed states in Southeast Asia. Yet it remains both economically and politically underdeveloped. Why is this so? This book argues that much of the reason has to do with an ongoing struggle for national identity. It is suitable for students and professionals interested in development studies.

Myanmar in Pictures Thomas Streissguth, 2007-01-01 Information on the geography, history, government, people, culture, and economy of Myanmar.

Myanmar Chaw Chaw Sein, Chenyang Li, Located at the junction of East Asia, South Asia and Southeast Asia, Myanmar is

one of the most important countries in the world's geopolitical landscape. Its ongoing political and economic reforms arouse growing concern from the international community, especially great powers like the US, Japan, India and China. Will the domestic reform bring Myanmar back to the international community? How and to which extent does the domestic reform change Myanmar's relations with other countries? This book is based on papers presented at an international conference on Myanmar held at the Institute of Myanmar Studies in Yunnan University, China in 2014. Based on their long-term observation and studies, experts from China, Laos, Myanmar, Germany, Singapore and the US share their opinions on Myanmar's domestic reform and foreign relations, as well as the current situation and future prospect. This book contributes to better understanding of Myanmar in its dramatic political and social transition.--
