Skyscanner Guide Shavonda Glashen, 2021-05-12 Skyscanner scans the web for as many worldwide flights, hotel, and car rental offer as we can, to offer you all of your travel options and provide the best deals. We are essentially a travel search engine, as we do the searching for you but the reservation is made directly with the airline or travel provider. In other words, we're a comparison website. An online travel agency is a bit different, as you will book your travel directly on the website. I've created this guide full of tips and tricks to introduce you to the tools of Skyscanner and how to use them effectively. The potential of the Skyscanner website is boundless, and I want the world to enjoy it. I'm going to show you how to use a few Skyscanner hacks I've learned during my journey to travel to as many places as cheaply as possible. Your dream destination awaits happy travels.

European Competition Law Annual 2013 Philip Lowe, Mel Marquis, Giorgio Monti, 2016-04-21 This volume contains papers presented at the 18th Annual EU Competition Law and Policy Workshop. The papers examine means of balancing effective (public) competition law enforcement and the requirements of legitimate and accountable exercise of public authority. The authors address the design and performance of various enforcement tools at European and national levels, including sanctions and remedies but also distinctive instruments under Regulation 1/2003 (eg commitment procedures) and under the Treaty on the Functioning of the European Union (Article 106(3) when used as a basis for infringement procedures). From the perspective of legitimacy, reflections focus on the implications of fundamental rights standards and general principles of law for the EU's complex and quasi-federal enforcement architecture. Issues that may sometimes escape judicial scrutiny are also discussed, such as how agencies prioritise their activities, and how investigation responsibilities are distributed within the European Competition Network. Effectiveness and legitimacy are then considered in the context of public enforcement cooperation beyond the EU, where international organisations, regional cooperation and a range of formal and informal modes of governance prevail.

Enabling Microservice Success Sarah Wells, 2024-03-26 Microservices can be a very effective approach for delivering value to your organization and to your customers. If you get them right, microservices help you to move fast by making changes to small parts of your system hundreds of times a day. But if you get them wrong, microservices will just make everything more complicated. In this book, technical engineering leader Sarah Wells provides practical, in-depth advice for moving to microservices. Having built her first microservice architecture in 2013 for the Financial Times, Sarah discusses the approaches you need to take from the start and explains the potential problems most likely to trip you up. You'll also learn how to maintain the architecture as your systems mature while minimizing the time you spend on support and maintenance. With this book, you will: Learn the impact of microservices on software development patterns and practices Identify the organizational changes you need to make to successfully build and operate this architecture Determine the steps you must take before you move to microservices Understand the traps to avoid when you create a microservices architecture—and learn how to recover if you fall into one

Strategic Management for Tourism, Hospitality and Events Nigel G. Evans, 2024-01-24 Strategic Management for Tourism, Hospitality and Events is the must-have text for students approaching this subject for the first time. It introduces students to fundamental strategic management principles in a tourism, hospitality and events context and brings theory to life by integrating a host of industry-based case studies and examples throughout. This fourth edition has been fully revised and updated to reflect the major changes in strategic direction for these industries due to the most significant global crisis ever, as well as significant technology advances and issues related to sustainability. New features and topics in this fourth edition include: New international tourism, hospitality and events case studies from both SMEs and large-scale businesses are integrated throughout to show applications of strategic management theory. New Technology Focus short cases are included, as well as longer combined sector case studies on topics such as COVID-19 impacts. A new chapter on sustainability and corporate social responsibility explores how the principles of sustainability can be incorporated into the strategy of tourism, hospitality and events organizations. Technology is integrated into all chapters, looking at big data, artificial intelligence, the external political

environment, social media and e-marketing, absorptive capacity and innovation. Impacts and implications of COVID-19 are discussed, considering industry responses, financial implications and future emergent strategies. A contemporary view incorporates the broad range of academic literature and industry developments that have emerged in recent years and provides a particular focus on smaller organizations, recognizing their key role. Web support for tutors and students provides explanations and guidelines for instructors on how to use the textbook and case studies, additional exercises and video links for students. This book is written in an accessible and engaging style and structured logically, with useful features throughout to aid students' learning and understanding. It is an essential resource for tourism, hospitality and events students.

Tarzan Economics, 2021-05-18 Taking the lessons learned from his years studying the rise and fall of the modern music industry, Spotify's Chief Economist has crafted "a compelling and generous read" (Scott Galloway) that provides the tools to recognize and adapt to disruption in any industry. As the chief economist at Spotify, Will Page has had the best seat in the house for witnessing—and harnessing—the power of disruptive change. Music has often been the canary in the coal mine for major technological and societal shifts, and if there's one thing Page learned from the digital revolution, it's that businesses must be ready to pivot. Drawing practical lessons from a variety of fresh case studies covering Radiohead, Starbucks, and even Groucho Marx, Page examines the eight principles that disruption has thrown into sharp relief as keys to survival in any sector. Businesses need to be ready and willing to change and, if necessary, be prepared to rebuild entire organizations and business models to do so. Pivoting through disruption has everything to do with being able to see the revolutionary changes around the corner, recognizing your strengths, and having the confidence to let go of the old vine of doing business and grab onto the new. A rare book of economics offering actionable takeaways in easy-to-understand language, Tarzan Economics is the must-read book for anyone staring at their own Napster moment and wishing they knew how to fail-safe their business.

Advances in Intelligent Systems and Computing IV Natalya Shakhovska, Mykola O. Medykovskyy, 2019-11-01 This book reports on new theories and applications in the field of intelligent systems and computing. It covers computational and artificial intelligence methods, as well as advances in computer vision, current issues in big data and cloud computing, computation linguistics, and cyber-physical systems. It also reports on important topics in intelligent information management. Written by active researchers, the respective chapters are based on selected papers presented at the XIV International Scientific and Technical Conference on Computer Science and Information Technologies (CSIT 2019), held on September 17–20, 2019, in Lviv, Ukraine. The conference was jointly organized by the Lviv Polytechnic National University, Ukraine, the Kharkiv National University of Radio Electronics, Ukraine, and the Technical University of Lodz, Poland, under patronage of Ministry of Education and Science of Ukraine. Given its breadth of coverage, the book provides academics and professionals with extensive information and a timely snapshot of the field of intelligent systems, and is sure to foster new discussions and collaborations among different groups.

Opportunity Recognition Andreas Engelen, Clara von Gagern, Monika Engelen, 2023-03-23 The textbook contains a comprehensive presentation of tools that can be used to systematically generate innovative ideas for new business growth (opportunities). In practice, it can be observed that companies make considerable efforts to identify ideas for innovations that can decisively shape their industry. The reason for this is not least the knowledge that a missed wave of innovation can lead to major problems for the entire company. A central finding of business management research is that ideas for generating future growth opportunities are often not a product of chance, but the results of systematic analyses. The authors provide a structured and comprehensive overview of the most important tools for identifying new growth opportunities. They distinguish between company-related, market-related and environment-related approaches, incorporate numerous practical examples and provide application-oriented assistance with these tools. The second edition of the book incorporates the latest research findings, some examples have been updated and supplemented, and the book has been expanded to include practical application tasks for teaching and practical workshops.

CEO Secrets Dougal Shaw, 2022-11-10 Since 2015 the BBC has been asking CEOs and founders a simple question: 'What's the advice you wish you had when you started out?' This book is the culmination of their insights, expertise, and secrets to success. It's wisdom that can help anyone, from budding entrepreneurs to career climbers. Drawing on original interviews from the CEO Secrets series, conducted by Dougal Shaw, this book covers a range of sectors, from tech and economics to fashion and hospitality. It contains unparalleled insights on overcoming the many challenges facing entrepreneurs, providing guidance and motivation from both leaders of well-known international firms, like Airbnb, LinkedIn, Tinder, and Mumsnet, as well as smaller start-ups breaking through. If you've ever dreamed of starting your own company, or perhaps already run a business but want to become a better leader, then this is the book for you.

Organizational Leadership John Bratton, 2020-02-29 Organizational Leadership provides an accessible, critical and engaging analysis of what constitutes 'leadership' today. Demonstrating leadership as an interconnected process between leaders, followers and context, the book ensures a rounded understanding of theory and practice to support students throughout their course and future career. Part 1: Contextualising Leadership examines the internal and external forces influencing leadership, addressing issues such as ethics, power, culture and innovation. Part 2: Leadership Theories reviews and analyses traditional and contemporary theories of leadership. Part 3: Managing People and Leadership builds on the idea of leadership as a human process and considers how complementary aspects of HRM can inform leadership practice and its outcomes on employees and organizational performance. Part 4: Contemporary Leadership considers topical issues including the shift of leadership studies towards followership, gender and leadership and pro-environmental leadership. Bringing complex theories and concepts to life through a range of case studies and examples, the book is further supported by a series of fascinating expert video conversations with those in leadership roles. From small social businesses to major multi-nationals, from the NHS to the frontline military teams, the videos offer a unique insight into the diverse reality of leadership in practice today.

Tripping the Flight Fantastic Andrew Fraser, 2016-06-10 Nabbing flights for less than a fiver, Andrew Fraser took off on a month long jaunt around ten European cities for £144. In this entertaining account of his trip, he not only describes what he saw, but also how he did it, coaching aspiring travellers in how to create their own dream travel itineraries on flights which cost less than an airport latte. Join him on a bargain journey to some of Europe's weirdest, least visited backwaters, while also learning how to plan a ten-city adventure of your own. Andrew Fraser travelled 6,928 miles at an average cost of 2p per mile. Now you can, too. This unique title - the only one available that explains how to travel so far for so little - takes in some of Europe's least discovered cities, including Skopje, Girona, Thessaloniki, Gdansk, Warsaw and Wroclaw, as well as giving an entertaining overview of some more familiar places, such as Barcelona, Rome and Brussels. It tells you how to book secret five star hotels for three star prices with no mystery about where you are going to stay, how to travel the world cheaply from your local airport, and how to save a fortune and create an adventure by

abandoning the notion of the linear return flight. Uncovering the little known travel gems which you can fly to for under a tenner, it is also an often surreal, idiosyncratic and funny account of one man's adventures on the move, from attending an octopus autopsy in Barcelona to unearthing uncomfortable secrets in Europe's new Capital of Culture and discovering hip Warsawian apartments which straddle the worlds of Molotov and Madonna. What's more, it's a journey in search of culture, gastronomy and history and - on occasions - the seamier side of life in some of Europe's most thrilling but least known cities. Andrew Fraser is former Travel Editor and Deputy Editor of Attitude magazine, and former Chief Writer of OK! Magazine. He has had a love of the obscure, a love of bargains, and a love of travel since he was a strange eight year-old-boy locked in his bedroom obsessing over maps of Narnia-esque towns, cities and regions on the red side of the European map, which he was told he would never be able to visit. When the Berlin wall fell in 1989, he rushed to Prague, Bratislava and Budapest where he enjoyed the greatest adventure of his life so far, costing little more than pennies. Now the internet and low cost airlines, have brought back those halcyon days of cheap travel bliss and Andrew Fraser's mission in life is to transport you to places beyond your wildest dreams for less than the cost of your airport latte. Come join him.

Big Data to Improve Strategic Network Planning in Airlines Maximilian Schosser, 2019-09-05 Big data has become an important success driver in airline network planning. Maximilian Schosser explores the status quo of network planning across a case study group consisting of nine airlines representing different business models. The author describes 23 big data opportunities for airline network planning and evaluates them based on their specific value contribution for airline network planning. Subsequently, he develops a financial evaluation methodology for big data opportunities based on key performance indicators for airline network planning departments.

Abusive Practices in Competition Law Fabiana Di Porto, Rupprecht Podszun, Abusive Practices in Competition Law tackles the difficult questions presented to competition lawyers and economists regarding abusive practices: where and when is the red line crossed in competitive advances? When is a company explicitly dominant? How do you handle those who hold superior bargaining power over others but are not classed as dominant?

American English File 3E Level 5 Student Book Christina Latham-Koenig, Clive Oxenden, Jerry Lambert, 2020-07-28 American English File Second Edition retains the popular methodology developed by world-renowned authors Christina Latham-Koenig and Clive Oxenden: language + motivation = opportunity. With grammar, vocabulary, and pronunciation practice in every lesson, students are equipped with a solid foundation for successful speaking. Plus - an array of digital resources provides even more choice and flexibility. Students can learn in the classroom or on the move with Online Practice. language assessment. The first goal is to explore the difference between fairness and justice in language assessment. The authors distinguish internal and external dimensions of the equitable and just treatment of individuals taking language tests which are used as gatekeeping devices to determine access to education and employment, immigrant status, citizenship, and other rights. The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics, in particular the models collectively known as Rasch measurement. "This book will have an enormous impact on the field of language assessment. Using Rasch analysis models to explore and identify sources of unfairness, the authors make a compelling case for fairness in the design and implementation of language assessment instruments and for justice in the interpretation and use of test results. A real strength of the book is that it guides readers through analytical techniques in an accessible way." Dan Douglas, Professor Emeritus, Applied Linguistics Program, Iowa State University.
