Von Herodot bis Hotelportal Nerad, Friederike,2020-08-25 Was ist eine Reise-App und welchen Mehrwert bietet sie gegenüber klassischen reisejournalistischen Formaten? Als relativ junges Phänomen sind Apps bislang wenig wissenschaftlich erforscht, auch wenn die Anwendungen für Mobilgeräte bereits von einer großen Anzahl an Rezipienten regelmäßig genutzt werden. Die Dissertation nähert sich dem Thema Reise-Apps deskriptiv, um eine Bestandsaufnahme der aktuellen Situation zu ermitteln und Problemfelder herauszuarbeiten. Ein Überblick über die Entwicklung der Reiseberichterstattung und ihrer Erzählformen dient als Heranführung an den Reisejournalismus und wird ergänzt durch einen Blick auf die Funktionen, Kommunikatoren und Probleme des Genres. Den Kern der Dissertation bildet eine stichprobenartige Analyse von 13 Reise-Apps, die Erkenntnisse über Kommunikatoren, Funktionen, Mehrwert, Problembereichen und Zielgruppen des neuen digitalen Formats liefert.

Marine Geophysics E. J. W. Jones,1999-10-18 Provides a comprehensive review of techniques used to explore the oceans and examines what geophysical observations reveal about the structure and tectonics of the seabed and the Earth's interior. Exploration of the oceans using geophysical methods has had a profound effect on the way we view the structure of the earth and its behaviour through geological time. Geophysics has also played a vital role in the search for petroleum and other natural resources lying beneath the seabed. This volume looks at: * the means of locating observations accurately and determining in detail the morphology of the sea floor * the powerful seismic techniques for imaging the Earth's interior from shallow coastal areas to deep-sea trenches * the gravity and magnetic fields over the oceans, heat flow, electrical and radiometric methods and measurements in offshore boreholes * geophysical observations on the development of the modern oceans, the structure of their deep basins, and the nature of their aseismic and seismically active margins. This book will be of interest to marine scientists and advanced undergraduates and postgraduates following courses on, or undertaking research in, geophysics, marine geology, oceanography, physical sciences, remote sensing, marine surveying and offshore engineering.

The Danish Language in the Digital Age Georg Rehm,Hans Uszkoreit,2012-07-05 This white paper is part of a series that promotes knowledge about language technology and its potential. It addresses educators, journalists, politicians, language communities and others. The availability and use of language technology in Europe varies between languages. Consequently, the actions that are required to further support research and development of language technologies also differ for each language. The required actions depend on many factors, such as the complexity of a given language and the size of its community. META-NET, a Network of Excellence funded by the European Commission, has conducted an analysis of current language resources and technologies. This analysis focused on the 23 official European languages as well as other important national and regional languages in Europe. The results of this analysis suggest that there are many significant research gaps for each language. A more detailed expert analysis and

assessment of the current situation will help maximise the impact of additional research and minimize any risks. META-NET consists of 54 research centres from 33 countries that are working with stakeholders from commercial businesses, government agencies, industry, research organisations, software companies, technology providers and European universities. Together, they are creating a common technology vision while developing a strategic research agenda that shows how language technology applications can address any research gaps by 2020.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Therapie unter Zwang - ein Widerspruch? Bernhard Stadler, 2009 Sind Verhaltenstherapie und Zwang - wie immer wieder behauptet - unvereinbar? Schliessen sich Freiheitsentzug und Beziehungsarbeit gegenseitig aus? Endet die Unterbringung von Kindern und Jugendlichen in geschlossenen Heimen sogar in der Deformation ihrer Persönlichkeit? In der Kinder- und Jugendhilfe werden diese Fragen seit Jahrzehnten mit immer wieder wechselnden Vorzeichen heftig diskutiert. Nur auf wissenschaftlich belastbare Daten kann sich eigentlich niemand berufen. Bernhard Stadlers empirisch fundierte Studie zu dieser Thematik schliesst damit eine Forschungslücke und widerlegt so manches Vorurteil. Am Beispiel des Mädchenheims Gauting und seiner Arbeit mit dissozialen Mädchen zeigt er, in welchen Fällen freiheitsentziehende Massnahmen in der Jugendhilfe helfen können und wo nicht. Er bezieht dazu subjektive Einschätzungen der Jugendlichen und ihrer Betreuer ebenso ein wie Testergebnisse, Interviews und die Diagnosen eines externen Instituts.
