*Handbook of Defence Electronics and Optronics* Anil K. Maini, 2018-07-23 Handbook of Defence Electronics and Optronics Anil K. Maini, Former Director, Laser Science and Technology Centre, India First complete reference on defence electronics and optronics Fundamentals, Technologies and Systems This book provides a complete account of defence electronics and optronics. The content is broadly divided into three categories: topics specific to defence electronics; topics relevant to defence optronics; and topics that have both electronics and optronics counterparts. The book covers each of the topics in their entirety from fundamentals to advanced concepts, military systems in use and related technologies, thereby leading the reader logically from the operational basics of military systems to involved technologies and battlefield deployment and applications. Key features: • Covers fundamentals, operational aspects, involved technologies and application potential of a large cross-section of military systems. Discusses emerging technology trends and development and deployment status of next generation military systems wherever applicable in each category of military systems. • Amply illustrated with approximately 1000 diagrams and photographs and around 30 tables. • Includes salient features, technologies and deployment aspects of hundreds of military systems, including: military radios; ground and surveillance radars; laser range finder and target designators; night vision devices; EW and EO jammers; laser guided munitions; and military communications equipment and satellites. Handbook of Defence Electronics and Optronics is an essential guide for graduate students, R&D scientists, engineers engaged in manufacturing defence equipment and professionals handling the operation and maintenance of these systems in the Armed Forces.

Neon Genesis Evangelion Cocoro Books, 2004 Neon Genesis Evangelion was one of the major anime works of the last decade. Director Hideaki Anno used the medium as no one had before: as a means for personal expression and for exorcising private demons. However, the TV show and subsequent feature films left many hardcore anime fans scratching their heads in wonder. This book sets out to answer the numerous questions that the complex and endlessly fascinating characters raised - from the Angels to the Evas to Shinji and his estranged father, Gendo.

*Neon* G.S. Locke, 2020-02-20 A detective desperate for revenge. A hitwoman with one last job. A killer with both on his list. Detective Matt Jackson's beloved wife, Polly, is the latest victim of a serial killer - Neon - who displays his victims amongst snaking neon lights. Suicidal but unable to kill himself, he hires someone to finish the job. But on the night of his planned murder he makes a breakthrough in the Neon case and offers his assassin, Iris, an irresistible opportunity: help Jackson find and kill Neon in return for his entire estate. What follows is a thrilling game of cat-and-mouse between detective, assassin and serial killer. But when Jackson discovers it's not a coincidence that their paths have crossed, he begins to question who the real target has been all along...

NEON Lieben Sapha Burnell, 2021-08-21 AI meets gene-splicers, when the Idless & the Conglom fight to define artificially intelligent android Lieben and thus, the world. Seven decades later, Aderastos sets the human race against its' next stage in evolution, if he can survive long enough to rescue his fellows. Two interconnected storylines intersect. Will Lieben help, or hinder? 2085. Dr. Karnak & Baiko's beloved android Lieben is in danger of becoming mother of the Conglomerate's artificial slave race. With the Chairman's assassin Tara's sights on them, Baiko steals the secret to Lieben's artificial intelligence and runs to the Idless, anti-label anarchists, who believe Lieben is the key to free the world from corporate control. Will Baiko get to Lieben in time, or will Tara? 2155. Accidentally awakened gene-spliced bio-machine Aderastos wades to shore in Ucluelet, BC to the hum of the Mater Machine Lieben's Hymn Electric. Harmless Lt. Max Allard is tasked to drag him back to the Ithavoll, before Lieben claims 'it' for her own, and Aderastos' fellow Assets are destroyed. 'Come at your leisure. My love is free. My abundance is yours.' All Hail the Android Queen. NEON Lieben is an emotional and powerful Cyberpunk adventure.

**A Ride In The Neon Sun** Josie Dew, 2012-08-02 It's not easy landing unprepared in a country like Japan. The eccentricities of the calendar, the indecipherable postal system, not to mention the alien alphabet, language and culture, have all to be confronted before the disorientated traveller can feel at ease. Trying to ride a bicycle through the streets of one of the most congested cities in the world would seem to compound your problems. For Josie Dew, however, with over 200,000 miles already clocked up in the saddle few things could be more challenging - or for the reader of A RIDE IN THE NEON SUN, more wonderfully entertaining. From Kawasaki to Kagoshima, Odawara to Okinawa, Josie discovered a nation rich in dazzling contrasts. The neon and concrete were there in greater abundance than even she had imagined, but so too were bottomless baths, love burgers, long-tailed cocks, musical toilet rolls, oriental Elvises, cardboard police and a sense of fun belying the population's rigorous work ethic. Far from being the reserved race that she had heard about, the Japanese welcomed her into their homes with bountiful smiles and bows - and skin-scorching baths.

SBIR at the Department of Defense National Research Council, Policy and Global Affairs, Board on Science, Technology, and Economic Policy, Committee on Capitalizing on Science, Technology, and Innovation: An Assessment of the Small Business Innovation Research Program--Phase II, 2014-09-30 Created in 1982 through the Small Business Innovation Development Act, the Small Business Innovation Research (SBIR) program remains the nation's single largest innovation program for small business. The SBIR program offers competitive awards to support the development and commercialization of innovative technologies by small private-sector businesses. At the same time, the program provides government agencies with technical and scientific solutions that address their different missions. SBIR at the Department of Defense considers ways that the Department of Defense SBIR program could work better in addressing the congressional objectives for the SBIR program to stimulate technological innovation, use small businesses to meet federal research and development (R & D) needs, foster and encourage the participation of socially and economically disadvantaged small businesses, and increase the private sector commercialization of innovations derived from federal R&D. An earlier report, An Assessment of the Small Business Innovation Research Program at the Department of Defense, studied how the SBIR program has stimulated technological innovation and used small businesses to meet federal research and development needs. This report builds on the previous one, with a revised survey of SBIR companies. SBIR at the Department of Defense revisits some case studies from the 2009 study and develops new ones, and interviews agency managers and other stakeholders to provide a second snapshot of the program's progress toward achieving its legislative goals.

Gold - Gray - Neon: Blackwood Security Books 4 - 5.5 Elise Noble, 2019-06-07 Lara Reynolds has nothing. Well, nothing but a stalker and an ex-boyfriend she'd rather forget. As housekeeper to confirmed bachelor and former Navy SEAL Nick Goldman, can she convince him to rethink his dirty ways? Georgia Rutherford-Beaumont has everything. Well, everything except a little excitement in her life. But when drama arrives in the form of a high-velocity bullet and she's forced into hiding, boredom is the least of her worries. Reclusive artist Mitchell Gray is tasked with keeping her safe, but where does the real danger lie? In the shadows? Or in Georgia herself? Bradley has a generous expense account, and he knows how to use it. Six girls, five stars, four kinds of organic yogurt, three days, two guns, and one case of mistaken identity. Welcome to Bradley's world... This box set contains two full-length romantic suspense novels and a novella from the Blackwood Security series - no cliffhangers!

**The Next War in the Air** Brett Holman, 2016-02-17 In the early twentieth century, the new technology of flight changed warfare irrevocably, not only on the battlefield, but also on the home front. As prophesied before 1914, Britain in the First World War was effectively no longer an island, with its cities attacked by Zeppelin airships and Gotha bombers in one of the first strategic bombing campaigns. Drawing on prewar ideas about the fragility of modern industrial civilization, some writers now began to argue that the main strategic risk to Britain was not invasion or blockade, but the possibility of a sudden and intense aerial bombardment of London and other cities, which would cause tremendous destruction and massive casualties. The nation would be shattered in a matter of days or weeks, before it could fully mobilize for war. Defeat, decline, and perhaps even extinction, would follow. This theory of the knock-out blow from the air solidified into a consensus during the 1920s and by the 1930s had largely become an orthodoxy, accepted by pacifists and militarists alike. But the devastation feared in 1938 during the Munich Crisis, when gas masks were distributed and hundreds of thousands fled London, was far in excess of the damage wrought by the Luftwaffe during the Blitz in 1940 and 1941, as

terrible as that was. The knock-out blow, then, was a myth. But it was a myth with consequences. For the first time, *The Next War in the Air* reconstructs the concept of the knock-out blow as it was articulated in the public sphere, the reasons why it came to be so widely accepted by both experts and non-experts, and the way it shaped the responses of the British public to some of the great issues facing them in the 1930s, from pacifism to fascism. Drawing on both archival documents and fictional and non-fictional publications from the period between 1908, when aviation was first perceived as a threat to British security, and 1941, when the Blitz ended, and it became clear that no knock-out blow was coming, *The Next War in the Air* provides a fascinating insight into the origins and evolution of this important cultural and intellectual phenomenon, Britain's fear of the bomber.

**Neon** National Research Council,Division on Earth and Life Studies,Board on Life Sciences,Committee on the National Ecological Observatory Network,2003-12-15 The book endorses the National Science Foundation's concept of the National Ecological Observatory Network (NEON) for providing a nationwide network of facilities and infrastructure for ecological and environmental research that is impossible with existing infrastructure. The committee identified six grand challenges in environmental biology - biodiversity, biogeochemical cycles, climate change, ecology and evolution of infectious diseases, invasive species and land and habitat use-that deserves high priority for research and needs to be addressed on a regional or continental scale. However, the book says that NEON needs a refined focus and a more detailed plan for its implementation to ensure the maximization of its contribution to science and to better fit within the purview of Major Research Equipment and Facilities Construction funding.

**Military Women in World Cinema** Deborah A. Deacon,Stacy Fowler,2023-08-10 From British soldier Flora Sandes to the famed World War II Night Witches of the Soviet Air Force, women across the globe have stepped up to defend their countries during every major and minor conflict of the twentieth century, and filmmakers have long attempted to capture their stories. This book analyzes these military women's portrayals in world cinema, examining movies from Israel, the United Kingdom, Italy, the United States, Japan and others. It includes theatrical releases, direct-to-video productions, and made-for-television films. Chapters organize films by decade produced, and topics covered include the women's sexuality, maternal and marital status; leadership skills; actual jobs performed; and the accuracy of depiction. The book also discusses how each film reflects the contemporary social issues of the nation in which it was produced.

*Neon Visions* Brannon Costello,2017-10-11 In the 1980s, Howard Chaykin broke new ground in American comic books with a series of formally innovative, iconoclastic works that turned the traditional action-adventure tales of mainstream comics into a platform for personal expression, political engagement, and aesthetic experimentation. His original creations American Flagg!, Time2, and the notorious Black Kiss, along with his reshaping of familiar titles like The Shadow and Blackhawk, generated acclaim and often controversy as they challenged expectations of the visual design and subject matter permissible in popular comics. Today, Chaykin remains a vital and prolific artist, but despite the original and influential nature of his work, he receives scant critical attention. In *Neon Visions*, Brannon Costello offers the first book-length critical evaluation of Chaykin's work and confronts the blind spots in comics scholarship that consign this seminal artist to the margins. He argues that Chaykin's contributions are often overlooked because his comics eschew any pretensions to serious literature. Instead, Chaykin's work revels in the cliffhanger thrills of heroic-adventure genres and courts outrage with transgressive depictions of violence and sexuality. Examining Chaykin's career from his early successes to compelling contemporary series such as *City of Tomorrow*, *Dominic Fortune*, and the controversial *Black Kiss 2*, Costello explores how this inventive body of work, through its evolving treatment of the theme of authenticity, incisively investigates popular culture's capacity to foster or constrain individual identity and political agency. Challenging prevailing assumptions about the types of comics deemed worthy of scholarly attention, Costello reveals that the work of an artist as distinctive as Howard Chaykin demands a nuanced reading—one that confronts his unique approach to the comics medium, his blending of autobiographical themes and genre trademarks, and his engagement with comic books as artifacts of consumer culture.
