Food Crisis in Nepal Jagannath Adhikari,Hans-Georg Bohle,1999

The Irrigation Sector ,1999 India's irrigated agriculture sector has been basic to India's economic development and poverty alleviation. One of India's major achievements is its rapid expansion of irrigation and drainage infrastructure. However, the major emphasis on development has been achieved at a cost. The importance put on new construction has diverted attention away from the need to ensure the quality, productivity, and sustainability of the services. Further, a governmental subsidy based approach has been used and this has resulted in irrigation and drainage services which, while enabling significantly higher productivity than from non-irrigated lands, are well below their potential. 'The Irrigation Sector' discusses directions for future growth, the framework for reform, and the reform agenda.

Every Cake Has a Story Christina Tosi,2021-09-21 From Christina Tosi, the playful creator of the popular bakery Milk Bar, this is the story of a girl whose delicious dream comes to life, filling the world with color, creativity, and joy. Original recipe included! Everything in Samesville is exactly the same, from the people and their clothes to the houses and their doors. So one night before going to bed, Sammi tucks a recipe card under her pillow and wishes that things were not the same. And when she wakes up, that white, black, gray sameness is gone, replaced with things that are bolder and brighter and wilder than ever before! With her newly colorful world and a new recipe book, she gathers her friends and makes the most magical cake, beautiful and different--just like Sammi and her friends. Things will never be the same again.

Statemaking and Territory in South Asia Bernardo A. Michael,2014-10-01 “Statemaking and Territory in South Asia: Lessons from the Anglo–Gorkha War (1814–1816)” seeks to understand how European colonization transformed the organization of territory in South Asia through an examination of the territorial disputes that underlay the Anglo–Gorkha War of 1814–1816 and subsequent efforts of the colonial state to reorder its territories. The volume argues that these disputes arose out of older tribute, taxation and property relationships that left their territories perpetually intermixed and with ill-defined boundaries. It also seeks to describe the long-drawn-out process of territorial reordering undertaken by the British in the nineteenth and twentieth centuries that set the stage for the creation of a clearly defined geographical template for the modern state in South Asia.

The Historical Buddha Hans Wolfgang Schumann,2004 No man has had a greater inflience on the spiritual development of his people than Siddartha Gautama. Born in India in the sixth century BC into a nation hungry for spiritual experience, he developed a religious and moral teaching that, to this day, brings comfort and peace to all who practise it. This comprehensive biography examines the social, religious and political conditions that gave rise to Buddhism as we now know it.

Calendars of India Dr Vinod K. Mishra,2020-01-01 Calendars are created by civilisations to give meaning to the continuous flow of time according to their world-views. Over the past millennia, India has developed it's own unique collection of many calendars for regulating it's religious and cultural life. The current book presents a comprehensive account of their structure and relative importance at the present time and places them in the context of other calendars prevalent outside India. Suggestions have also been made for making some changes to bring them in line with our current astronomical knowledge. This book will be very useful to students and anyone who is curious about calendars.

Managing Irrigation Norman Uphoff,Priti Ramamurthy,Roy Steiner,1991-05 Irrigation continues to be a vital component of human existence. The study of irrigation bureaucracy, however, is a new field for study. Defining and shaping this area of inquiry, Managing Irrigation offers analytical and prescriptive conclusions to improve the performance of bureaucracies responsible for irrigation management in developing countries. Uphoff and his colleagues envision irrigation as both a socio-technical and organizational-managerial enterprise; that considering cultural and organizational factors are as important as technological ones. Managing Irrigation develops a typology of irrigation systems and looks at differences in structures; considers objectives of irrigation management; and suggests alternatives, principles, and past experience to make irrigation agencies more effective. As such, policymakers, administrators, students, and scholars in development studies, Third World studies, political science, and sociology will find this volume most useful. This book makes no claims to be definitive or complete: It emphasizes pragmatic approaches to problems which will be shaped by the physical, political and social characteristics of each specific irrigation scheme. This modest and sympathetic approach seems likely to reach and to influence its intended audience, and the authors are to be warmly congratulated. -- Journal of Peasant Studies It emphasizes pragmatic approaches to problems which will be shaped by the physical, political, and social characteristics of each specific irrigation scheme. This modest and sympathetic approach seems likely to reach and to influence its intended audience, and the authors are to be warmly congratulated. --Journal of Peasant Studies

Ass Goblins of Auschwitz Cameron Pierce,2009-10 It's Monty Python meets Nazi exploitation in a surreal nightmare as can only be imagined by Bizarro author Cameron Pierce. In a land where black snow falls in the shape of swastikas, there exists a nightmarish prison camp known as Auschwitz. It is run by a fascist, flatulent race of aliens called the Ass Goblins, who travel in apple-shaped spaceships to abduct children from the neighboring world of Kidland. Prisoners 999 and 1001 are conjoined twin brothers forced to endure the sadistic tortures of these ass-shaped monsters. To survive, they must eat kid skin and work all day constructing bicycles and sex dolls out of dead children. While the Ass Goblins become drunk on cider made from fermented children, the twins plot their escape. But it won't be easy. They must overcome toilet toads, cockrats, ass dolls, and the surgical experiments that are slowly mutating them into goblin-child hybrids. Forget everything you know about Auschwitz...you're about to be Shit Slaughtered.
