Worthy Nancy Levin,2016-08-02 When we feel that we aren't enough, or that we aren't good enough, we also fear that we'll never have enough. Money. We love it. We hate it. If we don't have enough, we're struggling to get more. If we do have it, we're fighting to hold on to it. Why does money have to be such a source of anxiety? Is it possible to find peace? Yes! According to master integrative coach Nancy Levin, the real key to creating financial freedom isn't changing what we do, it's changing our limiting beliefs about how we feel —and that requires more than just learning how to invest. In Worthy, Nancy makes an essential, eye-opening connection: the state of our net worth is a direct reflection of our self-worth. Then she shows us how to get to the root of the problem and do the internal work that's needed to replace feelings of unworthiness with a solid sense of our own value. Filled with inspiring real-life stories and thought-provoking questions and answers, her 10-step plan helps us to: • Get real about the money issues we face every day • Examine the excuses we use to avoid creating the life we really want • Be willing to see ourselves as worthy of abundance in all its forms • Take back our financial power —and watch amazing things start to happen Whether we're looking for financial ease or a new relationship with money and ourselves, Worthy will give us the tools to clear the path for wholeness, fulfillment, and richness in all areas of our lives, not just in our bank accounts.

  Them and Us Philippe Legrain,2020-10-15 Winner of the Diversity, Inclusion and Equality Award at the Business Book Awards 2021 'Underpinned by scholarship...entertaining…Legrain's book fizzes with practical ideas.' The Economist 'The beauty of diversity is that innovation often comes about by serendipity. As Scott Page observed, one day in 1904, at the World Fair in St Louis, the ice cream vendor ran out of cups. Ernest Hami, a Syrian waffle vendor in the booth next door, rolled up some waffles to make cones — and the rest is history.' Filled with data, anecdotes and optimism, Them and Us is an endorsement of cultural differences at a time of acute national introspection. By every measure, from productivity to new perspectives, immigrants bring something beneficial to society. If patriotism means wanting the best for your country, we should be welcoming immigrants with open arms.

Open Access Peter Suber,2012-07-20 A concise introduction to the basics of open access, describing what it is (and isn't) and showing that it is easy, fast, inexpensive, legal, and beneficial. The Internet lets us share perfect copies of our work with a worldwide audience at virtually no cost. We take advantage of this revolutionary opportunity when we make our work "open

access": digital, online, free of charge, and free of most copyright and licensing restrictions. Open access is made possible by the Internet and copyright-holder consent, and many authors, musicians, filmmakers, and other creators who depend on royalties are understandably unwilling to give their consent. But for 350 years, scholars have written peer-reviewed journal articles for impact, not for money, and are free to consent to open access without losing revenue. In this concise introduction, Peter Suber tells us what open access is and isn't, how it benefits authors and readers of research, how we pay for it, how it avoids copyright problems, how it has moved from the periphery to the mainstream, and what its future may hold. Distilling a decade of Suber's influential writing and thinking about open access, this is the indispensable book on the subject for researchers, librarians, administrators, funders, publishers, and policy makers.

  Internet in the Post-Soviet Area Sergey Davydov,2023-07-10 This book offers a comparative perspective on the technological, economic, and political aspects of Internet development in the post-Soviet countries. The second part includes specific case studies on the development of the Internet, either in individual countries or in groups of countries. Countries analyzed are Estonia, Ukraine, Russia as well as three Central Asian

countries: Kazakhstan, Uzbekistan and Tajikistan. Topics covered in the volume include, but are not limited to measurement, dynamics, and structure of each national Internet audience; the history of the Internet in the post-Soviet countries; development of infrastructure; Internet regulation and institutional aspects; online markets such as telecommunications, online advertising, e-commerce, and digital content; social and cultural aspects; as well as the transformation of the national media systems.
