Getting Green Done (EasyRead Large Bold Edition) Auden Schendler,2010 Auden Schendler serves as the sustainability director of the Aspen Skiing Company, which operates the Aspen/Snowmass resort complex in Colorado. He discusses his successes and failures in promoting sustainability to illustrate the lessons he has learned. Proving refreshingly open, Schendler criticizes his colleagues, including his previous CEO, who told Schendler he could introduce a green initiative only over my dead body. Schendler calls for transparency and an end to greenwashing, demanding that corporations, nonprofit organizations, and governmental bodies clarify which sustainability projects work and which do not, and pursue the ones that make a difference. getAbstract recommends this valuable guide to executives, government leaders and concerned citizens who want to take meaningful action against global warming.

*The Dabare Snake Launcher* Joelle Presby,2022-11-01 A RACE TO BUILD THE FIRST SPACE ELEVATOR IN AFRICA New money, old tribes, and international megacorps race to build the first space elevator. With a little Dabare magic, it just might work! The Sadous, an oil-rich West African family, are handed a plum contract as repayment for a decades-old favor that could make the next generation even richer if the family doesn't tear itself apart first. Two engineer daughters of the Sadou family, Pascaline and Maurie, upon whom the burden of success rests, have troubles of their own. One wants nothing more than to leave and make her own name as an engineering prodigy, while the other is troubled by fever dreams and snakes. Ethan Schmidt-Li is an ambitious megacorp executive with eyes on a big promotion—only to get more than he bargained for when put in charge of the company's make-or-break project. These are some of the people that Tchami “Chummy” Fabrice has brought together to an ambitious end—constructing the world's first space elevator in Africa and ensuring the space industry that it catapults will enrich the continent and all involved. They have the carbon nanofiber, prime land around Kilimanjaro, and a captured rock in orbit for the tether. The hard part will be getting all these different people working together long enough to see it built. At the publisher's request, this title is sold without DRM (Digital Rights Management). Praise for *The Dabare Snake Launcher* “Joelle Presby's novel is a fascinating fictional look behind the scenes of the construction of the world's first space elevator in a near-future version of Africa that has enough grounded elements to be thoroughly believable . . . The story maintains a keen eye on the largely larger-than-life characters and respect for the business processes, customs, and beliefs of the people on the ground making things happen.” —Wole Talabi, Locus Award–nominated author and editor of *Africanfuturism: An Anthology* You guys should all be on the lookout for Joelle Presby's solo Baen novel *THE DABARE SNAKE LAUNCHER*. It is... remarkable. Just truly, truly remarkable.” —David Weber, NYT Bestselling author of the Honorverse series *The Dabare Snake Launcher* is a very believable depiction of when this species decides to do something amazing: backstabbing, plotting, and inflamed passions galore. Presby has created a future that I could easily imagine reading on the news in a few decades, and the novel is all the better for it. —Warped Factor “*The Dabare Snake Launcher* takes you on a journey of possibilities, an Africa foremost in groundbreaking technology and not focused on deprivation and poverty. Joelle's writing is nuanced . . . There's family drama . . . romance . . . and laugh-out-loud humour. Writing is vivid and the characters fascinating.” —Hannah Onoguwe, author and poet *Set in Cameroon*, where the author lived for many years, and full of lovely detail about the local cultures, clashes between traditional and modern, and differing expectations. —Jane Lindskold, author of the *Star Kingdom* series and *Over Where* series.

As spaceflight development progressed, new technologies and ideas led to pushing the boundaries of engineering and technology though still grounded in real scientific possibilities. Examples are space colonies, nuclear-propelled interplanetary spacecraft, space telescopes consisting of multiple satellites and canon launch systems. **Crabgrass** Tauhid Bondia,2022-09-27 “They say you can’t go home again. But that’s because they haven’t discovered Crabgrass. (Yet.) Every strip is like a visit from your best friend in grade school. The one who always got you in trouble for laughing too loud.” –Brad Guigar, Creator of Evil Inc Through its heartwarming, wry, and relatable comic episodes, Crabgrass explores the timeless subject of friendship between two boys growing up in the 1980s. Crabgrass is a comic strip set in the fictional town of Crabgrass Drive, and chronicles the close friendship of Kevin, who is white, and Miles, who is black, and the many stumbles and breakthroughs they encounter growing up together. The main characters exemplify the resilience of the bonds we form when we are young, and are a reminder of why we remember those times fondly. Crabgrass is also a thrilling exploration of the adventures and mischief that children can get into when allowed to roam. Set in an ambiguous time before cellphones and the internet, the strip finds a way to connect to the old and the young without alienating either. Crabgrass explores the same youthful themes of friendship and adventure as Calvin and Hobbes, and the humor, warmth, and innocence will appeal to readers of bestselling middle grade series like Phoebe and Her Unicorn and Big Nate.
