Lessons from the Masters Robert Gendler, 2013-08-13 There are currently thousands of amateur astronomers around the world engaged in astrophotography at a sophisticated level. Their ranks far outnumber professional astronomers doing the same and their contributions both technically and artistically are the dominant drivers of progress in the field today. This book is a unique collaboration of individuals world-renowned in their particular area and covers in detail each of the major sub-disciplines of astrophotography. This approach offers the reader the greatest opportunity to learn the most current information and the latest techniques directly from the foremost innovators in the field today. "Lessons from the Masters" includes a brilliant body of recognized leaders in astronomical imaging, assembled by Robert Gendler, who delivers the most current, sophisticated and useful information on digital enhancement techniques in astrophotography available today. Each chapter focuses on a particular technique, but the book as a whole covers all types of astronomical image processing, including processing of events such as eclipses, using DSLRs, and deep-sky, planetary, widefield, and high resolution astronomical image processing. Recognized contributors include deep-sky experts such as Jay GaBany, Tony Hallas, and Ken Crawford, high-resolution planetary expert Damian Peach, and the founder of TWAN (The World at Night) Babak A. Tafreshi. A large number of illustrations (150, 75 in color) present the challenges and accomplishments involved in the processing of astronomical images by enthusiasts.

**Game On, Hollywood!** Gretchen Papazian,Joseph Michael Sommers,2013-02-04 The 14 essays in Game on, Hollywood! take on several points of game and film intersection. They look at storylines, aesthetics, mechanics, and production. The book is about adaptation (video game to film, film to video game), but it is even more about narrative. The essays draw attention to the ways and possibilities of telling a story. They consider differences and similarities across modes of storytelling (showing, telling, interacting), explore the consequences of time, place and ideology, and propose critical approaches to the vastness of narrative in the age of multimedia storytelling. The video games and film texts discussed include The Warriors (1979 film; 2005 video game), GoldenEye (1995 film), GoldenEye 007 (1997 and 2011 video games), Buffy the Vampire Slayer (2000-2004, television show), Buffy the Vampire Slayer: Chaos Bleeds (2003 video game), Prince of Persia: The Sands of Time (2003 video game; 2010 film), the Star Wars franchise empire (1977 on), Afro Samurai (2009 video game), and Disney's Epic Mickey (2010 video game).

Camera RAW 101 Jon Canfield,2011-04-05 The most up-to-date techniques for shooting in RAW format, using the newest features of the latest software Many serious amateur photographers have trouble getting that wow shot from their digital cameras. And they’re discovering that working in RAW (the digital equivalent of a film negative) takes their photographs to the next level, giving them the control they need to get the highest image quality possible. The problem is, while most photographers know how to shoot RAW, they might not understand how to best deal with RAW captures to achieve the ultimate goal: producing the best images. In Camera RAW 101, digital photography and software expert Jon Canfield explains everything you need to know to make the most of RAW captures using the newest versions of Photoshop, Elements, and Lightroom. You’ll find out how to get the most detail from your RAW files-whether it’s correcting shadows and highlights, fixing white balance, or getting rid of noise. You’ll learn how to convert RAW images using both basic and advanced techniques, as well as how to download and organize the images, and put the finishing touches on them after conversion. Packed with beautiful images, solid instruction, and working examples—including screen grabs and before-and-after contrasts that show each step-this is a must-have for any serious amateur photographer who wants to take better, more creative photographs. From the Trade Paperback edition.

Don't Go There! Charles A. Rothbard,2022-03-11 Don't Go There! is a story with the perfect blend of everything you want; divine redemption, the future of AI science, hot romance, real political conspiracies, and of course, true love. At the center of it all is Eric Palmateer, a disgraced former US intelligence soldier suffering from crippling mental illness. Through a series of twists and turns, Eric's madness proves to be a blessing when Providence works through him to bring about the peaceful unification of the Korean Peninsula and the development of safe and trustworthy AI technology. Knowing Eric's life leads to these great things, you should definitely root for

him... And preemptively forgive him for falling in love with a porn star and aligning himself with Kim Jeong Un along the way.

Old School Bones Randall Pepper,2011-07-01 Winter in a New England prep school brings term papers, wet snow, and the suicide of a young black student. Except Liberty Baker's friends are convinced she couldn't have taken her own life, and Liberty's faculty advisor, Awasha Patterson, believes them. She is desperate to believe any theory that Liberty's death was suspicious--Awasha turned the girl away the night of her death. If Liberty had been suicidal, Awasha had missed the signs. But how to prove it? No one in the school wants to think that it could have been a racially-motivated crime; vague whispers of school-sanctioned secret societies are quickly stopped by the headmaster. Awasha can't let it rest, her guilt is consuming. So she seeks out help from a man she knows understands guilt--a man so sensitive, so compassionate to others, that it ruined his career as a defense attorney with one fateful case. Awasha finds Michael DeCastro on his father's fishing boat, and Michael knows from the moment he sees her that he's about to be haunted by another injustice. And he knows he'll give everything of himself until the spirits of the dead lie in peace.

**Protests in the Information Age** Lucas Melgaço,Jeffrey Monaghan,2018-03-09 Information and communication technologies have transformed the dynamics of contention in contemporary society. Social networks such as Facebook and Twitter, and devices such as smartphones have increasingly played a central role in facilitating and mobilizing social movements throughout different parts of the world. Concurrently, the same technologies have been taken up by public authorities (including security agencies and the police) and have been used as surveillance tools to monitor and suppress the activities of certain demonstrators. This book explores the complex and contradictory relationships between communication and information technologies and social movements by drawing on different case studies from around the world. The contributions analyse how new communication and information technologies impact the way protests are carried out and controlled in the current information age. The authors focus on recent events that date from the Arab Spring onwards and pose questions regarding the future of protests, surveillance and digital landscapes.

Mastering the Nikon Z6 II / Z7 II Darrell Young,2021-07-12

**Learn to master your Nikon Z6 II / Z7 II and take full advantage of all its capabilities!**

*Mastering the Nikon Z6 II / Z7 II* by Darrell Young provides a wealth of experience-based information and insights for owners of the new Z6 II or Z7 II camera. Darrell is determined to help the user navigate past the confusion that often comes with complex and powerful

professional camera equipment.

This book explores the features and capabilities of the cameras in a way that far surpasses the user's manual. It guides readers through the cameras' features with step-by-step setting adjustments; color illustrations; and detailed how, when, and why explanations for each option. Every button, dial, switch, and menu configuration setting is explored in a user-friendly manner, with suggestions for setup according to various shooting styles.

Darrell's friendly and informative writing style allows readers to easily follow directions, while feeling as if a friend dropped in to share his knowledge. The information in this book goes beyond the camera itself and also covers basic photography technique.

**The Routledge Handbook of Literacy Studies** Jennifer Rowsell, Kate Pahl, 2015-05-15 The Routledge Handbook of Literacy Studies offers a comprehensive view of the field of language and literacy studies. With forty-three chapters reflecting new research from leading scholars in the field, the Handbook pushes at the boundaries of existing fields and combines with related fields and disciplines to develop a lens on contemporary scholarship and emergent fields of inquiry. The Handbook is divided into eight sections: • The foundations of literacy studies • Space-focused approaches • Time-focused approaches • Multimodal approaches • Digital approaches • Hermeneutic approaches • Making meaning from the everyday • Co-constructing literacies with communities. This is the first handbook of literacy studies to recognise new trends and evolving trajectories together with a focus on radical epistemologies of literacy. The Routledge Handbook of Literacy Studies is an essential reference for undergraduate and postgraduate students and those researching and working in the areas of applied linguistics and language and literacy.

**Ninja Photography** Uffe Berggren, 2021-09-27 Ninja Photography is describing an attack system for making images. Try to create images that are part of you will take a while, but don't cave in, you will get there, even if you may despair at times along the road towards your own photographic language of images. Try to acquire the skills of making photography automatic, a part of who you are, walking around in life. Practice a lot, like a martial artist, making loads of images, and please leave the areas with canned photography out of your life.

*DSLR Cinema* Kurt Lancaster, 2018-02-19 The DSLR cinema revolution began over ten years ago. Professional filmmakers, students, video journalists, event video shooters, production houses, and others jumped at the opportunity to shoot cinematic images on these low budget cameras. The first edition of the book mapped the way focusing exclusively on DSLRs. This new edition shows how you can create stunning cinematic images using low budget cinema cameras, from iPhones to the C200. The author examines new cameras and new projects as filmmakers shoot action movies with the Panasonic GH5, craft personal stories with Blackmagic's Pocket Cinema Camera, make documentaries and short films with the Canon C100 Mark II, and create music videos with the 5D Mark IV. This book, like the previous edition, takes the wisdom of some of the best shooters and empowers you to create visually stunning images with low budget cinema cameras. It includes six all new case studies, as well as updated examples from short films and documentaries. This

book contains the essential tools to make you a better visual storyteller. FEATURES An examination of the creative and technical choices filmmakers face—everything from why we move cameras to shooting flat in order to widen the dynamic range of cameras Case studies from documentary filmmakers, news shooters, fiction makers, a visual anthropologist, and recent film school graduates An updated list of gear for low-budget filmmakers, including a section on what to look for in the gear you need to shoot and edit your projects
