Life is an Adventure of Beauty n Grace Ashwini Kumar Aggarwal, 2021-02-16 A friend once asked me to say something. I told him that Light and Absence of Light are construed as desirable or undesirable depending on one's current state. Both are powered by the same Brahman, both are willed by Him alone. Such words are galore in the scriptures and soften the heart. However the scriptures also go on to say that troubled times are the result of one's own making, faulty living, and being a willing slave to the shad vikaras. This is what I couldn't tell him. However know that we all have 400 years of life, then we merge into Brahman and become one with the Divine. At the end of 400 years it doesn't matter how we played our role, if we were good actors or if we were plain dumb. Hope a few can tune the thoughts expounded here and make them theirs, not in thought but in action. These are from a life well-lived, graciously shared, and richly blessed. In fact it is the story of most humans. The story of a sojourn to planet earth. Om Svasti

Kingdom of Nokia Carl-Gustav Lindén, 2021-04-29 Kingdom of Nokia tells a fascinating story of corporatism in Finland. How did the mobile phone giant Nokia make the Finnish elite willing to serve the interests of the company? Nokia became a global player in mobile communications in the 1990s, and helped establish Anglo-Saxon capitalism in Finland. Through its success and strong lobbying, the company managed to capture the attention of Finnish politicians, civil servants, and journalists nationwide. With concrete detailed examples, Kingdom of Nokia illustrates how Nokia organised lavishing trips to journalists and paid direct campaign funding to politicians to establish its role at the core of Finnish decision-making. As a result, the company influenced important political decisions such as joining the European Union and adopting the euro, and further, Nokia even drafted its own law to serve its special interests. All this in a country considered one of the least corrupt in the world.

Mobile Lightweight Wireless Systems Periklis Chatzimisios, Christos Verikoukis, Ignacio Santamaria, Massimiliano Laddomada, Oliver Hoffmann, 2010-11-30 Following the success of the First MOBILIGHT 2009 in Athens, Greece, the Second International Conference on Mobile Lightweight Systems (MOBILIGHT) was held in Barcelona, Spain on May 10-12, 2010. It was not an easy decision to carry on organizing a

scientific event on wireless communications, where competition is really enormous. This decision was motivated by discussion with many colleagues about the current unprecedented demand for lightweight, wireless communication devices with high usability and performance able to support added-value services in a highly mobile environment. Such devices follow the users everywhere they go (at work, at home, while travelling, in a classroom, etc.) and result in exciting research, development and business opportunities. Such scenarios clearly demand significant upgrades to the existing communication paradigm in terms of infrastructure, devices and services to support the “anytime, anywhere, any device” philosophy, providing novel and fast-evolving requirements and expectations on - search and development in the field of information and communication technologies. The core issue is to support wireless users' desire for 24/7 network availability and transparent access to their own services. In this context, we continue to envision an international forum where practitioners and researchers coming from the many areas involved in lightweight wireless systems' design and deployment would be able to interact and exchange experiences.
