How to Read the Qur'an Mona Siddiqui, 2007 The Qur'an is the scripture of Islam, sacred to over one billion Muslims worldwide. Regarded by Muslims as the direct word of God, timeless and unchanged.

Emily Jacir Emily Jacir, 2012 In *Ex Libris*, Emily Jacir (born 1970) commemorates the approximately 30,000 books that were looted by Israel in 1948 from Palestinian homes and institutions. Six thousand of these books are held at the Jewish National Library of Israel under the designation A.P. (Abandoned Property). Jacir photographed these books during repeated visits to the library.

Freedom of Expression® Kembrew McLeod, 2007 In 1998 the author, a professional prankster, trademarked the phrase freedom of expression to show how the expression of ideas was being restricted. Now he uses intellectual property law as the focal point to show how economic concerns are seriously eroding creativity and free speech.

Muslim Women Aisha Abdurrahman Bewley, 2004 Expanding on her work *Islam: The Empowering of Women*, this dictionary is a comprehensive reference source of Muslim women throughout Islamic history from the first century AH to roughly the middle of the thirteenth century AH. A perusal of the entries shows that Muslim women have been successful as, for example, scholars and businesswomen as well as fulfilling their roles as wives and mothers for the past fourteen centuries. This is a most timely work in this age of limiting perspectives.

Arabic in Context, 2017-06-06 This volume gathers fifteen interdisciplinary papers on the history of Arabic in celebration of the 400th anniversary of the chair of Arabic at Leiden, ranging from the epigraphy of pre-Islamic Arabia to the modern spoken dialects, and everything in between.

Principles of Marketing Gary M. Armstrong, Stewart Adam, Sara Marion Denize, Michael Volkov, Philip Kotler, 2018 An introduction to marketing concepts, strategies and practices with a balance of depth of coverage and ease of learning. *Principles of Marketing* keeps pace with a rapidly changing field, focussing on the ways brands create and capture consumer value. Practical content and linkage are at the heart of this edition. Real local and international examples bring ideas to life and new feature 'linking the concepts' helps students test and consolidate understanding as they go. The latest edition enhances understanding with a unique learning design including revised, integrative concept maps at the start of each chapter, end-of-chapter features summarising ideas and themes, a mix of mini and major case studies to illuminate concepts, and critical thinking exercises for applying skills.

The History of al-Ṭabarī Vol. 1 Abū Ja'far Muḥammad ibn Jarīr al-Ṭabarī, 1988-01-01 Volume I of the thirty-eight volume translation of Ṭabarī's great *History* begins with the creation of the world and ends with the time of Noah and the Flood. It not only brings a vast amount of speculation about the early history of mankind into sharp Muslim focus, but it also synchronizes ancient Iranian ideas about the prehistory of mankind with those inspired by the Qur'an and the Bible. The volume is thus an excellent guide to the cosmological views of many of Ṭabarī's

contemporaries. The translator, Franz Rosenthal, one of the world's foremost scholars of Arabic, has also written an extensive introduction to the volume that presents all the facts known about Ṭabarī's personal and professional life. Professor Rosenthal's meticulous and original scholarship has yielded a valuable bibliography and chronology of Ṭabarī's writings, both those preserved in manuscript and those alluded to by other authors. The introduction and first volume of the translation of the History form a ground-breaking contribution to Islamic historiography in English and will prove to be an invaluable source of information for those who are interested in Middle Eastern history but are unable to read the basic works in Arabic.

Native Moments Nic Schuck, 2016-09-15 Twenty-year-old Sanch Murray comes from a line of military men. His grandfather fought in WWII, his father in Vietnam and his older brother in the first Gulf War. Growing up, Sanch was expected to do the same. When his brother returns home after an injury suffered during a terrorist attack on his ship in the Yemen Sea, Sanch decides to do something different with his life. He just doesn't know what. After the death of his brother from a heroin overdose, Sanch leaves for a surf trip to Costa Rica as a way to cope but also as a way to prolong making decisions about his adult life and sets out on a quixotic search for an alternative to the American Dream. Set in 1999 Costa Rica, Sanch Murray and his friend Jake Higdon wander the dirt roads of Tamarindo and surrounding areas chasing waves as a way to live out the romantic fantasy lifestyle of traveling surfers. Jake Higdon, six years Sanch's senior, takes on the role of the wise leader and Sanch as his young apprentice. Sanch's adventure leads to encounters with people who share world views he had never considered and could potentially shape his own changing perceptions about life. His existential adjustment gradually manifests through sometimes humorous episodes such as trying his hand as a matador at a road side rodeo or in his not so humorous battle with dysentery. Along his journey, Sanch befriends a shamanistic traveler named Rob, young revolutionaries from Venezuela, numerous expatriates from around the world trying to escape whatever it is that keeps chasing them and making them wanderers and a beautiful local girl named Andrea, who Sanch suspects is a prostitute but can't help falling for.

The Labyrinth Index Charles Stross, 2018-10-30 "A bizarre yet effective yoking of the spy and horror genres." –The Washington Post Book World The Lovecraftian Singularity has descended upon the world in The Labyrinth Index, beginning an exciting new story arc in Charles Stross' Hugo Award-winning Laundry Files series! Since she was promoted to the head of the Lords Select Committee on Sanguinary Affairs, every workday for Mhari Murphy has been a nightmare. It doesn't help that her boss, the new Prime Minister of Britain, is a manipulative and deceptive pain in the butt. But what else can she expect when working under the thumb of none other than the elder god N'yar Lat-Hotep a.k.a the Creeping Chaos? Mhari's most recent assignment takes her and a ragtag team of former Laundry agents across the pond into the depths of North America. The United States president has gone missing. Not that Americans are alarmed. For some mysterious reason, most of the country has forgotten the executive branch even exists. Perhaps it has to do with the Nazgûl currently occupying the government and attempting to summon Cthulhu. It's now up to Mhari and her team to race against the Nazgûl's vampire-manned dragnet to find and, for his own protection, kidnap the president. Who knew an egomaniacal, malevolent deity would have a soft spot for international relations? At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Societies, Social Inequalities and Marginalization Raghubir Chand, Etienne Nel, Stanko Pelc, 2017-04-04 This book provides an overview of marginality or marginalization, as a concept, characterizing a situation of impediments – social, political, economic, physical, and environmental – that impact the abilities of many people and societies to improve their human condition. It examines a wide range of examples and viewpoints of societies struggling with poverty, social inequality and marginalization. Though the book will be especially interesting for those looking for insights into the situation and position of ethnic groups living in harsh mountainous conditions in the Himalayan region, examples from other parts of the world such as Kyrgyzstan, Israel, Switzerland and Finland provide an opportunity for comparison of marginality and marginalization from around the world. Also addressed are issues such as livelihood, outmigration and environmental threats, taking into account the conditions, scale and perspective of observation. Throughout the text, particular attention is given to the context and concept of 'marginalization', which sadly remains a persistent reality of human life. It is in this context that this book seeks to advance our global understanding of what marginalization is, how it is manifested and what causes it, while also proposing remedial strategies.

The Encyclopedia of New York City Kenneth T. Jackson, Lisa Keller, Nancy Flood, 2010-12-01 Covering an exhaustive range of information about the five boroughs, the first edition of The Encyclopedia of New York City was a success by every measure, earning worldwide acclaim and several awards for reference excellence, and selling out its first printing before it was officially published. But much has changed since the volume first appeared in 1995: the World Trade Center no longer dominates the skyline, a billionaire businessman has become an unlikely three-term mayor, and urban regeneration—Chelsea Piers, the High Line, DUMBO, Williamsburg, the South Bronx, the Lower East Side—has become commonplace. To reflect such innovation and change, this definitive, one-volume resource on the city has been completely revised and expanded. The revised edition includes 800 new entries that help complete the story of New York: from Air Train to E-ZPass, from September 11 to public order. The new material includes broader coverage of subject areas previously underserved as well as new maps and illustrations. Virtually all existing entries—spanning architecture, politics, business, sports, the arts, and more—have been updated to reflect the impact of the past two decades. The more than 5,000 alphabetical entries and 700 illustrations of the second edition of The Encyclopedia of New York City convey the richness and diversity of its subject in great breadth and detail, and will continue to serve as an indispensable tool for everyone who has even a passing interest in the American metropolis.

Economic Growth in Europe Marcel P. Timmer, Robert Inklaar, Mary O'Mahony, Bart van Ark, 2010-10-28 Why has European growth slowed down since the 1990s while American productivity growth has speeded up? This book provides a thorough and detailed analysis of the sources of growth from a comparative industry perspective. It argues that Europe's slow growth is the combined result of a severe productivity slowdown in traditional manufacturing and other goods production, and a concomitant failure to invest in and reap the benefits from Information and Communications Technology (ICT), in particular in market services. The analysis is based on rich new databases including the EU KLEMS growth accounting database and provides detailed background of the data construction. As such, the book provides new methodological perspectives and serves as a primer on the use of data in economic growth analysis. More generally, it illustrates to the research and policy community the benefits of analysis based on detailed data on the sources of economic growth.
