ECSCW 2005 Hans Gellersen, Kjeld Schmidt, Michel Beaudouin-Lafon, Wendy Mackay, 2006-01-26 The emergence and widespread use of personal computers and network technologies have seen the development of interest in the use of computers to support cooperative work. This volume presents the proceedings of the ninth European conference on Computer Supported Cooperative Work (CSCW). This is a multidisciplinary area that embraces the development of new technologies grounded in actual cooperative practices. These proceedings contain a collection of papers that reflect the variegated research activities in the field. The volume includes papers addressing novel interaction technologies for CSCW systems, new models and architectures for groupware systems, studies of communication and coordination among mobile actors, studies of cooperative work in complex settings, studies of groupware systems in actual use in real-world settings, and theories and techniques to support the development of cooperative applications. The papers present emerging technologies alongside new methods and approaches to the development of this important class of applications. The work in this volume represents the best of the current research and practice within CSCW. The collection of papers presented here will appeal to researchers and practitioners alike, as they combine an understanding of the nature of work with the possibility offered by new technologies.

Theory and Applications of Formal Argumentation Sanjay Modgil, Nir Oren, Francesca Toni, 2012-03-26 This book constitutes the thoroughly refereed proceedings of the First International Workshop on the Theory and Applications of Formal Argumentation, TFAFA 2011, held in Barcelona, Spain, in July 2011, as a workshop at IJCAI 2011, the 22nd International Joint Conference on Artificial Intelligence. The 9 revised full papers presented together with 8 revised poster papers were carefully selected during two rounds of reviewing and improvement from 32 initial submissions. The workshop promotes and fosters uptake of argumentation as a viable AI paradigm with wide ranging application, and provides a forum for further development of ideas and the initiation of new and innovative collaborations. The papers cover the following topics: properties of formal models of argumentation; instantiations of abstract argumentation frameworks; relationships among different argumentation frameworks; practical applications of formal models of argumentation; argumentation and other artificial intelligence techniques; evaluation of formal models of argumentation; validation and evaluation of applications of argumentation.

Principles of Distributed Systems Alexander A. Shvartsman, 2006-11-28 This book constitutes the refereed proceedings of the 10th International Conference on Principles of Distributed Systems, OPODIS 2006, held at Bordeaux, France, in December 2006. The 28 revised full papers presented together with two invited talks address all current issues in theory, specification, design and implementation of distributed and embedded systems.

Capnography J. S. Gravenstein, Michael B. Jaffe, David A. Paulus, 2004-11-04 Carbon dioxide in the respired gases gives evidence of life processes and the adequacy of breathing. The amount and concentration of the gas in the breath can be measured and monitored with instruments called capnographs, which are used whenever and wherever the breathing of a patient might be affected by disease or treatment. The book deals not only with the clinical application of these devices but also with the basic physiology of the generation and transport of carbon dioxide in the body. A technical section describes how the instruments work and a unique section tells the history of capnography. Over 40 contributors cover these aspects in the book, which has been edited by three experts in the field.

Raindancing Glenn Granger, 2013-03-01 This groundbreaking book launches a passionate crusade for 'rational marketing' – based on facts and data, rather than guesswork, traditions and raindancing. Marketing without measurement is myth. "Until now," says Glenn Granger, "marketers have been flying blind. Even the big brands that can afford to pay consultants for data modelling and forecasting are only getting snapshots, retrospectively, once or twice a year. And media costs are high, so the numbers can be huge. Nowhere outside marketing are millions invested – or gambled – with so little analysis and scrutiny." How different would business be if powerful modelling tools that were as easy to use as spreadsheets or word processors could be there on every marketer's desktop? What if these tools could help with everyday decisions, like whether to take up a media owner's last-minute 3-for-2 offer, and whether a price cut would be a great move or commercial suicide? Bringing rational accountability to marketing is not about deskilling. It is about giving the marketer a new power to fine tune campaign spending, defend budgets and predict the impact of specific initiatives. Glenn Granger draws on his own high-level consulting and business experience to make the case for this urgently-needed marketing revolution. His upbeat, non-technical style makes *Raindancing* startling, vivid and vital reading for chief executives, finance directors, CMOs and everyone who works in marketing.

Marketing Excellence 3 Hugh Burkitt, 2014-11-03 *Marketing Excellence 3* showcases the strongest case studies - all winners - from The Marketing Society's Excellence Awards to celebrate and promote the contribution that great marketing makes to the commercial success of a business. The compilation includes a selection of 30 award winners from 2012 to 2014 who have employed different strategies, tactics, tools and techniques all worthy of recognition. The book features world-leading consumer products, retail, fast food, consultancy, charity and telecoms brands such as easyJet, Hailo, McDonald's, Mercedes-Benz, Unilever, Macmillan, O2, PwC, Jack Daniel's and John Lewis. Each chapter of *Marketing Excellence 3* is organised by theme and introduced by a judge who then presents the case studies in detail, providing thought-provoking answers to questions such as 'How do you find great customer insights?', 'What are the key principles that lie behind effective communications?', 'How do you create a marketing ethos that will mobilise your organisation?', 'What makes a new brand stand out and succeed?' and 'How do you keep customers loyal?' As such, it is an ideal book for marketers and students looking to be inspired by the very best in marketing campaigns.

Digital Marketing Strategy Simon Kingsnorth, 2022-05-03 Build an effective and practical digital marketing strategy with this bestselling guide, covering everything from automation and analytics to integrating AI. *Digital Marketing Strategy* is a global bestseller, and a one-stop guide to structuring and building a more strategic approach to digital marketing. Now fully updated, this third edition covers the integration of AI in marketing, e-

commerce, marketing automation, affiliate marketing and how to use digital analytical tools, plus new strategies for the latest cookie changes and privacy protection. Digital Marketing Strategy will show you how to effectively select, align and manage digital channels and operations, to streamline a successful digital marketing strategy for measurable, optimized results. Recommended by the Chartered Institute of Marketing (CIM), it is supported by real-world case studies from the likes of Coca-Cola, Spotify, Airbnb, Adidas and Hostelworld as well as checklists, key terms and insights from leading industry practitioners to help you develop your own digital marketing strategy. This book is an invaluable guide for both digital marketing students and entry-level to mid-management marketing professionals. Accompanying online resources consist of practical implementation guides spanning SEO, paid-search, email, lead-generation, as well as presentation slides and activity sheets.

Distributed Databases in Real-Time Control M.G. Rodd,E. Knuth,2014-07-04 The problems surrounding the subject of distributed databases in real-time control were addressed at the workshop. The difficulties included finding new, high-level conceptual models as conventional solutions are rendered useless in distributed databases. The other problems covered include the difficulties faced due to huge transaction fluxes and time constraints. The papers cover these theoretical issues plus an applications section which provides case studies of efficient applied systems which will be important for the development of this essential field.

Digital Enlightenment Yearbook 2013 M. Hildebrandt,K. O'Hara,M. Waidner,2013-09-12 The value of personal data has traditionally been understood in ethical terms as a safeguard for personality rights such as human dignity and privacy. However, we have entered an era where personal data are mined, traded and monetized in the process of creating added value - often in terms of free services including efficient search, support for social networking and personalized communications. This volume investigates whether the economic value of personal data can be realized without compromising privacy, fairness and contextual integrity. It brings scholars and scientists from the disciplines of computer science, law and social science together with policymakers, engineers and entrepreneurs with practical experience of implementing personal data management. The resulting collection will be of interest to anyone concerned about privacy in our digital age, especially those working in the field of personal information management, whether academics, policymakers, or those working in the private sector.

Sports Marketing Michael J. Fetchko,Donald P. Roy,Kenneth E. Clow,2016-11-03 For courses in Sports Marketing. Help students understand the business of sports through a practitioner's perspective. Written from the perspective of those who've been actively involved in the sports business, Sports Marketing addresses business and marketing issues pertinent to sports as observed by the practitioners and scholars themselves. Through its extensive presentation of current information, this text also helps encourage students to get actively involved and engaged in the process of sports entertainment. Features: Present information from the field: A practitioner's approach. Most sports marketing texts are crafted using a marketing principles template. The organization and chapter themes of these texts are often too similar to Principles of Marketing texts. Sports Marketing strives to depart from that practice by focusing on important conceptual, strategic, and actionable areas of the sports marketing function. Practitioner contributions come from the author team, and a high caliber roster of successful sports executives from media, marketing, and other areas of sports business. Industry experts highlights. Each chapter features an industry expert. Each expert was selected based on his or her knowledge and provided input on chapter content. The Insider Expert feature that appears early in each chapter gives biographical information on the chapter's industry contributor. Sports examples. Throughout the book, concepts are reinforced with examples of practices and events from the sports industry. A variety of sports, properties, and companies are used as examples to bring to life definitions and concepts presented. Put students' analytical skills into play: Critical thinking exercises, which are found throughout this text, require students to consider various situations faced by the sports marketers and sports executives. The end-of-chapter sports marketing cases put students in the role of decision maker, enabling students to apply knowledge and key concepts to business situations faced by actual sports brands. Expert insights. Each chapter concludes with Insider Insights, a question-and-answer feature with the chapter's industry contributor. In this feature, experts share examples of best practices from their experiences and opinions about trends in sports marketing. Preview the chapter's game plan: Lead-in vignettes. Each chapter begins with a vignette related to sports marketing and the content of the chapter. The vignette describes a practice or occurrence that illustrates a topic appearing in the chapter, setting the stage for more in-depth coverage in the chapter. Get students ready for the big leagues: Career planning. Many students take a sports marketing course because they have a serious interest in pursuing a career in sports business. In order to help students plan for their future careers, the final chapter contains: -Information about different career opportunities in sports marketing. -Steps students can take to position themselves as job candidates. -Advice on career planning and management from a panel of the book's industry experts.
