Auditions for Love.Com Oliver Cross,2014-07-16 In ten years, I served as a diver in the Australian Army, travelled for three years around the world, and returned home to complete a degree at the University of Queensland. This however, is not the most adventurous detail of my journey. Throughout this period, I was using the internet as a medium to facilitate friendship, fantasy and relationships. I inadvertently stumbled upon online dating on my housemate's desktop computer. It was a blessing because as a young man, I did not drink or go out clubbing like others my own age, therefore limiting my exposure with women. I knew what I was doing in the year 2001 was unorthodox, but despite the negative stigma, I was fascinated with the process of finding love online and of a world beyond that which I knew before. A world I discovered, which is limited only by your imagination. With a dose of honesty, humility and humour, the story follows my online experience from humble beginnings in the Australian Defence Force, to spiraling out of control in pursuit of more lurid satisfactions abroad. The book is as much a celebration of youth and adventure as it is a guide to navigating the often misunderstood world of internet dating. The final chapter is an accumulation of the ten most relevant lessons I learned through ten years of trial and error. Observing these rules will not only shed clarity on the process of online dating but most importantly offer readers tangible steps to speed up the process of fulfilling their online desires, whatever they might be.

Winning at Active Management William W. Priest,Steven D. Bleiberg,Michael A. Welhoelter,2016-07-07 *Winning at Active Management* conducts an in-depth examination of crucial issues facing the investment management industry, and will be a valuable resource for asset managers, institutional consultants, managers of pension and endowment funds, and advisers to individual investors. Bill Priest, Steve Bleiberg and Mike Welhoelter all experienced investment professionals, consider the challenges of managing portfolios through complex markets, as well as managing the cultural and technological complexities of the investment business. The book's initial section highlights the importance of culture within an investment firm – the characteristics of strong cultures, the imperatives of communication and support, and suggestions for leading firms through times of both adversity and prosperity. It continues with a thorough discussion of active portfolio management for equities. The ongoing debate over active versus passive management is reviewed in detail, drawing on both financial theory and real-world investing results. The book also contrasts traditional methods of portfolio management, based on accounting metrics and price-earnings ratios, with Epoch Investment Partners' philosophy of investing on free cash flow and appropriate capital allocation. *Winning at Active Management* closes with an inquiry into the crucial and growing role of technology in investing. The authors assert that the most effective portfolio strategies result from neither pure fundamental nor quantitative methods, but instead from thoughtful combinations of analyst and portfolio manager experience and skill with the speed and breadth of quantitative analysis. The authors illustrate the point with an example of an innovative Epoch equity strategy based on economic logic and judgment, but enabled by information technology. *Winning at Active Management* also offers important insights into selecting active managers – the market cycle factors that have held back many managers' performance in recent years, and the difficulty of identifying those firms that truly possess investment skill. Drawing on behavioral economic theory and empirical research, the book makes a convincing case that many active investment managers can and do generate returns superior to those of the broad market.

Following on from the authors' successful 1992 book, this is the only volume that considers sandstone landforms from a truly global perspective. It describes the wide variety of landforms that are found in sandstone, and discusses the role of lithological variation, chemical weathering and erosional processes in creating these features, with examples drawn from around the world. Climatic and tectonic constraints on the development of sandstone landscapes are also considered. This volume provides a comprehensive assessment of the literature from publications in a range of languages, and is illustrated with over 130 photographs of sandstone features from every continent. It presents a holistic account of sandstone terrain for researchers and graduate students in a variety of fields including geography, geomorphology, sedimentology and geomechanics.

Sarah is a reclusive artist, a loner who wears black makeup and doesn't have any friends, but for some reason, Harper can't stop thinking about her. Sarah isn't used to people looking her way, especially popular girls like Harper Isabelle. Scared, religious, and unsure of herself, when Sarah begins to realize that her feelings for Harper might go beyond friendship, she is afraid to take the plunge and tell Harper how she feels. Emotions build between these young women until they both reach their breaking points, and they need to make a choice about coming to terms with who they really are, and what they can and cannot live without.

The Oxford Handbook of Early Christian Studies Susan Ashbrook Harvey, David G. Hunter, 2008-09-04 Provides an introduction to the academic study of early Christianity (c. 100-600 AD) and examines the vast geographical area impacted by the early church, in Western and Eastern late antiquity. --from publisher description.

The Future of Christian Marriage Mark Regnerus, 2020-08-01 Marriage has come a long way since biblical times. Women are no longer property, and practices like polygamy have long been rejected. The world is wealthier, healthier, and more able to find and form relationships than ever. So why are Christian congregations doing more burying than marrying today? Explanations for the recession in marriage range from the mathematical--more women in church than men--to the economic, and from the availability of sex to progressive politics. But perhaps marriage hasn't really changed at all. Instead, there is simply less interest in marriage in an era marked by technology, gender equality, and secularization. Mark Regnerus explores how today's Christians find a mate within a faith that esteems marriage but in a world that increasingly yawns at it. This book draws on in-depth interviews with nearly two hundred young-adult Christians from the United States, Mexico, Spain, Poland, Russia, Lebanon, and Nigeria, in order to understand the state of matrimony in global Christian circles today. Regnerus finds that marriage has become less of a foundation for a couple to build upon and more of a capstone. Meeting increasingly high expectations of marriage is difficult, though, in a free market whose logic reaches deep into the home today. The result is endemic uncertainty, slowing relationship maturation, and stalling marriage. But plenty of Christians innovate, resist, and wed, and this book argues that the future of marriage will be a religious one.

Coming Full Circle Wanda Lloyd, 2020-02-04 "Inspiring reading for aspiring journalists and students of civil rights." – Kirkus Reviews Wanda Smalls Lloyd's *Coming Full Circle: From Jim Crow to Journalism*—with a foreword by best-selling author Tina McElroy Ansa—is the memoir of an African American woman who grew up privileged and educated in the restricted culture of the American South in the 1950s–1960s. Her path was shaped by segregated social, community, and educational systems, religious and home training, a strong cultural foundation, and early leadership opportunities. Despite Jim Crow laws that affected where she lived, how she was educated, and what civil rights she would be denied, Lloyd grew up to realize her childhood dream of working as a professional journalist. In fact, she would eventually hold some of the nation's highest-ranking newspaper editorial positions and become one of the first African American women to be the top editor of a mainstream daily newspaper. Along the way she helped her newspapers and other media organizations understand how the lack of newsroom and staff diversity interfered with perceptions of accuracy and balance for their audiences. Her memoir is thus a window on the intersection of race, gender, culture and the media's role in our uniquely American experiment in democracy. How Lloyd excelled in a profession where high-ranking African American women were rare is a memorable story that will educate, entertain, and inspire. *Coming Full Circle* is a self-reflective exploration of the author's life journey from growing up in coastal Savannah, Georgia, to

editing roles at seven daily newspapers around the country, and circling back to her retirement in Savannah, where she now teaches journalism to a new generation.
