*Behind the Curtain* Gregory D. Booth, 2008-10-13 Beginning in the 1930s, men and a handful of women came from India's many communities-Marathi, Parsi, Goan, North Indian, and many others--to Mumbai to work in an industry that constituted in the words of some, the original fusion music.

They worked as composers, arrangers, assistants, and studio performers in one of the most distinctive popular music and popular film cultures on the planet. Today, the songs played by Mumbai's studio musicians are known throughout India and the Indian diaspora under the popular name Bollywood, but the musicians themselves remain, in their own words, behind the curtain--the anonymous and unseen performers of one of the world's most celebrated popular music genres. Now, Gregory D. Booth offers a compelling account of the Bollywood film music industry from the perspective of the musicians who both experienced and shaped its history. In a rare insider's look at the process of musical production from the late 1940s to the mid 1990s, before the advent of digital recording technologies, Booth explains who these unknown musicians were and how they came to join the film music industry. On the basis of a fascinating set of first-hand accounts from the musicians themselves, he reveals how the day-to-day circumstances of technology and finance shaped both the songs and the careers of their creator and performers. Booth also unfolds the technological, cultural, and industrial developments that led to the enormous studio orchestras of the 1960s-90s as well as the factors which ultimately led to their demise in contemporary India. Featuring an extensive companion website with video interviews with the musicians themselves, *Behind the Curtain* is a powerful, ground-level view of this globally important music industry.

Focusing on idiophones and membranophones, it covers in detail both Western and non-Western percussive instruments. These include not only instruments whose usual sound is produced percussively (like snare drums and triangles), but those whose usual sound is produced concussively (like castanets and claves) or by friction (like the cuíca and the lion's roar). The expertise of contributors have been used to produce a wide-ranging list of percussion topics. The volume includes: (1) an alphabetical listing of percussion instruments and terms from around the world; (2) an extensive section of illustrations of percussion instruments; (3) thirty-five articles covering topics from Basel drumming to the xylophone; (4) a list of percussion symbols; (5) a table of percussion instruments and terms in English, French, German, and Italian; and (6) an updated section of published writings on methods for percussion.

**Digital Art in Ireland** James O'Sullivan, 2021-02-12 This collection of essays explores digital art in Ireland. Comprising contributions from EL Putnam, Anne Karhio, Ken Keating, Conor McGarrigle, Kieran Nolan, Claire Fitch, Kirstie North and Chris Clarke, it examines how new media technologies are shaping the island's contemporary artistic practices. **Music in Contemporary Indian Film** Jayson Beaster-Jones, Natalie Sarrazin, 2016-10-04 Music in Contemporary Indian Film: Memory, Voice, Identity provides a rich and detailed look into the unique dimensions of music in Indian film. Music is at the center of Indian cinema, and India's film music industry has a far-reaching impact on popular, folk, and classical music across the subcontinent and the South Asian diaspora. In twelve essays written by an international array of

scholars, this book explores the social, cultural, and musical aspects of the industry, including both the traditional center of Bollywood and regional film-making. Concentrating on films and songs created in contemporary, post-liberalization India, this book will appeal to classes in film studies, media studies, and world music, as well as all fans of Indian films.

*Sounds and the City* Brett Lashua, Stephen Wagg, Karl Spracklen, M. Selim Yavuz, 2018-10-24 This book draws from a rich history of scholarship about the relations between music and cities, and the global flows between music and urban experience. The contributions in this collection comment on the global city as a nexus of moving people, changing places, and shifting social relations, asking what popular music can tell us about cities, and vice versa. Since the publication of the first *Sounds and the City* volume, various movements, changes and shifts have amplified debates about globalization. From the waves of people migrating to Europe from the Syrian civil war and other conflict zones, to the 2016 “Brexit” vote to leave the European Union and American presidential election of Donald Trump. These, and other events, appear to have exposed an anti-globalist retreat toward isolationism and a backlash against multiculturalism that has been termed “post-globalization.” Amidst this, what of popular music? Does music offer renewed spaces and avenues for public protest, for collective action and resistance? What can the diverse histories, hybridities, and legacies of popular music tell us about the ever-changing relations of people and cities?

*Recasting Folk in the Himalayas* Stefan Fiol, 2017-09-11 Colonialist, nationalist, and regionalist ideologies have profoundly influenced folk music and related musical practices among the Garhwali and Kumaoni of Uttarakhand. Stefan Fiol blends historical and ethnographic approaches to unlock these influences and explore a paradox: how the *œfolk* designation can alternately identify a universal stage of humanity, or denote alterity and subordination. Fiol explores the lives and work of

Gahrwali artists who produce folk music. These musicians create art as both a discursive idea and as a set of expressive practices across strikingly different historical and cultural settings. Juxtaposing performance contexts in Himalayan villages with Delhi recording studios, Fiol shows how the practices have emerged within and between sites of contrasting values and expectations. Throughout, Fiol presents the varying perspectives and complex lives of the upper-caste, upper-class, male performers spearheading the processes of folklorization. But he also charts their resonance with, and collision against, the perspectives of the women and hereditary musicians most affected by the processes. Expertly observed, *Recasting Folk in the Himalayas* offers an engaging immersion in a little-studied musical milieu.
