The 100-Yard War Greg Emmanuel,2005-08-01 "A rough-and-tumble pop-culture look at the history

of this storied game.” --National Review Online
The 100-Yard War showcases two great football teams who want nothing more than to beat each other, celebrating their storied history and going behind the scenes with the players and the fans to reveal the bitterness, the passion, and the pride surrounding the Game. ESPN called it the number one sports rivalry of the century. It transcends the years, the standings, and all other distractions. And thanks to the countless remarkable football games between Michigan and Ohio State--and hundreds of thousands of devoted alumni and followers--the rivalry is now an enormous cultural event.

Ohio State University Student Life in the 1960s

William J. Shkurti, 2020 Students entering Ohio State University in the 1960s enjoyed a period of unprecedented prosperity and expanding freedom for young people. They partied in togas and twisted the night away. They gathered at Larry's, the Bergs and the BBF. They cheered on a national championship football team and grooved to folk singers, folk rockers and acid rockers, many of whom visited campus. They donned bold and sometimes outrageous new styles in clothing and bonded together as part of a cultural revolution unmatched before or since. Join author and OSU alum William J. Shkurti for a magical mystery tour through a decade when being young and in college meant you had a ticket to ride.

State Formations John L. Brooke,Julia C. Strauss,Greg Anderson,2018-03-29 Featuring a sweeping array of essays from scholars of state formation and development, this book presents an overview of approaches to studying the history of the state. Focusing on the question of state formation, this volume takes a particular look at the beginnings, structures, and constant reforming of state power. Not only do the contributors draw upon both modernist and postmodernist theoretical perspectives, they also address the topic from a global standpoint, examining states from all areas of the world. In their diverse and thorough exploration of state building, the authors cross the theoretical, geographic, and chronological boundaries that traditionally shape this field in order to rethink the customary macro and micro approaches to the study of state building and make the case for global histories of both pre-modern and modern state formations.

Academic Voices Upasana Gitanjali Singh,Chenicheri Sid Nair,Craig Blewett,Timothy Shea,2022-04-01 Academia's Digital Voice: A Conversation on 21st Century Higher Education provides critical information on an area that needs particular attention given the rapid introduction and immersion into digital technologies that took place during the pandemic, including quality assurance and assessment.

Sections discuss the rapid changes called into question as student mobility, pedagogical readiness of academics, technological readiness of institutions, student readiness to adopt online learning, the value of higher education, the value of distance learning, and the changing role of administration and faculty were thrust upon institutions. The unprecedented speed of international lockdowns caused by the pandemic necessitated HEIs to make rapid changes in both teaching and assessment approaches. The quality of these and sacrosanctity of the academic voice has long been the central tenet of higher education. While history is replete with challenges to this, the current, rapid shift to online education may represent the greatest threat and opportunity so far. Focuses on the academic voice in HEI Presents an authentic message and mode for the new world we live in post COVID Includes a section on academic predictions for higher education institutions
