*Get More Fans: The DIY Guide to the New Music Business* Jesse Cannon, Todd Thomas, 2012-11-25

How Do I Promote My Music On A Small Budget? How Do I Get My YouTube Videos to Spread? How Do I Turn Casual Fans Into One's Who Buy From Me? How Do I Get Written About On Blogs? How Do I Increase Turnout At Shows? How Do I Make Fans Using Facebook, Twitter, Tumblr And SoundCloud? With every day that passes, the power the major labels once had dies a little more. The chance to get the same exposure as your favorite musicians gets easier and easier. The hurdles that would only allow you to get popular, if the right people said your music was good enough, are gone. You can now get exposed to thousands of potential fans without investing 1% of what musicians used to by building a fanbase based on listeners love for your music. No more writing letters hoping that A&R writes you back. This book explains how you do it. While many books will tell you obvious information, legal mumbo-jumbo and marketing catchphrases that don't help you get more fans. Our experience working with real bands - from upstarts like Man Overboard and Transit to legends like The Cure, The Misfits and Animal Collective, has led us to understand the insider tricks and ideas that go into some of the most important groups of our time. We produce records, do licensing deals, negotiate record contracts and get the musicians we work with written about on websites like Pitchfork and Vice. We have worked with bands who started off as nothing and became something. Unlike any other book written on the subject we have compiled the knowledge no one else has been willing to print in fear of obsoleting their own career. We give you thousands of ideas on how to get people to hear your music and turn them into fans who pay to support your music. Whether you are a label owner, musician, manager, booking agent or publicist there is information in this book that will help you do what you do better. Enjoy! **Processing Creativity** Jesse Cannon, 2017-03-28 For decades, Jesse Cannon has been pushing creative ideas in music. You may know him from writing one of the most popular books on the music business, *Get More Fans*, or from his recording credits on records with the most varied set of bands you've ever seen, including The Cure, The Misfits, Animal Collective, Brand New, The Dillinger Escape Plan, The Menzingers, Limp Bizkit, Basement, Leftover Crack, Saves The Day, Senses Fail, Weird Al Yankovich, Lifetime, Say Anything, NOFX, Flatsound, Man Overboard, Bad Books, Transit, Somos, Cavetown, and over a thousand others. You may also know his work as the host of the podcasts *Atlantic Records Inside The Album*, *Noise Creators*, and *Off The Record*, his popular YouTube channel *Musformation*, as a producer for popular podcasts at *Rolling Stone & The Daily Beast* or from his writing at outlets like *Alternative Press*, *Tape Op*, & *Hypebot*. In *Processing Creativity: How To Write Songs People Love* he chronicles the lessons learned working on all those records and writing about music's most progressive ideas, taking on the subject he knows the most about; helping musicians fulfill their creative vision. The book is the culmination of four years of poring over scientific studies, books, and thoughts from top creators as well as his own experience to write a book every musician should listen to about what goes into making great music versus what bands do when they make the innumerable bad songs we hear each day. Covering the pitfalls of creating music, the book thoroughly explores the hidden reasons we actually like music, how to get along with our collaborators, and patterns that help creativity flourish. While every musician says that being creative is the most important part of their life, they barely explore what's holding them back from making music they are happy with. When trying to navigate the ways our creative endeavors fail there's no YouTube tutorial, listicle, or college course that can help navigate the countless creative pitfalls that can ruin your music but after reading this book you will have the knowledge to guide you to make songs the world loves. The essential ideas on creating music are detailed in a simple, fun

language that's littered with quotes and insight from the most innovative creators of our time including: • How to make highly emotional music that compels listeners to listen again and again. • Effectively dealing with collaborative problems like “too many chefs in the kitchen,” giving helpful criticism or dealing with stubborn collaborators. • Finding inspiration when you have writer's block. • How to draft your songs while avoiding the common pitfalls of losing perspective and giving up. • Examining the unexpected reasons we enjoy music. • Calming your thoughts so they don't sabotage your music and other helpful tools to help execute your music as best as possible.

**Listening to Classic American Popular Songs** Allen Forte,Richard Lalli,Gary Chapman,2008-10-01 In the twenties, thirties, and forties, now-legendary American songwriters and lyricists created a repertoire of popular songs, songs that have captured the hearts of generations of music lovers. George Gershwin, Richard Rodgers, Cole Porter, Jerome Kern, Harold Arlen, Hoagy Carmichael and many others, along with such lyricists as Ira Gershwin, Lorenz Hart, and Dorothy Fields, produced extraordinary songs of signal importance to the American musical heritage. In this book Allen Forte shares his love of American popular song. He discusses in detail twenty-three songs, ranging from Gershwin's “Fascinating Rhythm” (1924) to Irving Berlin's “Steppin' Out with My Baby” (1947), guiding readers and listeners toward a deeper appreciation of this vital and engaging music. Forte writes for the general reader, assuming no background other than a familiarity with basic music notation. Each song is discussed individually and includes complete lyrics and simple leadsheet notation. Forte discusses the songs' distinctive musical features and their sophisticated, often touching and witty lyrics. Readers can follow the music while they listen to the accompanying compact disc, which was specially recorded for this volume by baritone Richard Lalli and pianist-arranger Gary Chapman, with Allen Forte, pianist-arranger for “Embraceable You” and “Come Rain or Come Shine”. Learn about these favorite songs and more: “How Long Has This Been Going On?” “What Is This Thing Called Love?” “Embraceable You” “Autumn in New York” “I've Got You Under My Skin” “The Nearness of You” “That Old Black Magic” “Come Rain or Come Shine”

**Lipsynching** Merrie Snell,2020-01-09 What does it mean when a singing voice is detached from an originating body through recording? And how does this affect consumers of recorded song? This book

examines the practice of lipsyncing to pre-recorded song in both professional and vernacular contexts, covering over a century of diverse artistic practices from early cinema through to the current popularity of self-produced internet lipsyncing videos. It examines the ways in which we listen to, respond to, and use recorded music, not only as a commodity to be consumed but as a culturally-sophisticated and complex means of identification, a site of projection, introjection, and habitation, and, through this, a means of personal and collective creativity.

Italian Annotated Bibliography of Tuna, Tuna-like and Billfish Species Antonio Di Natale, 2022-12-15 The Italian-annotated bibliography on tunas, tuna-like and billfish species is a sort of unicum, because for the very first time, it provides annotation in English for all papers published by Italian authors over the centuries in various languages. Taking into account that these species are an essential component of the Italian and Mediterranean culture, thousands of authors published a very high amount of papers since historical times, on various themes and subjects. These large fish species are nowadays not only essential elements of the marine trophic chain, but also important components of human seafood and the related fishery economy. This book makes all these papers internationally available for all scientists, helping them in their research activities and the annotations facilitate the searching work by species and keywords.
