Hindi Film Songs and the Cinema Anna Morcom, 2017-07-05 Since their beginnings in the 1930s, Hindi films and film songs have dominated Indian public culture in India, and have also made their presence felt strongly in many global contexts. Hindi film songs have been described on the one hand as highly standardized and on the other as highly eclectic. Anna Morcom addresses many of the paradoxes eccentricities and myths of not just Hindi film songs but also of Hindi cinema by analysing film songs in cinematic context. While the presence of songs in Hindi films is commonly dismissed as purely commercial this book demonstrates that in terms of the production process, musical style, and commercial life, it is most powerfully the parent film that shapes and defines the film songs and their success rather than the other way round. While they constitute India's still foremost genre of popular music, film songs are also situational, dramatic sequences, inherently multi-media in style and conception. This book is uniquely grounded in detailed musical and visual analysis of Hindi film songs, song sequences and films as well as a wealth of ethnographic material from the Hindi film and music industries. Its findings lead to highly novel ways of viewing Hindi film songs, their key role in Hindi cinema, and how this affects their wider life in India and across the globe. It will be indispensable to scholars seeking to understand both Hindi film songs and Hindi cinema. It also forms a major contribution to popular music, popular culture, film music studies and ethnomusicology, tackling pertinent issues of cultural production, (multi-)media, and the cross-cultural use of music in Hindi cinema. The book caters for both music specialists as well as a wider audience.

Processing Creativity Jesse Cannon, 2017-03-28 For decades, Jesse Cannon has been pushing

creative ideas in music. You may know him from writing one of the most popular books on the music business, *Get More Fans*, or from his recording credits on records with the most varied set of bands you've ever seen, including The Cure, The Misfits, Animal Collective, Brand New, The Dillinger Escape Plan, The Menzingers, Limp Bizkit, Basement, Leftover Crack, Saves The Day, Senses Fail, Weird Al Yankovich, Lifetime, Say Anything, NOFX, Flatsound, Man Overboard, Bad Books, Transit, Somos, Cavetown, and over a thousand others. You may also know his work as the host of the podcasts *Atlantic Records Inside The Album*, *Noise Creators*, and *Off The Record*, his popular YouTube channel *Musformation*, as a producer for popular podcasts at *Rolling Stone & The Daily Beast* or from his writing at outlets like *Alternative Press*, *Tape Op*, & *Hypebot*. In *Processing Creativity: How To Write Songs People Love* he chronicles the lessons learned working on all those records and writing about music's most progressive ideas, taking on the subject he knows the most about; helping musicians fulfill their creative vision. The book is the culmination of four years of poring over scientific studies, books, and thoughts from top creators as well as his own experience to write a book every musician should listen to about what goes into making great music versus what bands do when they make the innumerable bad songs we hear each day. Covering the pitfalls of creating music, the book thoroughly explores the hidden reasons we actually like music, how to get along with our collaborators, and patterns that help creativity flourish. While every musician says that being creative is the most important part of their life, they barely explore what's holding them back from making music they are happy with. When trying to navigate the ways our creative endeavors fail there's no YouTube tutorial, listicle, or college course that can help navigate the countless creative pitfalls that can ruin your music but after reading this book you will have the knowledge to guide you to make songs the world loves. The essential ideas on creating music are

detailed in a simple, fun language that's littered with quotes and insight from the most innovative creators of our time including: • How to make highly emotional music that compels listeners to listen again and again. • Effectively dealing with collaborative problems like “too many chefs in the kitchen,” giving helpful criticism or dealing with stubborn collaborators. • Finding inspiration when you have writer's block. • How to draft your songs while avoiding the common pitfalls of losing perspective and giving up. • Examining the unexpected reasons we enjoy music. • Calming your thoughts so they don't sabotage your music and other helpful tools to help execute your music as best as possible.

Music/Video Gina Arnold, Daniel Cookney, Kirsty Fairclough, Michael N. Goddard, 2017-08-10 This book is a lively, comprehensive and timely reader on the music video, capitalising on cross-disciplinary research expertise, which represents a substantial academic engagement with the music video, a mediated form and practice that still remains relatively under-explored in a 21st century context. The music video has remained suspended between two distinct poles. On the one hand, the music video as the visual sheen of late capitalism, at the intersection of celebrity studies and postmodernism. On the other hand, the music video as art, looking to a prehistory of avant-garde film-making while perpetually pushing forward the digital frontier with a taste for anarchy, controversy, and the integration of special effects into a form designed to be disseminated across digital platforms. In this way, the music video virally re-engenders debates about high art and low culture. This collection presents a comprehensive account of the music video from a contemporary 21st century perspective. This entails revisiting key moments in the canonical history of the music video, exploring its articulations of sexuality and gender, examining its functioning as a form of artistic expression between music, film and video art, and following the music video's dissemination

into the digital domain, considering how digital media and social media have come to re-invent the forms and functions of the music video, well beyond the limits of “music television”.

Lipsynching Merrie Snell,2020-01-09 What does it mean when a singing voice is detached from an originating body through recording? And how does this affect consumers of recorded song? This book examines the practice of lipsynching to pre-recorded song in both professional and vernacular contexts, covering over a century of diverse artistic practices from early cinema through to the current popularity of self-produced internet lipsynching videos. It examines the ways in which we listen to, respond to, and use recorded music, not only as a commodity to be consumed but as a culturally-sophisticated and complex means of identification, a site of projection, introjection, and habitation, and, through this, a means of personal and collective creativity.

Listening to Classic American Popular Songs Allen Forte, Richard Lalli, Gary Chapman, 2008-10-01 In the twenties, thirties, and forties, now-legendary American songwriters and lyricists created a repertoire of popular songs, songs that have captured the hearts of generations of music lovers. George Gershwin, Richard Rodgers, Cole Porter, Jerome Kern, Harold Arlen, Hoagy Carmichael and many others, along with such lyricists as Ira Gershwin, Lorenz Hart, and Dorothy Fields, produced extraordinary songs of signal importance to the American musical heritage. In this book Allen Forte shares his love of American popular song. He discusses in detail twenty-three songs, ranging from Gershwin's "Fascinating Rhythm" (1924) to Irving Berlin's "Steppin' Out with My Baby" (1947), guiding readers and listeners toward a deeper appreciation of this vital and engaging music. Forte writes for the general reader, assuming no background other than a familiarity with basic music notation. Each song is discussed individually and includes complete lyrics and simple leadsheet notation. Forte discusses the songs' distinctive musical features and

their sophisticated, often touching and witty lyrics. Readers can follow the music while they listen to the accompanying compact disc, which was specially recorded for this volume by baritone Richard Lalli and pianist-arranger Gary Chapman, with Allen Forte, pianist-arranger for “Embraceable You” and “Come Rain or Come Shine”. Italian Annotated Bibliography of Tuna, Tuna-like and Billfish Species Antonio Di

Natale,2022-12-15 The Italian-annotated bibliography on tunas, tuna-like and billfish species is a sort of unicum, because for the very first time, it provides annotation in English for all papers published by Italian authors over the centuries in various languages. Taking into account that these species are an essential component of the Italian and Mediterranean culture, thousands of authors published a very high amount of papers since historical times, on various themes and subjects. These large fish species are nowadays not only essential elements of the marine trophic chain, but also important components of human seafood and the related fishery economy. This book makes all these papers internationally available for all scientists, helping them in their research activities and the annotations facilitate the searching work by species and keywords.

Experiencing Music Video Carol Vernallis,2004-06-16 Music videos have ranged from simple tableaux of a band playing its instruments to multimillion dollar, high-concept extravaganzas. Born of a sudden expansion in new broadcast channels, music videos continue to exert an enormous influence on popular music. They help to create an artist's identity, to affect a song's mood, to

determine chart success: the music video has changed our idea of the popular song. Here at last is a study that treats music video as a distinct multimedia artistic genre, different from film, television, and indeed from the songs they illuminate—and sell. Carol Vernallis describes how verbal, musical, and visual codes combine in music video to create defining representations of race, class, gender, sexuality, and performance. The book explores the complex interactions of narrative, settings, props, costumes, lyrics, and much more. Three chapters contain close analyses of important videos: Madonna's *Cherish*, Prince's *Gett Off*, and Peter Gabriel's *Mercy St.*
