**Everyday Movies** Haidee Wasson,2020-11-10 Everyday Movies documents the twentieth-century rise of portable film projectors. It demonstrates that since World War II, the vast majority of movie-watching did not happen in the glow of the large screen but rather took place alongside the glitches, distortions, and clickety-clack of small machines that transformed home, classroom, museum, community, government, industrial, and military venues into sites of moving-image display. Reorienting the history of cinema away from the magic of the movie theater, Haidee Wasson illustrates the remarkable persistence and proliferation of devices that fundamentally rejected the sleek, highly professionalized film show. She foregrounds instead another kind of apparatus, one that was accessible, affordable, adaptable, easy to use, and crucially, programmable. Revealing rich archival discoveries, this book charts a compelling and original history of film that brings to light new technologies and diverse forms of media engagement that continue to shape contemporary life.

**Ivanna** A. Emmanuel Reed,2018-09-28 The price she paid for fortune and fame was far more than what her soul was willing to gamble. But once you roll the dice in the industry of sin, it's far too late to get out the game. Ivanna Julia Winters dreamed of nothing more than to become the world's next top model, but when she refused to sell her soul to the devil, her whole world came crashing down. Determined to redeem herself from her dark past, she writes an inspiring novel as a way to convey a powerful message to the world before it's too late. As her life continued to spiral out of control, the struggle to find paradise beyond the clouds of her insanity became nearly impossible to achieve. But when she found her secret admirer, his love became the silver lining that brightened up her whole world.

*A Modern Way to Live* Matt Gibberd,2021-10-28 Find happiness at home with five guiding principles from cultural phenomenon THE MODERN HOUSE. 'A source of fascination, inspiration and fantasy' Guardian In 2005, childhood friends Matt Gibberd and Albert Hill set out to convince people of the power of good design and its ability to influence our wellbeing. They founded The Modern House - in equal parts an estate agency, a publisher and a lifestyle brand - and went on to inspire a generation to live more thoughtfully and beautifully at home. As The Modern House grew, Matt and Albert came to realise that the most successful homes they encountered - from cleverly conceived studio flats to listed architectural masterpieces - had been designed with attention to the same timeless principles: Space, Light, Materials, Nature and Decoration. In this lavishly illustrated book, Matt tells the stories of these remarkable living spaces and their equally remarkable owners, and demonstrates how the five principles can be applied to your own space in ways both large and small. Revolutionary in its simplicity, and full of elegance, humour and joy, this book will inspire you to find happiness in the place you call home. PRAISE FOR THE MODERN HOUSE: 'One of the best things in the world' GQ 'The Modern House transformed our search for the perfect home' Financial Times 'Nowhere has mastered the art of showing off the most desirable homes for both buyers and casual browsers alike than The Modern House' Vogue

The Culture of Yellow Sabine Doran,2013-09-26 This is the first book to explore the cultural significance of the color yellow, showing how its psychological and aesthetic value marked and shaped many of the intellectual, political, and artistic currents of late modernity. It contends that yellow functions during this period primarily as a color of stigma and scandal. Yellow stigmatization has had a long history: it goes back to the Middle Ages when Jews and prostitutes were forced to wear yellow signs to emphasize their marginal status. Although scholars

have commented on these associations in particular contexts, Sabine Doran offers the first overarching account of how yellow connects disparate cultural phenomena, such as turn-of-the-century decadence (the yellow nineties), the rise of mass media (yellow journalism), mass immigration from Asia (the yellow peril), and mass stigmatization (the yellow star that Jews were forced to wear in Nazi Germany). The Culture of Yellow combines cultural history with innovative readings of literary texts and visual artworks, providing a multilayered account of the unique role played by the color yellow in late nineteenth- and twentieth-century American and European culture.

*Making To-Live-For Dolls* Celia Desmond, 2013-04 This book is a must read for anyone making a porcelain doll wanting to enter in a competition. In the book you will find tips and information from notes taken at seminars and private lessons with the top doll makers in the world today. There are two main categories of porcelain dolls modern and antique. Modern dolls are those sculpted by modern artists. Antique dolls are those that were first introduced and sold either more than fifty years ago or, by some definitions, more than one hundred years ago. Actual antique dolls can be purchased for enjoyment and possibly to use as models for the making of reproductions. Excellent reproductions of the antique dolls can be made by modern-day artists. Modern dolls are those sculpted by current-day sculptors. Modern dolls can be painted and dressed in any way the doll artisan prefers. They can have painted eyes, or the holes can be cut out from the porcelain before the bisque firing to allow the insertion of glass eyes. Neither technique is easy. Each has its own challenges, and both look nice when done well. These dolls can be dressed in any way the artist wishes as well. Reproductions of antiques must be done so that the artist reproduces the original patterns and colors as they were initially done on the specific dolls. This means reproducing the eyes with the same number of lashes that the artists painted on the antique dolls, the same slant and the same spacing. Dressing the antique reproductions poses another challenge as the dolls should be dressed in a period costume appropriate for that doll. The fabrics should be natural fibers, often actual vintage or antique fabrics. Significant research is required to determine what styles, fabrics, and colors should be used for specific dolls. This book has a wonderful collection of tips collected from the experts! These are helpful for all doll makers, especially people preparing for competitions. This book contains a wealth of information for lovers and makers of both modern and reproduction antique dolls. The information has been collected over the years from most of the most talented and experienced doll makers in the world. It is shared here with those interested in preserving this art, approaching each aspect of the doll in the best way possible.

Fear and Clothing: Unbuckling American Style Cintra Wilson, 2015-09-08 As the former New York Times Critical Shopper, and voted one of Fashionista's 50 Most Influential People in New York Fashion, Cintra Wilson knows something about clothes. And in Fear and Clothing, she imparts her no-holds-barred, totally outrageous, astute, and hilarious wisdom to the reader. Wilson reports the findings of her fashion road trip across the United States, a journey that took three years and ranges across the various economic belt regions of America: the Cotton, Rust, Bible, Sun, Frost, Corn, and Gun Belts. Acting as a kind of fashion anthropologist, she documents and decodes the sartorial sensibilities of Americans across the country. Our fashion choices, she argues, contain a riot of visual cues that tell everyone instantly who we are, where we came from, where we feel we belong, what we want, where we are going, and how we expect to be treated when we get there. With this philosophy in hand, she tackles and unpacks the meaning behind the uniforms of Washington DC politicians and their wives, the costumes of Kentucky Derby spectators, the attractive draw of the cowboy hat in Wyoming, and what she terms the stealth wealth of distressed clothing in Brooklyn. In this smart and rollicking book, Wilson illustrates how every closet is a declaration of the owner's politics, sexuality, class, education, hopes, and dreams. With her signature wit and utterly irreverent humor, Wilson proves that, by donning our daily costume, we create our future selves, for good or ill. Indeed: your fate hangs in your closet. Dress wisely.

**Processing for Android** Andrés Colubri, 2017-11-02 Learn how to use the Processing programming language and environment to create Android applications with ease. This book covers the basics of the Processing language, allowing users to effectively program interactive graphics in 2D and 3D. It also details the application of these techniques to different types of Android devices (smartphones, tablets, wearables and smartwatches). Processing for Android walks you through the steps of taking an initial idea to a final app. With this book, you will be able to write engaging apps with interactive visuals driven by motion and location information obtained from the device's sensors; including health data from the wearer, like step count and heart rate. An advantage of Processing for Android over more complex programming environments is the ability for users to focus on the interactions and visual output of their code rather than in the implementation details of the Android platform.

This book goes through a comprehensive series of hand-on projects, ranging from simple sketches to more complex projects involving sensors and integration with larger apps. It also covers important aspects such as exporting your Processing projects as signed apps are ready to upload to the Google Play store and be share with the world! What You'll Learn Write apps and live wallpapers for smartphones and tablets Design and implement interactive watch faces Create Virtual Reality experiences for Cardboard devices Integrate Processing sketches into larger apps and Android Studio Export projects as completed apps ready to distribute through Google Play Store Who This Book Is For Artists, designers, students, researchers, and hobbyists who are not necessarily Android experts, but are looking to write mobile apps that make creative use of interactive graphics, sensor data, and virtual reality.

*Last Witnesses* Svetlana Alexievich,2020-06-16 "A masterpiece" (The Guardian) from the Nobel Prize-winning writer, an oral history of children's experiences in World War II across Russia NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST For more than three decades, Svetlana Alexievich has been the memory and conscience of the twentieth century. When the Swedish Academy awarded her the Nobel Prize, it cited her for inventing "a new kind of literary genre," describing her work as "a history of emotions . . . a history of the soul." Bringing together dozens of voices in her distinctive style, *Last Witnesses* is Alexievich's collection of the memories of those who were children during World War II. They had sometimes been soldiers as well as witnesses, and their generation grew up with the trauma of the war deeply embedded—a trauma that would change the course of the Russian nation. Collectively, this symphony of children's stories, filled with the everyday details of life in combat, reveals an altogether unprecedented view of the war. Alexievich gives voice to those whose memories have been lost in the official narratives, uncovering a powerful, hidden history from the personal and private experiences of individuals. Translated by the renowned Richard Pevear and Larissa Volokhonsky, *Last Witnesses* is a powerful and poignant account of the central conflict of the twentieth century, a kaleidoscopic portrait of the human side of war. Praise for *Last Witnesses* "There is a special sort of clear-eyed humility to [Alexievich's] reporting."—The Guardian "A bracing reminder of the enduring power of the written word to testify to pain like no other medium. . . . Children survive, they grow up, and they do not forget. They are the first and last witnesses."—The New Republic "A profound triumph."—The Big Issue "[Alexievich] excavates and briefly gives prominence to demolished lives and eradicated communities. . . . It is impossible not to turn the page, impossible not to wonder whom we next might meet, impossible not to think differently about children caught in conflict."—The Washington Post
