Red Hat Enterprise Linux 8: Desktops and Administration Richard Petersen, 2019-12-10 This book examines Red Hat Enterprise Linux 8 for the desktop user and administrator (including RHEL 8.1). Though administrative tools are covered, the emphasis is on what a user would need to know to perform tasks. The focus here is on what users face when using Red Hat Enterprise Linux 8, covering topics like applications, the GNOME desktop, shell commands, and the administration and network tools. The GNOME desktop is examined in detail, including configuration options. Administration topics are also covered including user management, software management, repositories, services, systemd, system monitoring, shell configuration, encryption, network connections, shared resources, authentication, SELinux, firewalls, shell configuration, backups, and printers. The book is organized into two parts: desktops and administration.

Pete The Nerd's How To Speed Up Your Slow Computer For Everyday Users Pete Moulton, 2014-02-05 Pete the Nerd covers every inch of ground possible in this easy-to-read and easy-to-follow guidebook to speeding up slow computers. Computer beginners can follow step-by-step instructions, and more advanced computer users will enjoy the systemic separation of fact versus fiction in speed-up strategies. The name of the game is "every little bit helps," so as the chapters progress, readers can implement as many or as few of the approaches as they wish. From tiny tweaks to dramatic, sweeping changes, Pete gives a wide range of options that cater to different computer users' personal levels of comfort with troubleshooting. Instead of a simple list of techniques, read about the rationale behind the speed-up expectation, and make an educated decision which combination of tips and tricks works for you. You deserve to stop all the waiting, so take your computer from a whirring heap of frustration to a quietly humming, efficient machine.
