Ryan Adams Michael Heatley,2010-05-14 Ryan Adams is American roots music's first superstar of the new century. First finding cult fame with alternative country band Whiskeytown, his rebellious image and photogenic street urchin looks have won a wide fan following that includes Elton John and Noel Gallagher. In this first account of his life, Michael Heatley traces Adams' progress from small town North Carolina to trysts with actress Winona Ryder, the broken romances and personal demons that have fuelled his most affecting work and his dedication to legendary country-rock pioneer Gram Parsons. Still in his mid twenties, Adams has the world at his feet. If, unlike Parsons, he opts for self-preservation rather than the self-destructive image he often portrays. This book assesses the past, present and future of a performer with the potential and the eclecticism to be 'the new Neil Young'.

*Phil Spector: Wall Of Pain* Dave Thompson,2010-03-04 In 2009 Phil Spector, the legendary record producer, was sentenced to life imprisonment for the murder of B-movie actress Lana Clarkson. It was an ignominious climax to a life of staggering highs and scarcely believable lows. Wall of Pain, Dave Thompson's biography of Phil Spector, has now been updated to include important details of the seemingly interminable trial. The architect of the Wall Of Sound, Spector's already iconic status in the music world was enhanced by his work with The Beatles. Writer and producer of countless hits, his innovative genius in the studio revitalised music production in the 1960s and changed the way we listen to music forever. But there was always a dark side to Phil Spector. His success became over-shadowed by his reputation for eccentricity and excess, his fractious personality and fascination with handguns eventually proving a lethal combination. Featuring interviews from those closest to him, including former wife Ronnie Spector, Wall of Pain concludes the painful tale of pop's tortured genius.

*The Life and Death of Classical Music* Norman Lebrecht,2007-04-10 In this compulsively readable, fascinating, and provocative guide to classical music, Norman Lebrecht, one of the world's most widely read cultural commentators tells the story of the rise of the classical recording industry from Caruso's first notes to the heyday of Bernstein, Glenn Gould, Callas, and von Karajan. Lebrecht compellingly demonstrates that classical recording has reached its end point-but this is not simply an exposé of decline and fall. It is, for the first time, the full story of a minor art form, analyzing the cultural revolution wrought by Schnabel, Toscanini, Callas, Rattle, the Three Tenors, and Charlotte Church. It is the story of how stars were made and broken by the record business; how a war criminal conspired with a concentration-camp victim to create a record empire; and how advancing technology, boardroom wars, public credulity and unscrupulous exploitation shaped the musical backdrop to our modern lives. The book ends with a suitable shrine to classical recording: the author's critical selection of the 100 most important recordings-and the 20 most appalling. Filled with memorable incidents and unforgettable personalities-from Goddard Lieberson, legendary head of CBS Masterworks who signed his letters as God; to Georg Solti, who turned the Chicago Symphony into " the loudest symphony on earth"-this is at once the captivating story of the life and death of classical recording and an opinioned, insider's guide to appreciating the genre, now and for years to come.

Part I: description of archival materials. Part II: historical overview of the Dutch in Ghana and selected themes from Ghana's history. With bibliography and index.

The Scientific Correspondence of H.A. Lorentz A.J. Kox,2008-09-18 This volume presents a selection of 434 letters from and to the Dutch physicist and Nobel Prize winner Hendrik Antoon Lorentz (1853-1928), covering the period from 1883 until a few months before his death in February 1928. The sheer size of the available correspondence (approximately 6000 letters from and to Lorentz) preclude a full publication. The letters included in this volume have been selected according to various criteria, the most important of which is scientific importance. A second criterion has been the availability of letters both from and to Lorentz, so that the reader can follow the exchange between Lorentz and his correspondent. Within such correspondences a few unimportant items, dealing with routine administrative or organizational matters, have been omitted. An exception to the scientific criterion is the exchange of letters between Lorentz and Albert Einstein, Max Planck, Woldemar Voigt, and Wilhelm Wien during World War I: these letters have been included because they shed important light on the disruption of the scientific relations during the war and on the political views of these correspondents as well as of Lorentz. similar reasons the letters exchanged with Einstein and Planck on post-war political issues have been included. Biographical sketch Hendrik Antoon Lorentz was born on July 18, 1853 in the Dutch town of Arnhem. He was the son of a relatively well-to-do owner of a nursery.
